TITLE	The College Cost Book, 1987-88. Eighth Edition.
INSTITUTION	College Entrance Examination Board, New York, N.Y. Coll. Scholarship Service.
REPORT NO	ISBN-0-87447-288-1
PUB DATE	87
NOTE	285p.
AVAILABLE FROM	College Board Publications, Box 886, New York, NY 10101 ($10.95; 20% discount on 5 or more copies).
PUB TYPE	Books (010) -- Guides - Non-Classroom Use (055) -- Statistical Data (110)
EDRS PRICE	MF01 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS	*Eligibility; Family Income; *Federal Aid; Higher Education; Money Management; *Need Analysis (Student Financial Aid); Noninstructional Student Costs; Parent Financial Contribution; Private Financial Support; Scholarships; State Aid; *Student Costs; *Student Financial Aid; Student Loan Programs; Tuition
IDENTIFIERS	*Paying for College

ABSTRACT

Expenses at over 3,100 schools and colleges are identified for 1987-1988, and information is presented on student financial aid, immediate and long-range planning for meeting college costs, and the new tax laws. Colleges that offer tuition and fee waivers and special tuition payment plans are specified. New information for each college includes the percentage of freshmen receiving need-based and other types of aid; the availability of academic, athletic, art, music/drama, and other scholarships; and application deadlines and need analysis forms required. The following financial aid sources are examined: Pell Grants, Supplemental Educational Opportunity Grants, Perkins Loans (formerly National Direct Student Loans), College Work-Study Program, the Guaranteed Student Loan, service academies, Reserve Officers' Training Corps, Bureau of Indian Affairs, veterans' education benefits, vocational rehabilitation benefits, state government programs, aid from the college, and help from private student aid sources. Included are: a glossary, sample financial aid forms, national and regional tables of typical colleges costs, need analysis worksheets, colleges listed alphabetically, and information sources about state grant programs and the Guaranteed Student Loan Program. COLLEGE SCHOLARSHIP SERVICE

COLLEGE ENTRANCE EXAMINATION BOARD
NEW YORK

The College Scholarship Service (CSS) is an activity of the College Board concerned with improving equal educational opportunity. The CSS through the determination of financial need assists in the equitable distribution of financial assistance to students. Its services are offered to students and their parents, to secondary schools, to noncollegiate sponsors of financial aid programs, and to all institutions of postsecondary education.

The College Board is a nonprofit membership organization that provides tests and other educational services for students, schools, and colleges. The membership is composed of more than 2,500 colleges, schools, school systems, and education associations.

Copies of this book may be ordered from your local bookseller or from College Board Publication Orders, Box 886, New York, New York 10101. The price is $10.95.

Editorial inquiries regarding this book should be addressed to the College Scholarship Service, The College Board, 45 Columbus Avenue, New York, New York 10023-6992.

Part II. Information about colleges and universities

1. College expenses and financial aid 83

2. Institutions listed alphabetically 220

3. Sources of information about state grant programs and the Guaranteed Student Loan Program 244

4. Colleges that offer tuition and/or fee waivers and special tuition payment plans 254

Preface

This book starts out from a simple premise: without advance planning, almost no one can afford to pay for college. But with planning, *anybody* can. It's true for families whose children are already high school juniors and seniors—and even truer for families whose children are still quite young.

You may have doubted that education or training after high school is within your family's reach. *That's probably not true.*

You may have assumed that there's nothing you can do to help yourself or improve your chances of finding the outside help you need. *That's definitely not true.*

This book is designed to help students and their families meet college costs. If you're worried about your family's ability to pay future educational expenses, early planning *can* help. The *purpose* of planning is twofold:

- to get as much mileage as you can out of your own resources, and
- to secure the additional outside help—the "financial aid"—you may need.

Planning ahead to meet college costs involves several different kinds of activities. This book will:

- show you how to estimate the full costs of attending the colleges you're considering,
- help you to estimate what share of those costs you and your family will probably be expected to bear,
- prove that you can make time work *for* you in covering your share of the costs,
- describe different ways that families can make their costs more manageable,
- help you estimate your own probable need and eligibility for financial aid,
- explain the various types and sources of financial aid available and what you need to do to apply, and
- assist you in developing a personal financing plan and timetable for gathering the resources *you* need.

Next to buying a home, the money that you and your family pay toward college costs may well be the largest financial investment you ever make in your lifetime. You owe it to yourself to investigate all your options beforehand, and then to manage that investment as carefully as you would any other.

The author gratefully acknowledges the contributions of the many individuals who assisted in the development of the 1987-88 edition of *The College Cost Book*. Data in the several sections of Part II were compiled by the editorial staff of Data-Based Publications and Services under the direction of Jean Marzone, using information compiled through the College Board's Annual Survey of Colleges. The book was edited by Susan Lovell and Joseph Morsicato.

Hal Higginbotham and William Hoffman were very generous with their time and their insights, reading portions of the manuscript and offering a number of useful suggestions. Alice Barmore, Brooke Breslow, Fred Duda, Hal Higginbotham, Jack Joyce, Sheila Kokidko, Maureen Matheson, and Miriam Vargas provided valuable assistance in various aspects of research and statistical analysis. Luisa Emordi-Parker, Mary Gaffney, and Roxana Menes helped prepare the manuscript for publication.

The author also wishes to acknowledge the ongoing efforts of the College Scholarship Service (CSS) Council Committee on Standards of Ability to Pay (CSAP) and the Southern Association of Student Financial Aid Administrators (SASFAA) to articulate some of the important economic, social, and educational issues surrounding long-term financial planning to meet future postsecondary expenses. Their ideas and insights have influenced the author's own thinking and writing considerably, as reflected in some of the new material on educational financial planning that appears in the text of this edition for the first time.

Part I. Paying for college

1. What does college cost?

Some of the best things in life may be free, but unfortunately, college isn't one of them.

In fact, it costs even more than you may think. High as the prices may seem to the family that's facing them, the truth is, they represent only part of the real costs. Only a very few colleges charge you the *full* costs of providing an education.

Public colleges and universities receive large operating subsidies from state and local taxes. Most independent or private colleges and universities meet at least some of their operating expenses through endowments, contributions from graduates, and government or foundation grants. Virtually all of them invest money and use the return to help pay for their activities. The influx of federal and state institutional aid for research, facilities, and special programs is an important part of most colleges' operating budgets, helping to hold down the amounts that must be charged to students and their families.

However, all of this may not be much consolation to students and parents like you who actually have to find a way to pay the bills. Average annual costs of attendance continue to climb for virtually every postsecondary educational option, from commuting to a low-cost community college to living on campus at a high-cost private institution.

The purpose of this book is to help you plan to meet college costs. Because every family's personal and financial circumstances are different, each family's plan for meeting college costs will be different, too. The worksheets in Chapter 9 follow three sample students—Andrea, Beth, and Carlos—from different family and financial backgrounds as they plan to meet college costs. Space is also provided for you to make some preliminary plans.

Your first step in planning is to learn what college costs. Part II of this book lists the average student expenses at over 3,000 colleges and universities for the 1987-88 academic year (AY). The average expenses at different kinds of colleges are listed in Chapter 9.

The components of college costs

Regardless of where you enroll, your expenses include both direct educational expenses *and* living expenses, and typically consist of five parts:

- tuition and fees
- books and supplies
- room and board
- personal expenses
- transportation

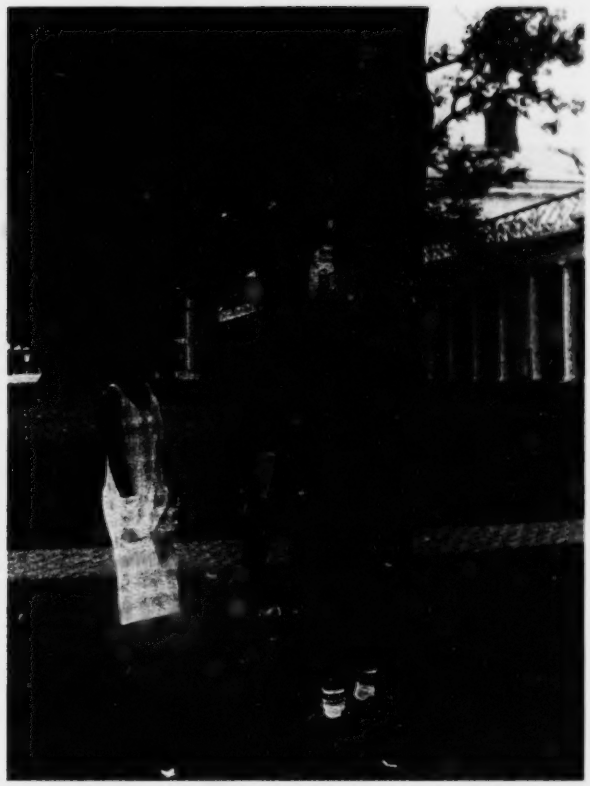
Many students have additional expenses not covered under any of these categories, such as costs arising from medical care or a disability. Be sure to include these extra expenses in estimating the costs of attending the particular colleges you're considering.

Don't let the costs scare you! As this book explains, you may not have to pay the whole amount yourself, *and* there are ways of making more manageable the part you do have to pay.

Tuition and fees

Tuition is the charge for instruction. Fees may be charged for services such as the library, student activities, or the health center. The amount of tuition and fees charged by a particular college depends on many factors, but the most significant factor is what kind of college it is.

Because they receive funds from taxes, tuition and fees at public institutions are generally the lowest, particularly for legal residents of the state or district in which they are located. Most two- and four-year public colleges charge higher tuition for nonresidents, however. This "out-of-state" tuition (or "out-of-district" tu-



The budget for maintaining, staffing, and operating college facilities is met by federal and state aid, endowments, and investments in addition to charges to students.

ition, in the case of two-year community colleges) often can make the cost of attending a public institution as high as the cost of attending many private institutions. (In rare instances, religiously affiliated colleges may add a surcharge to students who are not members of that religious group.) Tuition at private colleges is usually much higher than at public institutions, because private colleges must charge a larger percentage of the real costs. Tuition at proprietary or profit-making institutions (such as many trade and technical schools) is usually set at a level to recover all of their operating costs plus a profit.

The tables in Part II of this book show the average tuition and fees charged to most first-time, full-time students. Part-time charges, usually set by credit or semester hour, may work out to be higher per unit. Tuition and fees for upperclassmen and graduate or professional students may also vary.

Books and supplies

Every college student has to buy books, pencils, paper, and other supplies. The amount you spend for books and supplies will vary only slightly by type of institution but is generally related to the curriculum or courses you select. In some academic fields, for instance, students may have to spend a good deal more than the averages cited in Part II of this book.

Art students, for example, may need more extensive supplies such as canvasses, paints, brushes, and clay. Engineering students may need calculators or slide rules. Students in the sciences may have additional expenses for lab work. Computer science students may need to buy more computer time, or even purchase personal computers. In some programs, the textbooks are more expensive simply because the "information explosion" causes rapid changes in the field.

Room and board

Room and board means basic living expenses for food and housing. Regardless of the kind of institution you choose, you will have to consider these expenses.

You may choose to live in a dormitory on campus or in other college-operated housing located near campus (such as college-owned apartments). Although some

private two-year colleges have college-operated housing available, most public community colleges do not.

Or you may want to live in privately owned housing, such as an apartment or rooming house near campus. At many large colleges and universities where on-campus housing is limited, students often live in dormitories for the first year or two and then shift to off-campus private housing.

Or you may choose to live at home with your parents and commute to campus.

The terms "resident student" and "commuter student" can be confusing. In this book, students who live in dormitories or in off-campus, college-owned housing away from their families are called "resident students" (not to be confused with the term "legal resident" used in the discussion of tuition and fees). "Commuter students" are those who live at home with their families. Many colleges have additional budget categories designed to cover students who live off campus in private housing; information about estimated expenses for such students is available in college catalogs and financial aid bulletins.

Colleges with their own housing typically charge residents on a nine-month basis for room rental and most meals, excluding holiday and vacation periods. The room and board charge is built into the student expense budget. Colleges also expect that students living in privately owned, off-campus housing have a similar level of expense (although this is sometimes estimated as somewhat higher or lower than the college's own room and board costs, depending on the local housing market).

Commuter students, on the other hand, are generally assumed to have somewhat lower expenses than resident students because they do not have to pay for housing. However, families should remember that they will still need to buy food for the student and pay for other normal living expenses. For example, if classes start early in the morning and go on until late at night, commuter students will need to buy at least one meal a day, and possibly additional snacks in the student union or coffee shop. Therefore, the estimated cost of food and other expenses at home is usually built into commuter student expense budgets for financial aid purposes. Take these costs into account in your planning.

Personal expenses

No matter what kind of institution you choose, you will have some personal expenses for such things as clothing, laundry, toiletries, recreation, medical insurance and care, and perhaps incidental furnishings for your dormitory room. This is an area in which you can economize, but colleges usually estimate that students spend at least $700 to $800 per academic year on such items.

Transportation

All students spend some money for travel. Resident students who live on or near campus must travel to get there at the start of the academic year and return home at the end; most also go home at least once during the year. If you plan to live at college but expect to travel home frequently, your transportation costs may be considerably higher than the averages shown in this book or reported by individual colleges. Include estimated travel costs in your planning. For financial aid purposes, colleges often budget students for two round-trips home per year by the lowest-cost means of travel possible.

Commuter students who travel to and from campus daily also have travel expenses, whether they use public transportation or a private car. The costs of gasoline and daily parking can add up quickly, so estimate carefully. These costs, too, are built into student expense budgets by colleges for financial aid purposes.

Total expense budget

The total expense budget for a particular college is determined by adding up these five categories of expenses. The tables in Chapter 9—Tables, sample cases and worksheets—show the *average* total expenses for resident and commuter students in the 1987-88 academic year, as weighted by enrollments. For your own estimates, remember to consider any additional costs that might result from medical bills or other extraordinary personal expenses.

The total budgets at public colleges are lower than those at private colleges largely because their tuition and fees tend to be lower. There is not, however, a lot of difference in the other costs. So don't rule out a private college because of its higher tuition. Private institutions often have more financial aid resources that can help you make up the difference between costs and financial aid. *The greater your overall expense, the greater is the possibility of your demonstrating need for financial aid.*

Questions and answers about college costs

Q All of these costs look greater than anything we can afford. How can we possibly manage to pay for college?

A First, you may be eligible for some financial aid to help you meet part of the costs. What *you* pay for college is not necessarily what the price tag says. Second, you may be able to cut your costs and stretch your resources, as described in later chapters, but be prepared to contribute *something*. In very rare cases, parents are judged too poor to contribute anything toward the costs, but even then, the student himself or herself would be expected to contribute something out of summer job earnings. Third, remember that you and your family are already paying some of these expenses right now—your food, clothing, and personal expenses, for example.

That's not to say that your expenses as a member of the household aren't putting a strain on the household budget; they may well be. If you can manage it now, however, ask yourself seriously if your family can't manage it for another two or four years.

Q With college costs so high, as well as the rising cost of living in general, shouldn't I just look for the cheapest alternative?

A Not necessarily. Higher cost colleges often have more financial aid to help families bridge the gap between the costs and what they can afford to pay.

Q How do I know that the costs at a particular college won't keep going up during the years I'm enrolled?

A You don't. In fact, they probably *will* continue to rise. However, your family's income will probably rise, too. Whether your family's ability to pay will increase at the same rate as college costs depends on a lot of factors, including the overall state of the economy.

2. How much will you be expected to pay?

You should regard your family as the first—and probably primary—source of funds for education. Virtually all colleges, government agencies, and private student aid programs expect you to pay *something* toward college costs, according to your ability. Financial aid often makes up the difference between the costs of attendance and what a family can afford to pay. You may not have to pay as much as the prices listed in a college's catalog, if you are eligible for financial aid. Thus, estimating how much your family can reasonably be expected to pay toward educational expenses is a major part of understanding financial aid—and a critical aspect of goal setting.

Whether your family's share of the total costs amounts to five percent or 100 percent, you have a better chance of achieving the goal if you know how much you are aiming for.

To help them evaluate a family's financial strength, most college financial aid administrators and aid sponsors use a set of formulas that take into consideration income, assets, expenses, family size, and other factors. Here's how it works.

Evaluating a family's income

A family's total income for the previous calendar year is added up. Parents' wages and all other income (such as dividends, social security, or welfare benefits) are included, but not all of its income can be used to pay for college. For most families, the largest part of its annual income must be used to provide for basic living expenses—housing, food, medical care, clothing, and so forth.

In evaluating a family's financial strength, aid administrators also take into account other demands on the parents' income, such as taxes or unusually large medical or dental bills. Even the costs of working must be taken into consideration—clothing, transportation, meals away from home, and so forth. Elementary and secondary school tuition payments for other children may also be considered.

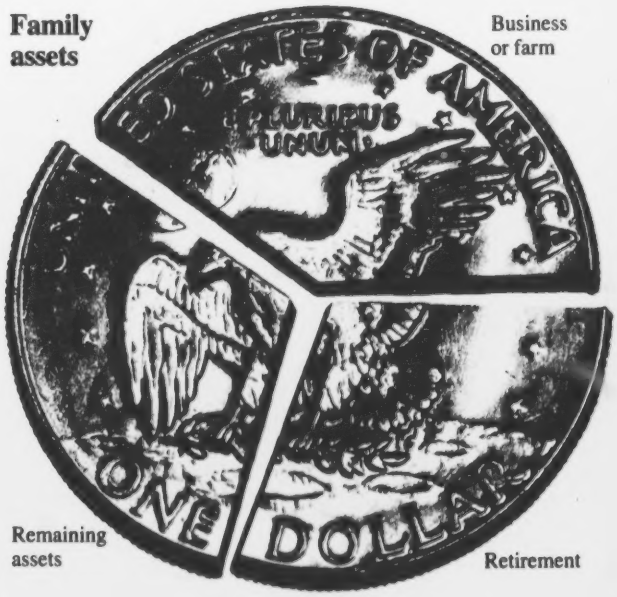
After all these family expenses are taken into account, the amount remaining to a family for other uses is quite a bit smaller than its original income. This remaining amount is called "available income." A family would be expected to use some of this remaining income to help pay college costs. The more available income a family has, the more would be expected of them.

Evaluating a family's assets

A family's assets are considered, too, because a family with assets is in a stronger financial position than a family with similar income but no assets. All of the assets are added up—equity in a home or other real estate, the value of a business or farm, cash, savings and checking accounts, stocks and bonds, and so forth.

In the same way that a family can't be expected to spend all its income on education, neither is it expected to use all its assets to pay for college. The system "protects" a portion of parents' assets for their use in retirement. The amount parents are allowed to protect gets larger as the age of the primary wage earner increases, because an older worker has fewer years to save for retirement than a younger one. A family could also "protect" a substantial portion of assets tied up in a business or farm, since a business or farm is also a source of income. If it were all used up to pay for college, there would be nothing left to generate income in the future.

Even when the various allowances are subtracted from total assets, a family is not expected to convert all its remaining assets into cash for college—only a portion called "income supplement from assets."



Available income (the discretionary part of a family's annual income) is added to the income supplement from assets to get a dollar amount called "adjusted available income." Not all the adjusted available income is tapped for educational expenses, only a percentage. A family with a higher adjusted available income is expected to pay a greater share of college costs than is a family with a lower adjusted available income.

If more than one family member is attending college at the same time, the amount parents are expected to pay is divided by the number attending, in order to find the expected contribution per student. This means that sometimes a family is not eligible for aid when the first child goes to college, but becomes eligible in subsequent years when a younger brother or sister starts college.

Evaluating a student's ability to pay

A student is usually expected to contribute toward college expenses, too, from savings and summer earnings. Colleges usually expect a freshman to contribute at least $700 a year from summer job earnings, as well as a large portion of any savings or other assets they may have. Upperclassmen are often expected to contribute even more from summer and part-time jobs—upwards of $900 a year. New rules enacted as part of the Higher Education Amendments of 1986 could result in even higher expectations for some students in future years.

Estimating your expected family contribution

Your family's "share" is the sum of what your parents can contribute from their income and assets *and* what you can contribute from your earnings, savings, and so forth. In the financial aid process, this amount is also referred to as the "expected family contribution":

	What parents can contribute from income
+	What parents can contribute from assets
+	What a student can contribute from income
+	What a student can contribute from assets
=	Expected family contribution.

If you're simply curious about what magnitude of expense this represents, the Parents' Contribution table in Chapter 9 gives you a sense of what is expected of *parents* at different income and asset levels, assuming they meet the specifications as to age, family size, and other characteristics. Pick the combination of annual income

Table 2.1. Average resource per student

Resources	*Percentage of students having resource*	*Average resource per student*	*Of total resources available, percentage from each resource*

and asset figures that most resembles your own, add a $700 student earnings expectation, and you will have a *very* crude approximation of how your family's fair share might work out.

You can make a much closer estimate of what might be expected of you and your family by fully completing the worksheets in Chapter 9. By subtracting your expected family contribution from the average costs of attendance at different kinds of colleges, you can get a sense of your remaining financial need.

You are usually eligible for financial aid equal to the amount of your demonstrated financial need. (Whether you are able to obtain all of the financial aid you're eligible for depends on a variety of factors, such as the availability of funds in any given year.)

Setting a goal

Your estimate of your expected family contribution—be it 5 percent or 100 percent of college costs—should be your goal. Your plan should be organized to help you achieve, or even exceed, that goal. If the goal seems too *big* by comparison with your household budget, don't panic! Chapters 3 and 4 give some ideas about ways to finance your share of the costs. If your goal seems too *small* by comparison with actual college costs, don't worry! Chapters 5 and 6 demonstrate how financial aid can bridge the gap. Whatever your goal, write it down on a piece of paper and refer to it occasionally. *Writing goals down on paper helps to make them real.*

Special note on independent (self-supporting) students

So far the discussion has focused on students who are dependent on their parents for financial support. If you are truly financially independent of your parents, you are called an "independent," or "self-supporting," student. This does not mean that your resources are always sufficient to pay your direct educational costs as well as

living expenses (for yourself and your family).

What it *does* mean is that, in considering your need for financial aid, colleges and other aid providers assume that your parents will not provide you with any support. (Some colleges will expect parents to supply *information*, however, regardless of the student's dependency status.)

Your ability as a self-supporting student to contribute toward college costs is evaluated on the basis of your own income, assets, and expenses. Expenses are typically higher than a dependent student's, because self-supporting students must provide for maintenance and living expenses year-round. You may also have extra expenses, such as child care, which may be considered in the student expense budget developed by a college for self-supporting financial aid applicants. Because they do not get help from their parents and because their expenses are usually higher than dependent students' expenses, self-supporting students often have a greater financial need. (They may also be expected to contribute more toward their own educational expenses. For instance, a single, self-supporting student with no dependents, is expected to come up with a minimum of $1200 from summer earnings, as compared to the $700 to $900 minimum expectation of dependent students.)

Who is considered self-supporting and who is not? There are certainly many students who really are self-supporting, such as younger students who no longer have financial support of their parents, or older students with families of their own. The problem is defining what really constitutes self-supporting status.

For the 1987-88 academic year, a new federal definition of independence, as outlined in the Higher Education Amendments of 1986, will be used to determine eligibility for the Pell Grant, Guaranteed Student Loan (GSL), and campus-based programs; most state, institutional, and private aid sponsors are expected to use a similar definition.

Under the new definition, you are *automatically* considered to be self-supporting if:

- you are at least 24 years old by January 1 of the award year (e.g., by January 1, 1988, for the 1987-88 award year),
- you are a veteran of the United States Armed Forces, regardless of age,
- you are an orphan or a ward of the court, or
- you have legal dependents of your own *other than* spouses.

You *may be* considered self-supporting if:

- you are a single undergraduate *and* were not claimed as an income tax exemption by your parents or guardians for the two calendar years preceding the award year (e.g., in 1985 and 1986 for the 1987-88 award year) *and* can demonstrate total resources of at least $4,000 per year in both years (from sources other than parents), conditions subject to verification prior to disbursement,
- you are married *and* can demonstrate, prior to disbursement, that you will not be claimed as an income tax exemption by your parents or guardians for the first year of the award year (e.g., the 1987 tax year for the 1987-88 award year),
- you are a graduate or a professional student *and* can demonstrate, prior to disbursement, that you will not be claimed as income tax exemption by your parents or guardians for the first year of the award year (e.g., the 1987 tax year for the 1987-88 award year), or
- you are determined to be self-supporting by financial aid administrators exercising professional judgment on the basis of unusual circumstances not covered by any of the statutory criteria.

Even if you meet the federal criteria for self-supporting status, however, you may be required to submit parents' financial data as part of the aid application process at some colleges. Some colleges may also ask you to provide additional documentation of your income and expenses if you claim self-supporting status. Also, some states and private sponsors may use different definitions than the federal government for determining self-supporting status. Contact the financial aid offices at the colleges from which you are seeking help if you think you may qualify as a self-supporting student and wish further information.

Questions and answers about how much you will be expected to pay

Q We have special expenses that aren't talked about in this chapter that affect our ability to pay (for example, a handicapped child who requires special medical care or education). Does anybody take this into account?

A Colleges try to take into account the unique circumstances of each applicant. In Chapter 6, where applying for financial aid is discussed, you will learn about ways in which you can make sure that the colleges you're considering at least understand your

situation fully. Whether they will be able to give you extra help depends on a variety of factors, one of the most important being how much money they have available to help students in any given year.

Q We live in a big city and the rents for apartments are very high. Does the need analysis system take this into account?

A The formulas do take housing costs into account, along with food, clothing, and other family living expenses. Financial aid administrators at some colleges also may consider the high cost of living in your particular residential area.

Q I've calculated our expected family contribution, and it's more money than we can possibly afford. How can we pay this out of our current earnings?

A You aren't necessarily expected to pay it out of your current earnings alone. The next chapter will explain that no matter how large that expectation may appear to you, it can be made smaller if you break it into monthly amounts. The earlier you start planning, the more choices you have about how to finance your share of the costs.

3. How to make time work for you

If you have estimated how much you may be expected to pay toward college costs, you may wonder how you can possibly squeeze that much out of current income.

In fact, you probably *can't* squeeze it all out of current income. Few people are wealthy enough to pay cash for houses, cars, or major appliances. Most of us save or borrow, sometimes both, to finance the purchase of "big-ticket" items. In fact, we may not even be able to figure out whether we can afford something until we see how it breaks down in terms of monthly payments.

The more time you give yourself, the more choices you will have about how to finance your share. If you still have several years left before enrollment, you have many more options than families who are facing enrollment within the next year or two. But even if you were to enroll next month, you would still have some choices.

What does "expected family contribution" actually mean?

Your expected family contribution is *not* a prediction of how much extra cash you actually have on hand, or even an assumption of how much you "ought to" be able to pull from current income. Rather, the expected family contribution is a measure of your family's overall capacity to absorb some portion of educational expenses, and you can cover your share in any number of ways.

If you start early enough, you may be able to *save* your entire share, and more. One of the advantages of starting early is that you *earn* interest toward your goal. If you start late, you may have to *borrow* it. The downside is that you're *paying* interest, not earning it. You could use a combination of saving *and* borrowing—or even "leverage" your money by borrowing against your own savings. The toughest way to cover your share of educational expenses, though, is to force them into your current household budget. Some families do it, but it's not easy.

Financing the parents' contribution

Students can get summer or part-time jobs to help finance their portion of the expected family contribution. Accommodating the parents' portion, or "par-

Table 3.1. Relationship of family income to parental contribution

Total income	*Net income*	*Parents' contribution*	*Percentage of total*	*Percentage of net*
$ 5,000	$ 4,248	$ 0	0.0%	0.0%
10,000	8,125	0	0.0	0.0

80,000	4,117	1,201
85,000	4,325	1,299
90,000	4,533	1,397

Adapted from table in "Perspectives on Ability to Pay: A Paper from the CSS Council Committee on Standards of Ability to Pay," page 4. *CSS Bulletin to Members and Users*, January 31, 1987. The College Board. Tables reflect Uniform Methodology values for academic year 1987-88 and are "asset-neutral," meaning that they assume assets equal precisely to the Asset Protection Allowance.

ents' contribution," in the current household budget can be much harder, simply because the amount represents a large portion of annual income, as Table 3.1 illustrates.

At any point on the chart, you can see that the expected parents' share would require a pretty large percentage of income—*if* you were trying to take it all out of current income. At the $45,000 annual income level, for example, the expected parents' contribution would require *12.5 percent* of gross income, and a whopping *18.3 percent* of net (after-tax) income. As Table 3.2 demonstrates, that translates into a pretty big chunk of the monthly household budget.

You don't *have* to finance your share that way. You can if you want to—and are able to, but, as Table 3.3 makes clear, spreading the expense out over time has a much smaller impact on your monthly budget, whether you save, borrow, or both.

Table 3.3 assumes the same annual family incomes and parents' contributions as Table 3.2, but illustrates the effects of four very different financing scenarios:

- The Pay from Current Income column assumes that parents somehow modify the household budget enough to cover their share out of current earnings during the four years of enrollment.
- The Borrow in Full column assumes that parents borrow their share, starting in the first year of enrollment and paying off the loans for 10 years after graduation.
- The Borrow and Save column assumes that parents start saving four years in advance of enrollment, borrow, and repay for four more years after enrollment.
- The Save in Full column assumes that parents put money aside for eight years in advance of enrollment and during the four years of enrollment.

Table 3.3. Parents' contribution (PC) calculated on a monthly basis according to four different financing scenarios

		PC in monthly scenarios			
Annual family income	*Expected parents' contribution*	*Pay from current income [0-4-0]*	*Borrow in full [0-4-10]*	*Borrow and save [4-4-4]*	*Save in full [8-4-0]*
$20,000	$ 600	$ 50	$ 18	$ 17	$ 15
25,000	1,340	113	42	38	33
30,000	2,100	175	65	58	53
35,000	3,040	254	93	82	76
40,000	4,220	353	130	117	103
45,000	5,620	469	173	154	139
50,000	7,010	583	217	192	171
55,000	8,320	692	257	225	202
60,000	9,590	800	295	260	235
65,000	10,860	905	336	298	265
70,000	12,060	1,003	373	327	298
75,000	13,240	1,106	406	363	325
80,000	14,410	1,200	440	393	353
85,000	15,590	1,296	482	425	383
90,000	16,760	1,395	518	458	413

Adapted from table in "Perspectives on Ability to Pay: A Paper from the CSS Council Committee on Standards of Ability to Pay," page 6. *CSS Bulletin to Members and Users*, January 31, 1987. The College Board. Tables reflect Uniform Methodology values for academic year 1987-88 and are "asset-neutral," meaning that they assume assets equal precisely to the Asset Protection Allowance.

Look at the $45,000 annual income band again. If you tried to pay it out of current income alone, you would need $469 per month to cover the parents' contribution. Any one of the other three financing scenarios illustrated in Table 3.3 cuts the monthly layout by more than half! If you saved the entire amount over a period of years, you could lower your monthly burden to $139.

The other important point about Table 3.3 is that it is *never too late* to plan. If you were to enroll tomorrow and hadn't yet saved any money, you could still make time work for you by borrowing. The differences in the monthly payouts between the borrowing, saving, and borrowing/saving options in Table 3.3 are nowhere near as large as the difference between all three of them and the pay from current income option.

However, when you are actually at the point of determining what your family should do, analyze the total *costs* associated with each option. Depending on the length of time you will be making loan payments, the amount of interest you will be paying, the rate of inflation, and the general state of the economy, some borrowing options may be a lot more expensive than others.

Questions and answers about making time work for you

Q My child will start college in less than a year. Isn't it too late to start saving?

A It is *never* too late to make plans. First of all, check your current finances to ensure you're getting as high a rate of return as possible. Second, take steps to make sure that you are credit worthy. If you are going to have to borrow, make sure that your credit history is accurate and that you have not exhausted your borrowing capacity. Third, look at the the next chapters for some ideas about ways to finance your share—and reduce your costs. Fourth, investigate financial aid. Remember, even if your child *does* start college next year, he or she will be enrolled for four or more years. You don't just have one year to plan ahead; you have several.

Q Is it wise to borrow for education?

A Borrowing is an honorable way of paying for education; many students *and* parents take out loans to cover college costs. The important thing is not to get in over your head. Chapters 5 and 6 describe some current loan programs designed to help students and parents cover expenses, and Chapter 7 includes consumer advice about responsible borrowing.

Q How do I actually start saving for future educational expenses?

A The worksheets in Chapter 9 will help you estimate probable future college costs and what might be expected of your family toward paying those expenses. Once you have set an overall goal, break it down into annual, monthly, or even weekly goals.

The next chapter describes a variety of approaches to financing your share of the costs. If you have many resources already, you may wish to consult your financial adviser to make sure that your savings and investment programs are achieving your objectives.

4. Making the most of your own resources

Are you concerned that your family can't come up with enough cash to cover the contribution a college believes you should be able to make? What if a college can't give you any aid or can't give you enough to meet your need fully? What if you decide to attend college late in the year, and financial aid has already run out by the time you apply for admission?

Remember that colleges and most other student aid sponsors regard the student and his or her family as the primary source of funds for meeting the cost of education or training after high school. (There are rare instances where parents are considered unable to contribute anything whatsoever toward college costs, but even then, the student would be expected to contribute something from savings and summer earnings.)

This chapter will review some of the strategies that students and families have used to meet their share of college costs. Not all of these ideas will be applicable to your unique family situation, of course, but perhaps one or two will provoke some creative thinking. (Several commercial and not-for-profit organizations' programs are described in this chapter. Their inclusion is intended to illustrate the wide and growing array of options available to families in meeting college costs but does not imply any endorsement whatsoever.) The next chapter will describe how financial aid—grants and scholarships, loans, and jobs—can cover the gap between your best efforts and the costs of attendance.

If there is a "silver lining" to the combination of rising costs and declining aid resources, it is that colleges are working harder than ever not only to contain the costs but also to develop new mechanisms to assist students and families in meeting the costs. This chapter also describes some of the ways that colleges are trying to help families finance education after high school. Not all of these approaches will be available at the particular colleges you're considering, but they're worth asking about. Make sure that you review the lists in Part II of this book; you'll find the names of many colleges that offer special kinds of help to families in financing educational expenses.

Strategies for stretching your resources

Many students and families have used a variety of strategies for getting the most out of the resources they *do* have for meeting college costs. Some of these ideas may work for you, and some may make you angry! This section describes some possible strategies for getting more mileage out of family resources. Remember, the point is to do your share, *not* necessarily to cover the whole expense.

Rearranging your personal finances

Few families can cover their expected share from current earnings only, never mind bridge the gap that could be created by insufficient financial aid resources. To minimize the impact on your household budget when the time comes to start paying college bills, you should start planning as early as possible.

For instance, you might want to think about how your current assets can be resources for paying educational bills. Ask yourself, What are they worth now? What are they most likely to be worth when I want to use them? You may want to talk to your banker, a financial adviser, or an investment specialist about the best way of "saving" for college, given your financial situation. These professionals can offer you advice on financial planning for college based on your present situation, how much time you have left to save, and the risks involved in selecting certain financing alternatives.

The long-range approach

The earlier you start, the more time you have to arrange your personal finances to the greatest advantage. Families with young children, for instance, should think about creating a regular savings plan against the day when their children start college. Starting earlier rather than later really does make a difference. Deposited funds accrue interest, and the effect of compounding can be astonishing over a long period of time.

Many banks, savings and loan organizations, credit unions, investment firms, and other financial institutions market programs designed to help families accumulate resources for their children's future education. Under some programs, families make regular deposits to a savings account at interest rates that increase with the amount of the balance in savings; other programs provide for one-time or periodic payments into various kinds of investment funds or other financial products. Sometimes counseling and financial planning services are included as part of the program.

The Tax Reform Act of 1986 changed some of the rules governing ways in which families can accumulate money for college. There are several guides to the new tax law available in bookstores, and you can also pose questions directly to the local office of the Internal Revenue Service (IRS). Or you may want to seek the help of a professional adviser, such as a Certified Financial Planner (CFP), a Certified Public Accountant (CPA), or a tax attorney. In any case, carefully investigate all the features of the programs offered by banks and investment firms. There is considerable variety in the safety, the yield, and the requirements of college savings programs and products now on the market. Shop around before you invest your hard-earned dollars.

More immediate options

Even if you have to start paying bills within the next year, it is worth your time to talk to your banker about your current savings and investment arrangements. Banks, savings and loan associations, credit unions, and investment firms never have been more eager for your money or have offered so many varieties of plans. The family with several thousand dollars in a 5 percent savings account is almost certainly not getting the most mileage out of its money.

No college expects you to sell the family homestead to pay for education, but some colleges *are* becoming quite explicit about their expectations of families with assets. You may find that a college financial aid office wants to know your net return on investments, for instance. Others may suggest that you refinance the mortgage on your home. Others may inquire about the contribution that other members of the extended family (such as grandparents) might make to a student's educational expenses. Such observations from colleges may startle or even anger you, but they reflect a renewed emphasis on the family's central responsibility for financing education or training after high school.

There are some respects in which the family homestead has taken on potential new importance in paying education expenses. Under the Tax Reform Act of 1986, the consumer interest deduction is being phased out over a period of five years, effective December 31, 1986. One important exception is interest on indebtedness securing a taxpayer's principal residence or a second residence, up to the amount of the original purchase price plus improvements. (Taxpayers can't take out home equity loans on the appreciated value to make consumer purchases and deduct the interest, except in strictly limited cases where loans are to be used for education, medical expenses, or home improvements. At press time, the IRS has not spelled out exactly how this would work; check before you act.)

Many banks are marketing new loans and lines of credit based on home equity. Some of the new programs are geared specifically to educational expenses. As with most financial services, there is considerable variation in the terms of such programs, so you will want to shop both widely and cautiously. Make sure you understand all the implications of using your home this way, not just the tax-related ones.

Here are some other ideas.

Parent loan program

The Education Amendments of 1980 created a new financial resource for families—the Parent Loans for Undergraduate Students (PLUS) Program. (The Guaranteed Student Loan or GSL Program for students will be described in the next chapter.) Parents may borrow up to $4,000 a year to a total of $20,000 for each dependent child. The interest rate is pegged to the treasury or T-bill rate plus 3.25 percentage points up to a maximum of 12 percent. Repayment begins within 60 days after disbursement and may extend up to 10 years. The federal government subsidizes the interest rate so that it is more favorable than many other borrowing options; the government also guarantees repayment of the loans in the event of death or disability.

Because repayment must begin within 60 days, PLUS loans are primarily assistance in meeting the cash flow problems caused by college bills. Parents are the borrowers under this program rather than students, and they may borrow without regard to demonstrated financial need. The primary qualification for participation in the program is "creditworthiness" — the ability to repay the loan, as demonstrated through a credit check. Some parents borrow under the PLUS program to meet all or part of the expected parental contribution, while others may borrow to make up the difference between costs and their contribution plus available financial aid.

PLUS loans are widely available. You might want to find out if your bank or other banks in your community are participating in this program. (There is a similar program for self-supporting undergraduate students and graduate and professional students called Supplemental Loans for Students or SLS. Dependent undergraduates may also be permitted to borrow under SLS at their aid administrators' discretion; a student might be allowed to borrow under SLS if the parents can't get a PLUS loan, for example.)

Commercial and noncommercial supplemental loans

Some banks, credit unions, and other organizations have created special educational loan programs with more favorable interest rates or other features that make the loans more attractive than other consumer borrowing options. Parents rather than students are usually the borrowers under such programs, and eligibility relates more to demonstrated creditworthiness than demonstrated financial need. Some programs are offered by commercial entities, while others are sponsored by nonprofit organizations. You may want to investigate the loan possibilities available in your community.

A variation on commercial loans is a line of credit against which checks can be made directly to the college; interest is charged only when and if checks are written. School Chex, for instance, is a product of Irving Trust Company of New York; it is a line of credit of up to $30,000 with a repayment term of 12 to 84 months. The interest rate is variable but you pay interest only on the amount of money that's actually in use. The Edu-Check℠ program, sponsored by Mellon Bank with branches throughout the East and Midwest, is available to parents and students from all parts of the country; it offers several security and payment options with an elective life insurance policy.

The New England Education Loan Marketing Corporation or "Nellie Mae" offers Excel, a supplemental loan offered in cooperation with participating colleges to creditworthy parents, who may borrow up to $15,000 annually ($60,000 maximum); repayment schedules range from 3 to 20 years, and borrowers can opt for a fixed or variable rate. The Massachusetts Education Loan Authority (MELA) lets parents and students (from any state) jointly borrow up to 100 percent of the costs of attendance at 43 participating colleges and universities on a 15-year, fixed-interest-rate basis; borrowers who secure their loans with a home mortgage may be able to take advantage of the tax deductibility of interest payments.

SHARE is a supplemental loan program operated by the Consortium on Financing Higher Education (COFHE), a group of 30 high-cost, selective institutions; parents of students enrolled in participating colleges can borrow up to $15,000 per year for all four years and take up to 15 years to repay at an interest rate that's adjusted monthly. The TERI Supplemental Loan Program is a privately administered program under which students and their parents can borrow $2,000 to $15,000 annually at a variable interest rate to attend a participating college or university; the program is operated by the Education Resources Institute, a nonprofit organization.

There are also two relatively new loan programs directed at students, rather than their parents. The Alliance Education Loan Program at the Bank of Boston will lend from $3,000 to $15,000 per academic year to undergraduate or graduate degree candidates at accredited colleges and universities. While no collateral is necessarily, the creditworthiness of the applicant (and cosigners, if necessary) is taken into account. The interest rate is variable, and payment can extend up to 15 years. The student borrower pays only interest while enrolled but must begin repayment of principal and interest 45 days after leaving school. (For information, write Bank of Boston, P.O. Box 1296, Boston, Massachusetts 02105.)

ConSern: The Student Loan Program is offered by the newly formed Consortium of Universities of the Washington Metropolitan Area, in association with Shearson-Lehman Brothers, Continental Insurance Corporation, the National Bank of Washington, and Wachovia Services, Inc., of North Carolina. The loans,

which can run from $1,500 to $15,000 per academic year (to a total of $60,000 over four years), feature variable interest rates, customized repayment terms of up to 12 years, and expedited application processing through participating colleges and universities nationwide. Students can opt to pay only interest while enrolled. (Write ConSern, 1717 Massachusetts Avenue, N.W., Washington, D.C. 20036 for details.)

If you plan to borrow funds under *any* program, subsidized or unsubsidized, commercial or nonprofit, make sure you understand exactly what your obligations are before you assume the responsibilities. (Chapter 7 contains some consumer advice about borrowing.)

Combination savings/loan plans

This approach to financing a child's education is becoming more widely available. Under such plans, a participating bank will "leverage" or multiply a customer's balance to give a family a line of credit for meeting college costs that is, in effect, a long-term loan, with the interest on savings offsetting to a substantial degree the interest on the loan.

Two examples are the *Collegeaire*® plan offered by Students' Financial Services and the Security Educational Loan, which has been implemented by the College Financing Foundation in association with the United States Trust Company.

Terms and conditions of these and similar programs can vary considerably from sponsor to sponsor, so prospective users will want to shop around. Inquire about the availability of programs at banks in your community. (Information about Collegeaire can be obtained from Students' Financial Services, P.O. Box 723355, Atlanta, Georgia 30339; contact the College Financing Foundations, c/o United States Trust Company, P.O. Box 373, Boston, Massachusetts 02101 for information about the Security Educational Loan.)

College-sponsored financing programs

Many institutions of higher education participate in a tuition budgeting plan that permits families to spread out their payments over a longer period of time. Some colleges finance the programs themselves, while others participate in commercially available options. Because of the interest, insurance, and service fees involved in such programs, a family will typically end up spending more money than if the charges had been paid outright. However, for families with cash-flow problems or insufficient reserves, such programs can make the difference between enrolling and not enrolling. Information about the options available at a particular college usually can be found in its catalog or financial aid bulletin; if you don't find it, ask.

Many colleges have created new loan programs out of their own resources to assist students and parents. Some of the approaches are quite innovative. Beloit College in Wisconsin, for instance, has created a "moral obligation" scholarship program in which students receive funds that carry a moral, but not a legal, repayment obligation. Such an approach would permit students to repay their scholarships when they are out of college and working; since there would be no legal obligation to repay, the payments to the college as a nonprofit educational institution would be, in effect, tax-deductible gifts (provided that the donors itemize their deductions, in accordance with the new requirements of the Tax Reform Act of 1986.).

Other institutions lend money to students or parents under plans with competitive interest rates and other features that make the programs particularly attractive. For example, The "Higher Education Loans to Parents" or HELP Program at Lafayette College in Pennsylvania loans qualified parents up to $4,000 a year, on a fixed-interest-rate basis and an eight-year repayment term. A unique feature of the program is that the college fully subsidizes the interest while the student is enrolled, and repayment on the principal is deferred until after graduation.

Under the "flexible financing" program at Dickinson College in Pennsylvania, borrowers can choose between plans with fixed or variable interest rates, depending on the amount they want to borrow. The College of Wooster in Ohio makes a wide array of options available to parents, including loans, credit lines, and installment payment plans, while the University of Pennsylvania's Penn Plan offers several different flexible financing plans.

Don't assume that you can always find financing plans or tuition installment plans at every college and university. Some public institutions, for instance, are prohibited by state law from extending credit to anyone. However, they may be able to direct you to commercial budgeting or installment plans offered by outside companies. Information about programs designed to help you manage educational expenses at a particular college can usually be found in its catalog or financial aid bulletin.

Insured tuition installment and budgeting plans

Some insurance companies have offered insured tuition budgeting programs to families for many years. Under the Insured Tuition Payment Plan offered by Knight Insurance, for example, a family makes monthly payments to an FDIC-insured account, and the company makes payments to the college for tuition, room, and board. (Write Knight Insurance Agency, Inc., 53 Beacon Street, Boston, Massachusetts 02108 for information.) Tuition Management Systems, Inc., makes available through participating institutions several different financing services, including short-term and long-term monthly budget plans to smooth out tuition payments, supplemental loans, and student and parent lines of credit. (For information, write Box 5833, Providence, Rhode Island 02903-9990.)

Insurance features on plans like these generally guarantee that the tuition will continue to be paid in the event of a parent's death or total disability. Some colleges offer variations on plans like this, financed through their own resources.

In evaluating these approaches to stretching your resources, get all the facts before you sign any contracts, promissory notes, or loan agreements. You should evaluate both what you pay and what you get back to ensure that you are getting the best possible deal.

Strategies for cutting costs

In the absence of sufficient personal resources and financial aid, one obvious approach to financing a college education is to reduce the overall costs. There are many different ways to cut expenses, and your personal situation and ambitions will determine whether any of these approaches can work for you.

Reducing the time involved in earning a degree

By reducing the length of time involved in earning a degree, you can reduce the overall costs. (Reducing the amount of time you spend in education or training may also reduce your "foregone income," or the amount of money you could otherwise have earned if you were employed.) There are several approaches to cutting time and thus cutting costs.

For instance, many colleges award advanced placement and/or academic credit to students who can demonstrate proficiency in college-level studies through examinations such as those sponsored by the Advanced Placement (AP) Program and the College-Level Examination Program (CLEP) of the College Board. Credit-by-examination means the number of courses required to earn a degree is reduced, so the overall costs are cut. As you investigate colleges, you may want to ask about credit-by-examination policies.

Some colleges also grant advanced placement and/or academic credit to students who can demonstrate proficiency because of prior independent study and "life experience." A student might demonstrate particular competencies or skills, for example, by compiling a portfolio that documents prior learning experiences. College requirements for documenting prior learning tend to be quite rigorous, but if you can meet them, you can reduce both your time and your financial investment. (You may find that the approach is less commonly available than credit-by-examination options. You may also find that some colleges offering such opportunities restrict their use to older, "nontraditional" students who have spent several years working or raising a family.)

Some students also compress the time required to earn their degrees by taking more courses than the average student and/or attending summer school. (Obviously attending summer classes will cut down on your ability to work during the summer to earn money for college.) Some students successfully complete a bachelor's degree in less than four years, thus reducing their overall costs, but this clearly requires a high degree of motivation. You may want to ask colleges you're considering whether it's possible to earn a degree in less than four years, since some colleges have policies limiting the number of credits a student can carry per semester.

Sometimes students can earn some college credit without actually attending classes, thus reducing transportation and possibly some living expenses. (This approach would also allow a student to work and save for full-time attendance later.) Check with the colleges you're considering if this idea appeals to you.

Reducing indirect costs

Living at home instead of on campus has helped many students reduce their overall costs. Some students live at home and commute to campus for the entire course of their studies, while others alternate between living in college housing (or off-campus private housing) and living at home with their families.

Other students elect to attend a local, lower cost col-

lege (such as a community college) for the first two years and then transfer to a higher cost public or private college to complete their degrees.

Dormitory residents at some colleges have also discovered that savings can be achieved in the choice of college-sponsored meal plans. Investigate carefully the options open to you before you select a particular meal plan.

Some students work in return for room and board. For example, the Student Housing Exchange in Boston seeks to match students who can give 15 to 20 hours a week in household services to families who provide room and board in return. Information about similar opportunities is often available through a college's placement or student affairs office.

Students at many colleges have banded together to provide services for each other that can reduce both their direct educational expenses and their living expenses. The range of student-sponsored services is enormous and well worth investigating as part of your college-search process. Secondhand book shops enable students to reduce textbook expenses. Food co-ops enable residents in private, off-campus housing to cut their food bills and still get adequate nutrition. Daycare programs provide help to students with dependents of their own. Revolving emergency loan funds can provide short-term financial assistance. Housing referral services or guides can help students to locate private housing, while tenant organizations protect and advocate their rights with landlords. Entertainment programs are specifically designed to provide free or low-cost recreation to students living on a budget.

College administrators, too, have instituted programs at many institutions, usually in conjunction with the student affairs or financial aid offices. The financial aid office may conduct workshops on money management, for instance, or the student activities office may issue guides to low-cost housing and shopping in the community. As the effects of rising costs and declining aid begin to be felt more widely, the number and range of such programs to help students live on a tight budget can be expected to grow.

Guaranteed or stabilized tuition plans

You can expect increases in tuition charges at least once, and probably annually, during your enrollment in a particular college. A few colleges guarantee their tuition for four years at the time of enrollment, at no obligation to the student. Under other plans, families can prepay tuition for four years in one lump sum and escape subsequent tuition increases.

Taking advantage of such programs could reduce your overall expenses, although you may want to consider whether you can get a return on your investments that's equivalent to or better than the rate of tuition increases, while still having the use of your money. For families who do not have enough disposable income to pay the entire sum at once, some colleges offer a borrowing option whereby payment is made in monthly installments over a period of years. However, with the gradual phaseout of consumer interest deductibility, you may want to make some calculations to ensure that this option still makes financial sense for you.

Strategies for working your way through

Working your way through college is certainly possible, but it's not easy, particularly if you want to attend college on a full-time basis. The problems include both money and time. Educational and living expenses are sufficiently high to make it difficult to earn enough money to cover them fully while maintaining a full course load, but here again, there are a variety of approaches to working your way through. One or more of them may work for you. An estimated half of all college students now hold jobs of some sort.

Part-time employment

Some students find that they can earn enough money through part-time employment to meet their costs. Many students work part-time while enrolled full-time, and find that a part-time job does not hamper their studies. The College Work-Study Program described in Chapter 5 provides employment opportunities for many students with demonstrated financial need. Other students work in jobs, on or off campus, that they find themselves.

Some colleges have made a special commitment to helping students pay some of their educational expenses through working. The Cornell Tradition is a unique program that enables students to reduce loan debt by employment while enhancing their own personal and professional development. Alumni and friends of Cornell University in New York provide the support for academic and summer employment opportunities. In 1986-87, 500 students were involved in summer jobs, and a total of 600 students overall held work fellowships, reducing their need to borrow by an estimated $1 million.

Look for the job placement office and/or bulletin board at the college you plan to attend to find out about employment opportunities.

At Babson College in Massachusetts, students are helped to own and operate their own businesses, both to earn needed funds and develop hands-on business skills. A student Chamber of Commerce serves as a forum for exchanging ideas and sharing skills, while the Babson Entrepreneurial Exchange links students with alumni and nonalumni business people.

Some colleges have instituted special programs to help students find part-time employment. For instance, Johns Hopkins University in Maryland developed a job program in cooperation with the local business community. The University of Texas has a 24-hour job hotline that students can call to get information about part-time job opportunities.

You should begin lining up summer job prospects as soon as you are old enough to work. You might also think about acquiring and cultivating skills that will be useful in finding part-time jobs to help finance your education. As you investigate colleges, you may want to inquire about the availability of part-time jobs on and off campus. Admissions recruiters, financial aid counselors, and job placement counselors may be able to give you some clues about the kinds of jobs most frequently available. If you're visiting a college, pick up copies of the student newspaper as well as local newspapers to check out the want ads.

You might be able to tailor some of your precollege courses or summer job experiences to improve your chances in the job market once enrolled. For example, if there's a typically heavy demand for term paper typists at the college you're aiming for, it may be worth your while to take an elective course in typing and acquire a portable typewriter. If there are usually openings on campus and in the community for experienced waiters and waitresses, that might be useful to know when you're looking for summer and part-time jobs in high school.

Unless you have truly unusual and marketable skills, part-time work is not likely to earn you enough money to cover all your expenses, but, depending on your overall costs and your family's ability to contribute toward your education, plus financial aid, you may be able to cover the difference through part-time employment.

Cooperative education

Some students have found that alternating periods of full-time employment and full-time enrollment works best for them. Many colleges have even formalized such arrangements through cooperative education programs. In cooperative education programs, students

alternate semesters of academic enrollment with semesters of full-time employment, usually in jobs directly related to their field of study. In addition to helping them finance their studies, cooperative education programs give students a chance to develop concrete job skills and experience that enhance their employability after graduation. About 1,000 colleges and universities across the country offer some form of cooperative education opportunities; inquire about the possibility at the colleges you're considering.

Deferred enrollment

Some students take a year or two off before going to college to get some money in their pockets. Some colleges have formalized this, too—it's called "deferred enrollment." You're accepted, but you don't actually start going to college until the following year. You might keep this in mind as a question to ask about the various colleges you investigate.

Employee fringe benefits

Some students decide to work full time and attend college part time at their employer's expense. Many employers offer educational opportunities as fringe benefits. Sometimes workers are reimbursed, in whole or in part, for successfully completed course work; other programs pay tuition expenses up front. (According to the Tax Reform Act of 1986, employee educational expense benefits can be excluded from income through the end of 1987, after which time they will become taxable.)

Keep in mind, too, that some unreimbursed educational expenses may be considered tax deductible. However, under the Tax Reform Act of 1986, they can be deductible only if they meet specific criteria and only to the extent that aggregate miscellaneous itemized deductions exceed 2 percent of your adjusted gross income. Check with the IRS for more information.

Managing your time if you work

Surprisingly enough, studies have shown that students who work part time do not usually seem to suffer academically for the time they put into their jobs. Some studies have indicated, in fact, that students who work part time achieve higher grade-point averages than their nonemployed fellow students. For most students who work, the discipline required to juggle their responsibilities and manage their time effectively pays off in academic work, too. (At the same time, some colleges try to minimize the necessity of part-time work for some groups of students, particularly freshmen, in order to ease their transition into college life.) Some students also like the opportunity to develop employment experience in anticipation of job hunting after graduation.

Questions and answers about making the most of your resources

Q My parents have scrimped and saved for my college education, but because we have savings, we won't have as much eligibility for financial aid. Aren't we being penalized for being thrifty?

A You and your parents *will* be expected to contribute something toward the cost of college from the money you and they have saved, but as subsequent chapters will illustrate, the system *also* takes into account your parents' ages and corresponding need to save for retirement. Remember, too, that a student whose parents have no savings must rely much more heavily on financial aid than you. That family may have a heavier work or loan burden than yours will have to carry. In a time when public appropriations for student aid programs are not keeping pace with increases in college costs, your reduced reliance on financial aid may give you a wider range of choices.

Q Didn't tax reform knock out all the incentives for college saving?

A The Tax Reform Act of 1986 has affected many of the "income transfer" strategies that some parents have used in the past to accumulate college savings and shelter some assets from taxation by putting them in their children's names. "Clifford Trusts," for instance, were eliminated entirely, and new restrictions were imposed on "generation-skipping" bequests from grandparents.

The experts still have lots of ideas about how families can build up money for college, with or without tax advantages. The more time you give yourself to study the various ideas, the better off you'll be. The important thing is to take advantage of whatever time you and your family have before enrollment. The loss of a specific tax break that may have existed in previous years is no reason to stop saving for college.

Q Is the interest on educational loans tax-deductible?

A The Tax Reform Act of 1986 initiated a gradual phaseout of the deductibility of consumer inter-

est on all nonmortgage loans, including loans assumed by students and parents to pay for education, such as Guaranteed Student Loans and PLUS loans. However, interest on home mortgages, including second mortgages up to the fair market value of the house, is still deductible, and interest on debt *in excess* of a house's value may still be deductible if used for educational or medical expenses.

5. How financial aid can help

Financial aid is help for meeting college costs: both direct educational costs (such as tuition, fees, and books) and personal living expenses (such as food, housing, and transportation). People are sometimes surprised that students can get financial aid to help them pay for living expenses. Even colleges with comparatively low tuitions, such as community colleges, can give qualified students some help in paying for food, rent, commuting, and other personal expenses.

Many students don't realize that financial aid is available to pay for noncollegiate education and training programs, too. If you are thinking about vocational or trade school after high school, financial aid could be a possibility for you.

Who gets financial aid?

While many scholarships are based on criteria other than demonstrated need, most financial aid today is awarded on the basis of need. (Sometimes factors such as academic performance, career plans, or special abilities are considered in addition to demonstrated need.) Chapter 2 explained that "need" is the difference between what it costs to attend a particular college and what you and your family can afford to pay toward those costs. Students are usually eligible for aid equal to the amount of their demonstrated financial need.

Since the amount a family can afford to pay stays the same whether the costs are high or low, you can see that you would be eligible for different amounts of aid at different colleges. In fact, if you get all the financial aid you're eligible for, you could end up paying the same amount at a high-cost college as you would at a low-cost one.

That's a pretty big "if." In 1986-87, more than 5 million students received more than $21 billion in various forms of student assistance to help them meet the costs of education or training after high school. Large as that amount may seem, it still wasn't enough to fully meet the need of all the students who could have used some help.

You can improve your chances of getting the outside help you need. Financial aid doesn't just happen to you. You have to take an active part in the process—by identifying all possible sources of assistance for which you might be eligible (the topic of this chapter) and by applying in the right way at the right time (discussed in Chapter 6).

Types of financial aid

There are three types of financial aid generally offered to undergraduate students in college.

Grants and scholarships are sometimes called gift aid, because you don't have to repay them or work to earn them. Grants are usually awarded on the basis of need alone, while scholarship recipients may have to meet criteria other than or in addition to need (academic achievement, for example).

Educational loans are a form of self-help aid. These are usually subsidized by the state or federal government or by colleges themselves and carry lower interest rates than commercial loans. They have to be repaid, generally after you have graduated or left college.

Student employment or work aid is another form of self-help aid. The federal College Work-Study program is perhaps the best known example of this kind of assistance. Students work, usually 10 to 15 hours a week, to "earn" their aid.

Financial aid comes from a variety of sources: the federal government, the state government, colleges themselves, and a wide range of private organizations.

Most students get a combination of gift aid and self-help aid from a variety of sources. This is called a finan-

cial aid package. The financial aid administrator at the college you attend or apply to will help you put your package together.

Eligibility for financial aid

While each program has its own special criteria, certain basic eligibility requirements are common to almost all programs. For instance, to be eligible for many programs, you must be at least a half-time student (usually defined as six semester hours of courses per semester or the equivalent). In some cases, less-than-half-time students may be eligible for some federal funds but other programs, such as those sponsored by colleges and private organizations, require recipients to attend on a full-time basis, usually at least 12 hours per semester.

You must also be enrolled in an eligible program at an eligible institution, according to the aid program's definition. For some federal student aid programs, you can receive aid to attend more than 9,500 eligible institutions, including colleges, universities, and vocational and technical schools. State aid programs are sometimes limited only to accredited colleges and universities. Some programs have restrictions on providing aid to students in certain fields of study (for example, religious studies) or in vocational or technical courses (those that are shorter than six months in duration). Most programs require that you maintain satisfactory academic progress toward a degree or certification and that you be in good standing with the institution you attend.

Federal student aid programs require that a recipient be either a United States citizen, or a noncitizen who is a permanent resident; refugees or persons granted political asylum may be eligible, too. State student aid programs are usually restricted to legal residents of their particular state, although exceptions to this rule do exist, especially in loan programs. College-sponsored and private assistance programs usually require recipients to be citizens of the United States, too, except for a few programs designed for foreign students.

Financial aid from the federal government

Since the 1950s, there has been in the United States a bipartisan national commitment to equalizing higher educational opportunity that remains unparalleled anywhere in the world. From the late 1950s onward, there occurred a steady expansion of federal student assistance programs, peaking with the enactment of the Middle Income Student Assistance Act (MISAA) in 1978. Since 1980, however, there has been a slight but troubling erosion in the national consensus about the way to achieve equal opportunity in higher education.

Federal funding of student aid programs has not kept pace with rising college costs in recent years, and there has been a major shift of funds from grant to loan programs in the same time period. These changes can be traced to several factors, including competing demands on the federal budget, the skyrocketing federal budget deficit, increasingly divergent views on the appropriate federal role in higher education, and a continuing struggle between Congress and the administration over the scope and level of student aid funding by the federal government.

In the fall of 1986, Congress "reauthorized" the Higher Education Amendments. The basic structure of federal student aid programs appears to be intact for at least the immediate future, although funding levels are difficult to predict because of annual appropriations battles and the effects of the Gramm-Rudman-Hollings deficit reduction law.

Like all of the programs described in this chapter, these federal programs could be significantly changed by the time you are ready to start college. Don't be discouraged by this warning, but *do* watch the situation closely and intensify your own efforts to accumulate funds for college.

You may find it heartening to know that Congress has resisted the current administration's annual attempts to cut the student aid budget since 1980. For the most current and detailed information about federal programs, you should obtain a copy of the free pamphlet, "The Student Guide," published by the government and cited in the bibliography at the end of this chapter.

Pell Grant Program

The Pell Grant Program (formerly called the Basic Educational Opportunity Grant Program) is the largest need-based student aid program. At present, an estimated 2.6 million undergraduates have received Pell Grants ranging from $100 to $2,100 for the 1986-87 academic year. The maximum award in 1987-88 will be $2,100, although the level may increase in future years. The amount a student receives depends on need, the costs of education at the particular college he or she attends, the length of the program in which he or she is enrolled, and whether enrollment is full or part time.

Graduate students are not eligible, nor are students who have previously received a bachelor's degree.

Supplemental Educational Opportunity Grant Program

The Supplemental Educational Opportunity Grant (SEOG) Program is one of three federal campus-based programs. "Campus-based" means that while the money comes from the federal government, the colleges distribute the money to students who demonstrate need. Recipients must be United States citizens enrolled at least half-time in an undergraduate program at an accredited college or university. Awards are based on need and can range from $100 to $4,000. Nearly 700,000 students received SEOGs in 1986-87.

Perkins Loan Program

The Perkins Loan Program (formerly called the National Direct Student Loan Program, or NDSL) is another federal campus-based program administered by colleges and universities. Undergraduate and graduate students enrolled at least half-time may borrow up to $4,500 a year for the first two years of undergraduate study, to a total of $9,000 for an undergraduate degree and $18,000 for graduate and professional study (including any amount borrowed as an undergraduate). Nearly 900,000 students borrowed Perkins Loans in 1986-87.

Perkins Loans carry the lowest interest rate of any educational loans (5 percent) and repayment is deferred until a student graduates or leaves school. Nine months after a student leaves school, regular repayments are required over a maximum period of ten years until the total amount (including interest) is repaid. A minimum monthly payment of $30 is usually required, unless the college agrees to a lower amount.

Repayment can sometimes be further deferred for up to three years for service in the military, the Peace Corps, or approved comparable organizations, or if study is resumed on at least a half-time basis. (In such instances, however, the student does not get another six-month grace period in which to defer payment.) A student who wants to have repayment of a Perkins Loan deferred for any reason must complete a request form and submit it to the college from which the loan was originally borrowed. Perkins Loans are cancelled outright in the event of a student's death or total disability. (See Chapter 7 for more information about borrowing money from this and other programs, including legal requirements and advice.)

College Work-Study Program

The College Work-Study Program (CWSP) is also a federal campus-based program. Participating colleges provide employment opportunities for students with demonstrated need who are enrolled for at least half-time study at either the undergraduate or graduate level. Students are almost always employed on campus, although occasionally jobs are arranged off campus. In assigning work-study to aid recipients, financial aid administrators typically take into account their employable skills, class schedule, and academic progress.

Students are generally paid at least the prevailing federal minimum wage. Students may work as many as 40 hours a week under the program, although 10 to 15 hours is far more typical. The only limitation on College Work-Study is a student's demonstrated financial need.

Examples of on-campus jobs for students are faculty aide, dining hall worker, library assistant, groundskeeper, office secretary, and financial aid peer counselor. More than 750,000 students received help under the College Work-Study Program in 1986-87.

Guaranteed Student Loan Program

The Guaranteed Student Loan (GSL) Program permits students with demonstrated need to borrow money for educational expenses from private sources such as banks, credit unions, and savings and loan associations. In some states, a public agency also acts as a lender; some colleges also participate in the program as lenders. Because GSLs are subsidized by the government, the current interest rate of 8 percent is lower than most commercially available loans (although higher than Perkins Loans). Repayment on both interest and principal is deferred until a student graduates or leaves school. In most states, a state government guaranty agency (or a private organization authorized by the state government) insures the loans; in those states where there is no guaranty agency, the federal government insures them, in which case they're called Federally Insured Student Loans. An estimated 3.4 million students borrowed under the GSL program in 1986-87.

Although some states permit half-time students to borrow under the GSL program, most states require that borrowers be full-time students. Freshmen and sophomores may borrow up to $2,625 a year, and upperclassmen may borrow up to $4,000 annually, to a maximum of $17,250. Limits are lower in some states. Graduate and professional students are currently eligible to bor-

row a maximum of $54,750, including any undergraduate loans.

If you borrow money under the GSL program, you are charged a 5 percent origination fee or service charge. This amount is subtracted from the amount of your loan money before you receive payment.

GSLs are insured against the student's death or total disability, but there are no provisions for cancellation of any part of a loan for other reasons. Under certain circumstances (such as full-time study or service in the military or Peace Corps), repayment of a GSL can be deferred temporarily. The schedule for repayment is worked out between the student and the lender; a GSL recipient usually has between five and ten years to repay, with the amount of monthly payments and the length of the repayment period depending on the total amount borrowed.

For more information about GSLs, contact the financial aid office at the colleges you're considering, your guidance counselor, or the guaranty agency for your state listed in Part II of this book. (See Chapter 6 for information about applying and Chapter 7 for advice on responsible borrowing.)

Military options

Military service options are a way of paying for education as you go. Service academies offer a college education at no cost to students, while the Reserve Officers' Training Corps (ROTC) programs help pay for your education at participating colleges and universities. (Still another approach is described elsewhere in this chapter under the heading "Assistance from Benefit Programs.")

Service academies

The United States service academies prepare both men and women for careers in the military, merchant marine, or coast guard. Students attending one of the academies have all expenses paid by the federal government and receive a monthly stipend for incidental expenses as well. Appointments to the academies (with the exception of the coast guard) are made through nominations from members of Congress. If you are interested, contact your senator or congressional representative early in the spring of your junior year in high school. Appointments to the Coast Guard Academy are based on national competition for admission. For more information, write:

ROTC offers college scholarships with a commitment of military service after graduation.

Reserve Officers' Training Corps

Reserve Officers' Training Corps (ROTC) programs are located at approximately 600 colleges and universities across the country; in addition to the institutions that serve as hosts or extensions, there are about 1,800 other institutions in which an ROTC student can cross-enroll. Graduating high school seniors may qualify for competitive four-year ROTC scholarships that typically cover the costs of tuition, fees, and books, and provide a monthly stipend of $100. Students who receive ROTC scholarships must meet certain physical and academic requirements and agree to accept appointment as commissioned officers in the military after graduation (a minimum of four years' active and two years' reserve duty).

In addition, some ROTC in-college scholarships may be available for students who decide to join as sophomores or even juniors, as well as for students who originally joined ROTC units as nonscholarship students. The requirements and obligations are somewhat different than for four-year scholarship students.

There are different procedures, requirements, and benefits associated with the ROTC programs operated by the different military services. In addition to ROTC programs, there are also other special programs providing financial assistance for education to students who promise to fulfill a term of military service after graduation; the officer training occurs during summer vacations or after college. A good source for students interested in exploring the various military-related options for college assistance is *How the Military Will Help You Pay for College*, by Don M. Betterton (see bibliography), which describes each service's ROTC program, the service academies, and several other programs available to military personnel who want to continue with their education. The book also contains a comprehensive list of host and cross-enrollment institutions. Contact the ROTC units at the colleges you are considering, or write:

Assistance from the Bureau of Indian Affairs

Students who can demonstrate financial need and are registered as being at least one-fourth Native American or Alaskan native of a federally recognized tribe are eligible for assistance through the Bureau of Indian Affairs (BIA). Scholarship assistance may be used at any accredited postsecondary institution. For more information, contact your tribal education officer, BIA Area Office.

Assistance from benefit programs

Benefit programs are not quite the same as financial aid programs, but they provide many students with assistance in meeting college costs. One of the biggest benefit programs designed to help students began phasing out in 1982: social security student benefits for students between the ages of 18 and 22 who received assistance because of the death, disability, or retirement of a parent. Only students who were already enrolled in postsecondary education by May 1982 were eligible to start receiving benefits, and the amount of aid for students already receiving benefits was subsequently phased out.

Assistance for military personnel and veterans

There are several programs designed to help servicemen and women pursue higher education, as well as to assist veterans. Defense Activity for Non-Traditional Education Support (DANTES) permits military personnel to demonstrate job proficiency, qualify for college admission, or earn college-level credits by taking correspondence courses and/or examinations. Each of the services operates programs in which active duty personnel can take courses on an off-duty basis, and you also may be able to translate some of your on-the-job technical training into college credits later on. If you are thinking about enlisting, explore carefully the educational possibilities associated with the various services, including the requirements and obligations associated with each.

If you think you may want to go to college eventually but are also interested in the military, investigate the major initiative launched on July 1, 1985, called the New G.I. Bill, which replaced the former Veteran's Educational Assistance Plan (VEAP). Although an enlisted service person could use the plan to pay for college work while on active duty, it is more likely that people

will use the New G.I. Bill to accumulate benefits for use after their discharge. Under the terms of the New G.I. Bill, $100 per month would be automatically deducted from your paycheck during your first year of active duty for a total initial deposit of $1,200 in your "education account." (You can choose not to participate when you enlist, in which case the deduction would not be made.) Depending on how many years you serve on active duty, the government would add between $7,800 and $9,600 more to your account for later use in paying for education.

The New Army College Fund currently offers additional benefits beyond those cited above to men and women who enlist in the army. Men and women serving in the reserves can also participate in New G.I. bill benefits in return for a service commitment. Because these programs are still new and subject to modification, they may be changed by the time you are ready to go to college; the most current information can be obtained from military recruiting offices.

If you are already a veteran and want to know whether you or your spouse or dependents qualify for educational assistance, contact your local Veterans Administration (VA) office.

Vocational rehabilitation benefits

Since 1977 the federal Rehabilitation Act has prohibited discrimination on the basis of a handicap and has provided for equal participation by handicapped people in programs and activities of postsecondary educational institutions that receive federal funds. The intent of the law is to assure qualified handicapped students of access to educational programs, including financial aid. Many colleges have tried to expand opportunities, particularly in the College Work-Study area.

State vocational rehabilitation agencies in most states can help students with handicaps meet the costs of education or job training after high school. In many states, these agencies are working with groups of financial aid administrators to develop cooperative agreements about financial aid and other assistance for handicapped students enrolled in postsecondary institutions. In developing an aid package for a handicapped student, the financial aid administrator at the college typically will consider both the amount of assistance and type of services provided by the vocational rehabilitation agency. A handicapped student's expense budget may be larger than a nonhandicapped student's budget, in order to take into account their greater expenditures for such things as special equipment, noninsured and nonroutine medical expenses, assistants or attendants, and special transportation. To find out about special help for handicapped students, contact your state department of vocational rehabilitation.

Financial aid from state governments

Every state has a scholarship or grant program that provides some form of financial aid to eligible students who are legal residents of the state. Eligibility criteria vary from state to state. Most state programs award aid to students with demonstrated need, although a few states have some funds available to assist students who meet criteria other than or in addition to need (such as academic performance). Most programs require that students attend a postsecondary institution within the state. (A few states have reciprocal agreements with other states, meaning that students can use their state grants in other states, but this practice may decline as funds become more limited.)

Your high school guidance counselor can provide you with additional information about the programs and requirements in your particular state. Part II of this book contains summaries of the major scholarship and grant programs in each of the 50 states, with an address to which you may write for additional information.

Financial aid from colleges

Assistance programs sponsored and administered by colleges and universities themselves are another important resource. College-sponsored financial aid usually comes from one of two sources: tuition revenues and contributions from private donors.

Some scholarships and grants-in-aid are based on demonstrated need, while others are awarded to students who meet criteria other than or in addition to need (such as academic performance, proposed field of study, or special talents or abilities).

Student employment programs are also provided on many campuses to supplement employment provided through the College Work-Study Program. These college-funded job programs usually are not based on financial need but on the special skills of the student employees. Examples include laboratory assistant, business office aide, and dormitory resident adviser. At some colleges, need is also considered in addition to skills and experience.

Short-term and emergency loans usually are available to all students. The repayment period generally is confined to an academic year, and interest is either quite low or not charged at all.

The criteria and application procedures for college programs vary considerably, and your best source of information is the catalog or financial aid bulletin published by the college you're considering. Private colleges often have more college-sponsored aid available to assist students than do public institutions; proprietary or profit-making institutions generally have very little or none at all.

Help from private student aid sources

While aid from the federal government, state governments, and colleges and universities constitutes most of the financial assistance received by students, private student aid programs can offer important assistance. The total amount of funds available through such private programs is comparatively small. For an individual student, however, these programs can mean the difference between attending the college one likes best and the college one can afford. So it's well worth investigating the private programs for which you may be eligible.

There are literally thousands of private student aid programs in the United States that award grants, scholarships, and low-interest loans to students to help them further their education or training after high school. One of the best programs is the National Merit Scholarship program, which awards over $27 million each year to almost 7,000 students. High school juniors compete for these awards by taking the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT) each October at one of the more than 19,000 high schools around the country that offer the test.

Eligibility criteria, application procedures, number of awards given annually, and average award amounts vary tremendously from program to program. Some programs base their awards on financial need, others on need plus other criteria, and still others don't consider need at all. You might qualify because of your:

- academic achievement
- religious affiliation
- ethnic or racial heritage
- community activities
- artistic talents
- leadership potential
- athletic ability
- career plans
- proposed field of study
- hobbies and special interests
- parents' employers or union membership
- parents' membership in a civic or fraternal group.

Since virtually everyone can claim to meet one of these general criteria, some perspective on the subject seems important. Frequently, stories appear in the press about the "millions of scholarship dollars that go begging every year." Strictly speaking, that's true, but that doesn't mean that if *you* go begging for some of them, you'll necessarily get any!

Many of the scholarships are tied to particular colleges and universities, or programs of study within those institutions. For instance, there actually may be an obscure little scholarship fund for students with a particular last name, but it has to be used at the particular college which administers that bequest. That means you have to be admitted to that college before you can claim any of the funds. If that happens to be a college you have been accepted to and want to attend anyway, terrific! But trying to finance your education in this way is a little like using coupons to get a discount on a product you don't really want and would never buy under normal circumstances.

Many of the scholarships have very detailed and restrictive eligibility requirements—you might, for instance, have to live in a certain state or region, attend a particular college, pursue a particular course of study, meet certain high academic standards, and demonstrate financial need. If you don't meet them all, you don't qualify.

Nevertheless, it makes good sense to investigate all possible sources of assistance for which you might be eligible. Check with your guidance counselor, and periodically look for notices on your school bulletin board. If you are not yet a senior, read your hometown newspapers (especially in April, May, and June) for the names of scholarships given to graduating seniors in your area. If you think you might qualify, check with the sponsor.

Contact your church or synagogue to see if either the local unit or national organization offers any student aid programs. Contact local civic and fraternal organizations, religious groups, and veterans' posts; many local, state, and national units sponsor some scholarship programs, especially for members' children.

Ask your parents to check with their employers. Many employers have some form of scholarship or grant aid available to help employees' children meet

educational expenses; sometimes these programs are competitive, with awards based on academic achievement, while others are based on demonstrated need alone. Some employer programs are even offered as employee fringe benefits, particularly in educational institutions and nonprofit organizations.

If your parents are members of labor unions or trade and professional associations, they may discover that these organizations have some type of aid available to assist members' children. If one of your parents is a military veteran, you may also qualify for some help.

Investigate programs that may be underwritten by local businesses and industries. Community-based Education Opportunity and Upward Bound programs sometimes can assist you in identifying private sources of aid, too.

Take a few hours to go through books in your library about sources of financial aid (some are listed in the bibliography at the end of this chapter). You could be pleasantly surprised to discover that there is a local, regional, or national scholarship program aimed specifically at someone with your particular experiences, talents, part-time employment history, career plans, or proposed field of study. You might want to look at the "Advisory List of National Contests and Activities" published annually by the National Association of Secondary School Principals; this pamphlet lists contests and competitions for a wide range of fields, from public speaking and creative writing to foreign languages and computer programming.

Should you use one of the locator or search operations that offers to computer-match students with sources of financial aid, for a fee that can range from modest to hefty? The Student Advisory Committee of the College Scholarship Service (CSS) looked at that question in 1985. Noting that "at least two major studies have suggested that commercial computer search services may be ineffective," the Student Advisory Committee suggested that prospective clients check out a company's claims carefully before sending any money.

The committee also sent out a series of questions to high school counselors and college financial aid administrators and suggested that they might want to share the questions with students or parents to help them evaluate a service. Here are the committee's questions:

- If the company suggests that large amounts of aid currently are not being used, how does it document the statement?
- How many financial aid sources exist in the company's computer file? Does the company maintain its own file of sources, or does it use the file of some other company or service?
- Is there a minimum number of sources provided by the company? Are the listings in the form of scholarships, work, loans, or contests? Do they include federal and state programs for which the student will be considered through the regular financial aid application process?
- How often does the company update its list of aid sources? Does the company check to confirm that the source still exists, and that data concerning application deadlines and eligibility criteria are current?
- Can the student apply directly to the aid sources provided by the company, or must he or she be recommended for consideration by some other person or group? Are there application fees for the sources provided?
- How long will the student have to wait for the information? Will the list of aid sources be received prior to application deadlines?
- What characteristics are used to match students with aid sources?
- How successful have previous participants been in obtaining funds from aid sources identified by the company?
- Will the company refund the program fee if aid sources are incorrectly matched with the student's qualifications, if aid sources no longer exist or fail to reply to the student, or if application deadlines for aid sources have already passed when the information is received?

The committee correctly noted that "positive answers will not, however, guarantee that a student who uses the services actually will receive any funds," and suggested that the "high school guidance office, local library, and college financial aid office and academic departments are excellent resources through which [students] can conduct searches for sources of financial aid at no cost." Several useful publications are included in the bibliography of this book.

Questions and answers about financial aid

Q With fewer scholarship and loan dollars available and jobs so hard to find, is financial aid available only to people with very low incomes?

A No. You don't have to be poor to receive financial aid, but you do have to prove you need it. You are eligible for financial aid equal to the difference between

college costs (tuition, living expenses, and so forth) and what you and your family can afford to contribute toward those costs.

Q I've done an estimate of my expected family contribution and financial need on the worksheets in Chapter 9. Can I count on getting this much money to help me?

A Not necessarily. The impact of proposed federal student aid cutbacks makes it difficult to predict with any certainty how much aid will be available. You may be eligible for a certain amount, but you may not be able to get all you're eligible for simply because there's not enough to go around. If you've done the estimate, you've got a rough idea of your financial need, but you should be aware of some important limitations on this estimate.

The methods and formulas used in analyzing a family's financial need can and often do change from year to year. The College Scholarship Service (CSS) of the College Board continually reviews the methods of need analysis used by most colleges and financial aid programs, and annually refines its system to reflect such factors as increases in cost of living.

Family situations change. Your family may have unusual personal or financial circumstances that could not be taken adequately into account in these calculations, but would affect your family's ability to pay for education. (An example might be unusually high expenses associated with an illness or a disability.) When the time comes for you to actually apply for financial aid, you can provide more detailed information than you used in completing these worksheets. At that time, you can explain your financial situation in more detail, and note any special family circumstances.

You should be aware that financial aid administrators at colleges can—and often do—adjust the family share calculated by CSS, if a change in circumstances or additional information about your situation warrants a revision. This is because a national need analysis system can never accommodate all the special circumstances that make each family's situation unique. For any of these reasons, your expected family contribution and financial need could be different from your current estimate when the time actually comes for you to apply for financial aid. Use the estimates as a tool for planning, but count on doing as much as you can to help yourself.

Q If I am awarded aid, when will I actually get my money?

A You should get your money when you enroll (although not necessarily "on the spot") or at the start of the term or semester for which you enroll. The financial aid officer can tell you exactly when you will receive your award. Note that awards are not necessarily cash grants but may also be in the form of loans and jobs; most students get a combination or "package."

Q I plan to attend school half time, but I'll still need help with expenses. Will going to college part time lessen my chances of receiving aid?

A In awarding aid, many institutions give priority to full-time students; however, you may be eligible for some aid on a half-time basis. Depending on the priorities and availability of funds at a particular college, half-time students could be eligible for virtually all forms of federal aid. Depending on your financial situation, you could be eligible for a Pell Grant. Ask the financial aid office at the colleges you're considering whether part-time students are given any assistance.

Q Are noncitizens eligible for financial aid?

A In most cases noncitizens are not eligible for tax-supported financial aid (such as federal or state assistance). Usually, however, noncitizens who are permanent residents are eligible, as are some refugees. Some colleges may have limited private funds to assist foreign students. Noncitizens applying to colleges in the United States are encouraged to read "Financial Planning for Study in the United States," a booklet published by the College Board and available through guidance offices and college foreign student advisers.

Q Will I receive special consideration if I have brothers and sisters who are continuing their education beyond high school?

A Generally speaking, yes. Your parents cannot be expected to contribute as much to your college costs if you have other brothers and sisters whom they are also assisting.

Q My older brother was turned down for financial aid last year. Is there any point in my trying for financial aid?

A Definitely! College costs, institutional policies, and your family's financial circumstances change from one year to the next. The only way to know for sure whether you're eligible for financial aid is to apply for it. (See the next chapter for details.)

Q My older sister and my next-door neighbor both applied for financial aid at the same school last year. Their house is bigger than ours, and they make more money than our parents, so why did my neighbor get more financial aid than my sister?

A The formulas used to assess family financial strength are designed to treat families in similar circumstances equally. There are many reasons why your neighbor may have received more money than your sister:

1. Although her family has a larger house and a greater total income, they may also owe substantially more money on their home mortgage. If so, they would be able to contribute less to college costs and would be eligible for more aid.
2. The family might have financial circumstances of which you are unaware (more family members, extraordinary medical expenses, and so forth).
3. Your neighbor may have met the criteria for some financial aid award that your sister did not meet. For instance, the college may have been able to award her some aid because of her proposed academic major or because of her past academic achievement.
4. The college didn't have enough money to fully meet the needs of all the students who needed some assistance. Unfortunately, when the overall student need at a college exceeds the funds available, the financial aid administrator has to make difficult choices in deciding how much to give each recipient.

But *you* are not your sister. The only way to find out if you're eligible and how much you can receive is to apply for financial aid.

Q Do I have to pay income tax on my student aid award? How about FICA tax on my earnings from work-study jobs?

A The Tax Reform Act of 1986 included some new provisions related to the taxation of scholarships and fellowships. Under the new law, grants, scholarships, and fellowships *in excess of* the amount needed for tuition and fees plus related expenses must be included in taxable income. At press time, the Internal Revenue Service had indicated that amounts of awards used for tuition, fees, and required books, supplies, and equipment would be nontaxable, but amounts used for other indirect expenses—such as room and board—would be subject to taxation.* (However, remember that even these portions of your student aid package would be taxable only if you make enough money overall that you are required to pay income taxes.) Ask at your financial aid office or local IRS office if you have questions about the taxability of your aid award.

Under current law, students are *not* required to pay social security (FICA) tax on the wages they earn in jobs provided by the colleges and universities they attend, such as jobs in the College-Work-Study Program. (Jobs with *other* employers are subject to FICA tax withholding.) However, the president has recommended the repeal of this special exception as part of his Fiscal Year 1988 budget. At the time this book went to press, the proposal was being discussed; most higher education groups were opposed to the change, and prospects for passage were unclear.

*Department of the Treasury, Internal Revenue Service, Public Affairs Division, News Release IR-87-55, April 13, 1987, page 1.

Bibliography of aid sources

General

Annual Register of Grant Support: 1987-88. 21st ed. Wilmette, Ill.: National Register Publishing Co. $96. Updated annually. Over 2,800 programs providing grant support in the humanities, international affairs and area studies, special populations, education, environmental and urban affairs, social sciences, physical sciences, life sciences, technology, and other areas are listed.

The College Blue Book: Scholarships, Fellowships, Grants, and Loans. 21st ed. New York: Macmillan Publishing Co., 1987. One of five volumes; $46 per volume. Sources of financial assistance are listed for high school seniors through students involved in advanced professional programs.

Financial Aid to Education. New Haven, Conn.: Knights of Columbus, 1985. Free. This publication contains information about loans and scholarships for children of members of the Knights of Columbus.

Keeslar, Oreon, ed. *Financial Aids for Higher Education, 1986-87*. 12th ed. Dubuque, Ia.: Wm. C. Brown Company, 1986. $32.95. Updated biennially. More than 3,000 programs are listed specifically for students entering as college freshmen.

Lesko, Matthew. *Getting Yours: The Complete Guide to Government Money*. New York: Penguin Books, 1987. $8.95. Many of the federal government programs listed in the Office of Management and Budget's Catalog of Federal Domestic Assistance are summarized here, including grants, scholarships, and fellowships.

Need a Lift? Indianapolis: The American Legion, 1987. $1. Updated annually. Sources of career, scholarship, and loan information for all students are listed, with emphasis on scholarship opportunities for veterans, their dependents, and children of deceased or disabled veterans.

Renz, Loren, ed. *Foundation Grants to Individuals*. 5th ed. New York: Foundation Center, 1986. $18. Undergraduate and graduate scholarship sources are categorized under general and specific requirements. Also included are fellowships, residences, internships, and grants by United States foundations to foreign nationals or citizens, as well as company-sponsored aid programs.

Student Aid Annual, 1987-88. Moravia, N.Y.: Chronicle Guidance Publications, Inc., 1987. $21.95. Financial aid programs for students at undergraduate and graduate levels of study are listed, including those offered by noncollege organizations, labor unions, and federal and state governments.

The Student Guide: Five Federal Financial Aid Programs. Washington, D.C.: U.S. Government Printing Office. Catalog number 513N. 1987. Free. Order from Consumer Information Center, Pueblo, Colorado 81009. Updated annually. Five financial aid programs sponsored by the federal government.

Specific population groups

Bureau of Indian Affairs Higher Education Grants. Washington, D.C.: Bureau of Indian Affairs, 1985. Free. A listing of sources of assistance for students who are at least one-fourth Native American or Alaskan native blood quantum of a tribal group recognized by the Bureau of Indian Affairs for certain benefits.

Financial Aid for Minorities in Business. Garrett Park, Md.: Garrett Park Press, 1981. $3. This publication lists financial aid sources for minority students specifically in business. Other books ($3 each) in the Financial Aid for Minorities series cover the fields of allied health, education, engineering, law, medicine, science, and mass communications and journalism.

Frankel, Norman, ed. *Grants Register, 1987-89*. New York: St. Martin's Press, 1986. $59.95. Updated biennially. Scholarships and fellowships at all levels of graduate study are listed. Specific awards are included for refugees, war veterans, minorities, and students in unexpected financial difficulties.

Higher Education Opportunities for Minorities and Women. Washington, D.C.: U.S. Government Printing Office. Stock number 065-000-00252-3, 1985. $5.50. This is a list of educational opportunities for minorities and women at the postsecondary level by fields of study. It also provides general information about seeking assistance in pursuing additional educational and career goals.

Johnson, Willis, ed. *Directory of Special Programs for Minority Group Members: Career Information Services, Employment Skills Banks, Financial Aid Sources*. 4th ed. Garrett Park, Md.: Garrett Park Press, 1985. $22.50.

Private Sector Funding. Washington, D.C.: National Association for Foreign Student Affairs, 1984. $4.95.

Schlachter, Gail Ann. *Directory of Financial Aids for Minorities, 1986-87*. Redwood City, Calif.: Reference Service Press, 1986. Biennial. $37.50. Contains references and cross-references to scholarships, fellowships, grants, loans, awards, and internships set aside for ethnic minorities.

Schlachter, Gail Ann. *Directory of Financial Aids for Women, 1987-88*. Redwood City, Calif.: Reference Service Press, 1987. $39.50. Lists scholarships, fellowships, grants, loans, awards, and internships set aside for women.

Fields of study

Arts

Fandel, Nancy A. *The National Directory of Grants and Aid to Individuals in the Arts*. 6th ed. Washington, D.C.: Washington International Arts Letter, 1985. $24.95. Grants, prizes, and awards for professional work in the United States and abroad are listed. Included is information about universities and schools offering aid to students in the arts.

Communications

Grants and Awards Available to American Writers. 14th ed. New York: P.E.N. American Center, 1987. $6. Updated annually. Awards granted to American writers to use in the United States or abroad are listed.

1987 Journalism Career and Scholarship Guide. Princeton, N.J.: Dow Jones Newspaper Fund, 1987. First copy free; additional copies $2 each. Updated annually. In addition to information on journalism programs, this publication contains a section on scholarships and minority grants.

Health

Allied Health Education Directory. 15th ed. Chicago: American Medical Association, 1987. $25.95. This

publication contains a section on financial aid in addition to a listing of allied health education programs.

Helping Hands-Horizons Unlimited. Chicago: American Medical Association, 1983. $2.50. Selected bibliography of financial aids for health careers.

Medical School Admission Requirements, U.S. and Canada, 1988-89. 38th ed. Washington, D.C.: Association of American Medical Colleges, 1987. $7.50. Updated annually. Included are suggestions for undergraduate financial aid planning, sources of aid at medical and postmedical school levels, and aid sources for minorities and the disadvantaged.

Scholarships and Loans in Nursing Education. New York: National League for Nursing. Publication Number 41-1964. $8.95.

History

Fellowships and Grants of Interest to Historians, 1987-88. Washington, D.C.: American Historical Association, 1987. $4 to members; $5 to nonmembers. Updated annually.

Library education

Financial Assistance for Library Education. Chicago: American Library Association, 1987. $1 (postage and handling). Updated annually. This publication lists assistance administered by state library agencies and associations, local libraries, and academic institutions.

Military

Betterton, Don M. *How the Military Will Help You Pay For College*. Princeton, N.J.: Peterson's Guides, 1985. $6.95. Extensive information is given about scholarship and financial aid opportunities for students going directly to college after high school, including the service academies, ROTC programs, and other special programs, as well as about scholarship and tuition-payment programs available to members of the armed forces.

Philosophy

Fellowships and Grant Opportunities of Interest to Philosophers, 1987-88. Newark, Del.: American Philosophical Association, 1987. $5.00. Updated annually. This listing is included as a section in the association's *Proceedings and Addresses*.

Psychology

Graduate Study in Psychology and Associated Fields, 1986. (includes a 1987 addendum) Washington, D.C.: American Psychological Association, 1987. $14.50 to members, $18.50 to nonmembers. Information about financial assistance and foundations and agencies accepting fellowship applications is included with information about graduate programs in psychology.

Speech

Student Financial Aid: Speech-Language Pathology and Audiology. Rockville, Md.: American Speech and Hearing Association, 1986. $1.25 prepaid. This is a mimeographed listing of general information about grants, scholarships, and loans at the graduate level and information about aid for graduate education in the field.

6. Applying for financial aid

If you have estimated your expenses at the colleges that interest you, evaluated your family's financial situation, and concluded that you will need some extra help in meeting educational expenses, then you should apply for financial aid. Even if you are not certain that you will qualify, you should apply—that's the only way to find out if you are eligible. Simply applying for admission to college is not enough. If you think you need financial aid, you *must apply* for aid.

The process of applying for financial aid can be confusing and time-consuming, especially to the first-time applicant. (Yes, you must reapply for aid every year, but it really does seem a lot simpler and less confusing the second time around.) In Chapter 5, you learned about the various types and sources of financial aid. Application requirements differ from college to college (and program to program), but the good news is that you don't really have to file separate applications for each and every one.

In order to improve your chances of getting the aid you need, you must know *what* you have to do, *when* you have to do it, and *how* to do it right—the first time.

The Financial Aid Form and other need analysis documents

For most students, the process begins with the completion of a need analysis document like the Financial Aid Form (FAF), prepared by the College Scholarship Service (CSS). Some students may be asked instead to file other forms, such as the Student Aid Application for California (SAAC) also prepared by the CSS, the Family Financial Statement (FFS), published by the American College Testing Program, the Pennsylvania Higher Education Assistance Agency (PHEAA) application, the Illinois State Scholarship Commission (ISSC) form, or the Application for Federal Student Assistance (AFSA). FAFs and other need analysis forms are available in high school guidance offices, college financial aid offices, and many community centers.

Check with each college and program to determine exactly what need analysis form you should file to begin the process. Because most colleges, state agencies, private programs, and the federal government require or accept the FAF or FFS, the chances are very good that you will only have to complete one need analysis document. Simply list on the FAF all of the colleges and programs from which you are seeking aid.

While you are checking on required forms, make sure you understand the deadlines, too. File a need analysis form as soon as possible after January 1 to be considered for the following fall academic term. If possible, send in your completed need analysis form four weeks before the earliest deadline you need to meet.

Need analysis forms ask for information about your family and finances much like that reviewed in Chapter 2—information about income, assets, family size, unusual expenses, and so forth. Detailed step-by-step instructions accompany the need analysis form. You should gather your most recent income tax returns, W-2 forms, and other financial records together before sitting down to complete the form.

The information you report on the need analysis form is confidential and is sent only to the colleges and programs you list. After you submit a completed need analysis form, your information is analyzed and a preliminary estimate made of what your family could be expected to contribute toward college expenses. The processing agency prints this information on a need analysis report, which is sent to the colleges and programs that you listed. (If you are using an FAF, a photocopy of your FAF is also sent to the colleges and programs along with the report.)

Applying for aid usually begins with completion of a "need analysis" form. Find out about the forms required by the colleges that interest you, and be sure to meet the financial aid deadlines.

If you indicated on your form that you also want to receive consideration for federal or state student aid, the processing agency sends information from your form to those programs as well.

At about the same time, the processing agency will also send an acknowledgment to you indicating that your form was received and processed. Review this information carefully to make sure that the data you originally provided was correctly recorded, and that all the colleges and programs to which you are applying received the appropriate copies.

If something on your original form was incomplete, you may get a request for more information. Make sure that you respond promptly and accurately to any such requests.

Your acknowledgment also may contain messages from colleges or programs indicating that additional information is needed. For instance, a college-specific message may ask you to send a copy of your parents' tax return to the financial aid office. Again, respond promptly and accurately to any such requests from colleges.

When colleges and programs receive your need analysis report, they will evaluate your financial need and eligibility and decide how much money you will actually receive. Eventually you will receive award notices from the colleges to which you applied, as well as from your state scholarship or grant program and the federal student financial aid programs. Review all communications carefully, and promptly supply any additional information that may be requested.

Tips on completing a need analysis form

1. *Make sure you know what need analysis form you need to complete.* Usually the FAF will serve for all of the colleges and programs from which you are seeking aid, but check to make sure. The most reliable source of information about a particular college's requirements is the catalog or financial aid bulletin published by the college itself. For federal programs, including Pell Grants and campus-based funds, you can simply check off the appropriate box on the FAF or other appropriate

document to indicate that you want to be considered for federal assistance. In many states, you can apply for state aid by a similar process; your high school counselor can tell you whether the FAF or FFS can be used to apply for aid in your state. Private student aid programs may or may not require you to complete a need analysis form; review their published guidelines for details.

2. *Read the instructions that accompany the form.* If you don't understand them, read them again. If you still don't understand them, read them again. Enough said.

3. *Gather your financial records together before you start completing the form.* Because need analysis documents ask questions about your family's financial situation, it is helpful to have such records as the following on hand: your federal income tax returns (IRS 1040 or 1040A or 1040 EZ), state and local income tax returns, W-2 forms and other earnings records (for example, paycheck stubs), current bank statements, current mortgage information, records of medical and dental bills, business or farm records, and records of veteran's benefits and social security payments.

4. *Complete the form accurately, completely, and legibly.* Inaccurate or missing information on your form could cause costly delays in processing your application.

5. *Provide all information requested.* Don't leave any questions blank; for instance, if an answer is zero, enter zero. Keep in mind that colleges may subsequently request a copy of your parents' tax return to verify the information you reported on your FAF or other need analysis document. Inaccurate information may jeopardize your getting financial aid.

6. *Submit your need analysis form for processing as early as possible AFTER January 1.* If possible, send in your form at least four weeks before the earliest deadline. This may not always be possible if a deadline falls before January 31. In that case, just send in the form as soon as possible after January 1. (If you send in your form *before* January 1, federal rules require that you file another form later reporting your income, and this could, in the end, delay your application.)

7. *When you get your acknowledgment back from the processor of your need analysis form, review it carefully.* Make sure that your records have been sent to all of the colleges and programs by which you want to be considered. Check the data that were used in the calculations of your family's ability to pay to make sure that they are accurate. Review any messages contained on your acknowledgment directing you to provide additional information to colleges or programs.

Other applications you may have to complete

Although a need analysis form is the starting point of the process, you also may be required to complete several other documents during the course of applying for financial aid. The advice on completing these applications is basically the same: accuracy, completeness, legibility, and timeliness are all very important.

College applications

Many colleges have their own applications that students must complete in addition to an FAF or other form. When checking the requirements of the various colleges and universities you are considering, make sure you know whether or not you must also complete separate applications for each college. This information, along with information about deadlines, is available in the college catalog or bulletin.

A college's financial aid application is not the same as the admissions application, although you send them in at approximately the same time. You do not need to wait until you have been accepted for admission to apply for financial aid. In fact, if you *do* wait, you could find that the money is all gone. Follow the rules specified by the college in its catalog or other materials.

Guaranteed Student Loans

If you are applying for a Guaranteed Student Loan (GSL), you will have to complete a separate application for this program. Applications are available from eligible participating lenders, from colleges, and from guaranty agencies. Fill out the first section of the form with information about yourself; the college financial aid administrator will complete another section that certifies your enrollment (or admission and prospective enrollment), academic standing, cost of education, and other financial aid. After both sections are completed, the application is taken (or sent) to the lender. If the lender agrees to make the loan, the application is sent on to the state guaranty agency or federal government for approval. It normally takes four to six weeks to completely process a GSL application, so give yourself plenty of time to get through the process.

If you have difficulty finding a lender willing to make a Guaranteed Student Loan, check with the college financial aid administrator; he or she may be aware of active lenders. Also, in some cases, the aid administrator can act on behalf of a state lending agency in either approving or recommending approval of a "loan of

last resort." Lenders are prohibited by law from discriminating against loan applications on the basis of race, sex, religion, national origin, marital status, or because an applicant receives public assistance or has exercised consumer rights. However, lenders can limit the number of loans and the amounts of the loans they make. Sometimes they also attach other requirements, such as being a customer or having a parent who is a customer.

State and state-authorized guaranty agencies can charge an insurance premium on Guaranteed Student Loans, and the amount is usually collected by the lender at the time the loan is disbursed to you (not earlier than 30 days before the beginning of the academic term). You will also be required to pay a "loan origination fee," which comes off the top of the loan.

State student assistance programs

Some states also have separate applications that must be completed by applicants for state student assistance programs. Your high school counselor, financial aid administrator, or state student assistance agency can tell you whether you need to complete any separate applications. Most states, however, permit a student to use one of the need analysis documents as the application. If you live in such a state, make sure that you file the state-specific FAF or other need analysis document, and follow the instructions carefully for listing the state agency as one of the recipients of information from your FAF.

Private scholarship programs

Many private scholarship programs have their own separate applications that must be completed in addition to the FAF or other need analysis document. Details about the applications requirements are provided by the sponsor. Sometimes these additional applications are fairly simple and straightforward; however, some of these programs require students to provide extensive biographical information, high school transcripts, essays, and/or other material as part of the application process.

Federal student aid programs

You do not need to complete a separate application for federal student aid if you are filing an FAF, FFS, SAAC, PHEAA or ISSC forms, or AFSA. Simply follow the directions for adding the federal government to the list of recipients of information from your need analysis document. There is no additional charge for using any of these forms to apply for federal student assistance.

Additional information you may have to provide

In the course of applying for financial aid, you may be asked to provide additional information at various points in the process. For example, most colleges ask students to provide information to assist them in "validating" the data reported on the FAF or other need analysis document. Before actually disbursing money to students, copies of the parents' most recent tax returns may be requested. If different information appears on the tax return, the applicant's aid award may be adjusted. An aid recipient may refuse to provide such information, but the college in turn has the right not to provide money.

One or more of the colleges from whom you are seeking aid may also request additional information in order to *verify* the data you reported on your FAF or other need analysis form. Starting with the 1986-87 academic year, the federal government expanded its efforts to verify the financial situation of selected applicants for the Pell Grant, Guaranteed Student Loan (GSL), and campus-based programs. While colleges did not have much latitude in structuring their compliance with the new verification procedures, they did have some choice about whether they would routinely follow up on all applicants or just selected students, as well as about whether they would use individualized letters, customized forms, blank forms, or other mechanisms for collecting information from students.

So don't be surprised or distressed if you receive requests from one or more colleges to report new information or confirm previously reported data. Simply provide the requested information as quickly and completely as possible. If you don't understand what a request means, ask. If you feel as though you are being asked to reconfirm information you already reported, you may be! One of the reasons for the procedure is to make sure that information is as accurate at the point of *awarding* aid as it was at the point of *applying* for it, as well as to correct any errors.

A student who receives funding under the College Work-Study program will be required to file a federal income tax withholding form (Form W-4) or withholding exemption form (Form W-4E) with the college before he or she can earn any funds.

A student who receives a Perkins Loan will be required to sign a promissory note for each loan advance. A copy of the promissory note and other loan information is provided to recipients in accordance with federal loan disclosure laws. Recipients may also have to provide additional information, such as a list of personal references.

Comply with all requests for additional information promptly, accurately, and legibly. The paperwork may seem like a nuisance, but remember that hundreds or even thousands of dollars are at stake. Don't blow your chances for financial aid by failing to provide the information someone needs to evaluate your situation.

Questions and answers about applying for financial aid

Q Must I be accepted for admission before I apply for financial aid? Must I be admitted before I receive financial aid?

A You should apply for financial aid at the time you apply for admission. Remember, too, that simply applying for admission is not the same as applying for financial aid. To receive aid, you must *apply* for aid; this means that you must file the FAF (or some other need analysis form). In some cases, you may also be required to submit a separate institutional or state application as well. You will not actually receive aid until you have enrolled.

Q Is it necessary for me to apply for financial aid every year?

A Yes. At most colleges you must apply each academic year, but applying is almost always easier the second time around because there is less paperwork and you are familiar with the process.

Q I want to apply for a scholarship only. Do I have to fill out the FAF?

A Check with the sponsor of the scholarship and/or the financial aid office at the institution to which you are applying. Find out what forms should be completed and when they are due.

Q How can I find out what the deadline is for applying for aid at the college I am interested in?

A Look for the deadline in Part II of this book or in the college's catalog. If you cannot find it there, ask the college's financial aid office. Be aware that many institutions have "priority filing dates," which you should meet if you possibly can. After that date, some aid may still be available; check with the financial aid office if you are applying later than the deadline or priority date given.

Q One college I'm applying to *requires* the FAF and another *requires* the FFS. Do I have to complete both need analysis forms?

A Contact the financial aid offices at both colleges, explain the situation, and see if both colleges would accept the same form. If neither college is willing to accept the other form, you will have to file both forms.

Q Will I have to file more than one need analysis form for aid?

A Because the FAF is accepted, preferred, or required by most postsecondary institutions, state agencies, and scholarship programs, most families that file an FAF will not be required to complete another need analysis form; however, students may have to complete an additional institutional or state application. Part II of this book lists the forms required by more than 3,100 institutions of higher education. Students should always consult the colleges and programs directly to make sure that they understand exactly what forms are required, and when.

Q My parents are divorced. Who should complete the FAF?

A The parent with whom you lived for the longest period in the last 12 months should fill out the FAF. If you didn't live with either parent, or lived with each parent for an equal number of days, the FAF should be filled out by the parent who provided things such as housing, food, clothes, car, medical and dental care, and college costs.

Q Can a college legally require each of my divorced or separated parents to fill out a need analysis document?

A The Pell Grant Program requires information only from the parent with whom you live. However, an aid administrator at a particular college can make his or her own decision about whether to require both parents to file the FAF or other need analysis forms when you are being considered for funds from programs that the institution administers. The current marital status and other obligations of the parent who doesn't have custody would be considered in this situation.

Q My parents are divorced, but the parent who qualifies and who must complete the FAF doesn't want to provide the necessary data. However, the parent who doesn't qualify is willing. What should I do?

A According to criteria established by federal programs, the qualifying parent *must* provide information or the student cannot receive a Pell Grant. However, for purposes of qualifying for aid administered by colleges, the aid administrator at the college may resolve the problem. The administrator may determine, for instance, that there are sufficiently adverse home circumstances that information from the responsible parent cannot be obtained and that information from the other parent is acceptable. This situation should be explained on your form.

Q My parents refuse to file an FAF or other documents. What should I do?

A In order to be considered for financial aid, you must file a need analysis form. However, aid administrators will sometimes consider special circumstances if they are documented by your clergyman, counselor, or social worker. You must realize that resources will be limited because no state or federal funds can be distributed without documented financial need. (You also may be asked to provide a notarized statement of parent nonsupport.)

Q I plan to start college in fall of 1988. Why do all the forms ask questions about my parents' income from *this* year when I need the money *next* year?

A 1987 is the last complete year for which your parents' income can be verified through tax returns. If your parents' income in 1988 will differ substantially from their 1987 income, explain this situation. The financial aid administrator may be able to take these special circumstances into consideration in making your award.

Q Is there any way that the IRS will find out how we answered questions on the FAF?

A The College Scholarship Service *does not* routinely provide information from the FAF to the IRS. The CSS will disclose your records only if the IRS subpoenas them as part of an investigation. The information that you provide on the FAF or other need analysis documents is shared only with the colleges and programs you list as recipients because you are seeking financial aid from them.

Q Should I attach receipts? Will anyone ever ask for receipts? Should I attach my IRS Form 1040 to my FAF or other need analysis document?

A No. Don't enclose receipts. However, financial aid offices at colleges to which you apply may ask for documentation of unusually high expenses that occur during the academic year. It is more likely that they will request a copy of your tax returns to verify expenses that occurred in the prior calendar year. More and more colleges are requesting tax returns to validate information reported on documents such as the FAF. Do *not* attach a copy of your tax returns to the FAF or other need analysis document. If a college or program wants to see your tax returns, send them directly to the address indicated.

Financial Aid Form—School Year 1988-89

Warning: If you use this form to establish eligibility for federal student aid and you purposely give false or misleading information, you may get a $10,000 fine, a prison sentence, or both.

Draft—July 10, 1987 **XX** **1.4**

Section A—Student's Identification Information

1. **Student's name** DALEY (Last) ANDREA (First) M (M.I.)
2. **Student's permanent mailing address** (Mail will be sent to this address. See front cover for state abbreviation.) 555 SOUTH MAIN STREET (Number, street, and apartment number) CENTER CITY (City) US (State) 55555 (Zip Code)
3. **Student's social security number** 555-55-5555
4. **Student's date of birth** 12 (Month) 05 (Day) 69 (Year)
5. **Student's home telephone** 555 (Area Code) 655 5555 (Number)
6. **Student's title** (optional) 1 ☐ Mr. 2 ☑ Miss, Ms., or Mrs.
7. a. **Student's state of legal residence** US
   b. **Date student began living in that state** 12 (Month) 69 (Year)

Section B—Student's Other Information

8. a. **The student is** (Check only one box.) 1 ☑ a U.S. citizen; 2 ☐ an eligible noncitizen (See instructions.); 3 ☐ none of the above (See instructions.)
   b. **If the student is an eligible noncitizen, give his or her Alien Registration Number.**
9. **The student is** (Check only one box.) 1 ☑ unmarried (single, divorced, or widowed); 2 ☐ married; 3 ☐ separated
10. **Student's high school code number** (If you are now in high school, give your high school 6-digit code number.) 555555
11. **Student's expected enrollment status during the 1988-89 school year** (Check only one box.) 1 ☑ Full-time; 2 ☐ At least half-time but less than full-time; 3 ☐ Less than half-time
12. **Student's expected year in college during 1988-89** (Check only one box.) 1 ☑ 1st; 2 ☐ 2nd; 3 ☐ 3rd; 4 ☐ 4th; 5 ☐ 5th or more undergraduate; 6 ☐ first year graduate or professional (beyond a bachelor's degree); 7 ☐ continuing graduate or professional
13. **Student's course of study code** (See instructions.) 55
14. **Student's expected date of completion of current college degree or certificate** Month 05 Year 92
15. **Will the student have a first bachelor's degree by July 1, 1988?** Yes ☐ 1 No ☑ 2
16. a. **Has the student attended any college or school beyond high school?** Yes ☐ 1 No ☑ 2
    b. **If yes, list all colleges or schools, including city and state, that the student has attended, up to and including the present. If you need more space, continue in Section P.**

Name, city, and state of college	Attended at least half-time?	Period of attendance From (mo./yr.)	To (mo./yr.)	CSS Code Number
	Yes ☐ No ☐			
	Yes ☐ No ☐			
	Yes ☐ No ☐			

17. a. **Student's driver's license number** 555555555
    b. **State that issued the above student's driver's license number** US (State)

See instructions before answering 18 and 19.

18. **Is the student or the student's spouse a dislocated worker?** Yes ☐ 1 No ☑ 2
19. **Is the student or the student's spouse a displaced homemaker?** Yes ☐ 1 No ☑ 2

Section C—Student's 1987 Income & Expenses

If you are married, include your spouse's information in Sections C and D.

20. **The following 1987 U.S. income tax return figures are** (Check only one box.) 1 ☐ from a completed IRS Form 1040EZ or 1040A. Go to 21. 2 ☐ from a completed IRS Form 1040. Go to 21. 3 ☐ estimated. Will file IRS Form 1040EZ or 1040A. Go to 21. 4 ☐ estimated. Will file IRS Form 1040. Go to 21. 5 ☑ a tax return will not be filed. Skip to 25.

Tax Filers Only

21. **1987 total number of exemptions** (IRS Form 1040—line 6e, 1040A—line 6e, or 1040EZ—see instructions) 21. 00
22. **1987 income from IRS Form 1040—line 38, 1040A—line 12, or 1040EZ—line 3** (Use the worksheet in the instructions.) 22. $ 0.00
23. **1987 U.S. income tax paid** (IRS Form 1040—line 47, 1040A—line 20, or 1040EZ—line 9) 23. $ 0.00
24. **1987 itemized deductions** (IRS Form 1040, Schedule A—line 26. Write in "0" if deductions were not itemized.) 24. $ 0.00
25. **1987 income earned from work by student** (See instructions.) 25. $ 0.00
26. **1987 income earned from work by spouse** (See instructions.) 26. $ 0.00
27. **1987 untaxed income and benefits**
    a. **Social security benefits** 27a. $ 0.00
    b. **Aid to Families with Dependent Children** (AFDC or ADC) b. $ 0.00
    c. **Child support received for all children** c. $ 0.00
    d. **Other untaxed 1987 income and benefits from worksheet in instructions** (Explain in Section P.) d. $ 0.00
28. **1987 medical and dental expenses not paid by insurance** 28. $ 0.00
29. **1987 elementary, junior high, and high school tuition for dependent children**
    a. **Amount paid** (Don't include any tuition paid for the student.) 29a. $ 0.00
    b. **For how many dependent children?** (Don't include the student.) b. 0

Section D—Student's Assets

30. **Cash, savings, and checking accounts** $ 500.00
31. **Home** (Renters write in "0.") What is it worth now? $ 0.00 What is owed on it? $ 0.00
32. **Other real estate and investments** What is it worth now? $ 0.00 What is owed on it? $ 0.00
33. **Business and farm** What is it worth now? $ 0.00 What is owed on it? $ 0.00
34. **Does any part of 33 include a farm?** Yes ☐ 1 No ☑ 2

Section E—Student's Expected Veterans Benefits

July 1, 1988—June 30, 1989

35. **Student's veterans GI Bill and Dependents Educational Assistance Benefits** Amount per month $ 0.00 Number of months 00
36. **Student's veterans VA Contributory Benefits (VEAP)** Amount per month $ 0.00 Number of months 00

Write in student's last name DALEY

Section F—Student's (& Spouse's) Expected Income & Benefits (Don't include student financial aid or any of the benefits given in Section E.)

		Calendar Year 1988		Summer 1988		School Year 1988-89
37.	1988 income earned from work by student	$ 0 .00	41. Income earned from work by student	3 months $ 700 .00	9 months $ 0 .00	
38.	1988 income earned from work by spouse	$ 0 .00	42. Income earned from work by spouse	3 months $ 0 .00	9 months $ 0 .00	
39.	1988 other taxable income	$ 0 .00	43. Other taxable income	3 months $ 0 .00	9 months $ 0 .00	
40.	1988 untaxed income and benefits	$ 0 .00	44. Untaxed income and benefits	3 months $ 0 .00	9 months $ 0 .00	

Section G—Student's Status

45. a. Was the student born before January 1, 1965? (See answer to 4.) Yes ☐ 1 No ☑ 2

b. Is the student a veteran of the U.S. Armed Forces? Yes ☐ 1 No ☑ 2

c. Is the student a ward of the court or are both parents dead? Yes ☐ 1 No ☑ 2

d. Does the student have legal dependents other than a spouse? Yes ☐ 1 No ☑ 2

Before going on, read and follow the instructions at the right.

- If you answered "Yes" to **45a**, or **45b**, or **45c**, or **45d**, go to Section H and fill in the **gray** and the **white** areas on the rest of the form. Some colleges may also ask you to complete the **green** areas. **Don't answer 46, 47, 48, 49, or 50.**
- If you answered "No" to **all** of **45a, 45b, 45c,** and **45d** and you are:
  - —unmarried **and** will be an undergraduate student in 1988-89, go to **46** and follow the directions given. Don't answer **50.**
  - —married **or** will be a graduate/professional student in 1988-89, go to **50.** Don't answer **46, 47, 48,** or **49.**

Unmarried (Single, Divorced, Widowed, or Separated) Undergraduate Students

46. Was the student claimed by parents as an income tax exemption ...In 1986? Yes ☑ 1 No ☐ 2

...In 1987? Yes ☑ 1 No ☐ 2

If you answered "Yes" to **any** year in **46**, go to Section H and fill in the **green** and the **white** areas on the rest of the form. Skip **47, 48,** and **49.** If you answered "No" to **both** years in **46**, go to **47.**

47. Did the student receive federal student aid during the 1987-88 school year? Yes ☐ 1 Go to **48.**

No ☐ 2 Go to **49.** Skip **48.**

48. Were the student's total resources $4,000 or more, not including parents' support ...In 1986? Yes ☐ 1 No ☐ 2

...In 1987? Yes ☐ 1 No ☐ 2

If you answered "Yes" to **48** for **both** years, go to Section H and fill in the **gray** and the **white** areas on the rest of the form. Some colleges may also ask you to complete the **green** areas.

If you answered "No" to **any** year in **48**, go to Section H and fill in the **green** and the **white** areas on the rest the form.

49. Were the student's total resources $4,000 or more, not including parents' support ...In 1986? Yes ☐ 1 No ☐ 2

...In 1987? Yes ☐ 1 No ☐ 2

If you answered "Yes" to **49** for **both** years, go to Section H and fill in the **gray** and the **white** areas on the rest of the form. Some colleges may also ask you to complete the **green** areas.

If you answered "No" to **any** year in **49**, go to Section H and fill in the **green** and the **white** areas on the rest of the form.

Married Students or Graduate/Professional Students

50. Will the student be claimed by parents as an income tax exemption in 1988? Yes ☐ 1 No ☐ 2

If you answered "Yes" to **50**, go to Section H and fill in the **green** and the **white** areas on the rest of the form.

If you answered "No" to **50**, go to Section H and fill in the **gray** and the **white** areas on the rest of the form. Some colleges may also ask you to complete the **green** areas.

Section H—Household Information

51. [redacted] 4

52. [redacted] 1

[redacted]

55. Family Members' Listing

Give information for all family members included in **51** and **53.**

The student is already listed on the first line. List only seven other family members on the lines to the right. If there are more than seven, list first those persons who will be in college at least half-time. List those over seven in Section P and check this box. ☐

	Full name of family member	Age of person	Relationship to student (Use code below.)	Will this person attend college at least half-time in 1988-89 school year? Yes	No	Name of the school or college this person will attend in the 1988-89 school year
1	**Student Applicant**					
2	Charles Daley	47	1	1 ☐	2 ☑	
3	Elizabeth Daley	45	1	1 ☐	2 ☑	
4	Michael Daley	16	2	1 ☐	2 ☑	
5				1 ☐	2 ☐	
6				1 ☐	2 ☐	
7				1 ☐	2 ☐	
8				1 ☐	2 ☐	

Use correct code from below.

1 = Student's parent/stepparent
2 = Student's brother or sister
3 = Student's husband or wife
4 = Student's son or daughter
5 = Student's grandparent
6 = Other (Explain in Section P.)

If you are answering the green and the white areas, go to page 3 and complete the rest of the form. If you are answering the gray and the white areas, go to page 4. Skip page 3.

	What is it worth now?	What is owed on it?
78. Cash, savings, and checking accounts	$1,500.00	XXXXXXXXXXX
79. Home (Renters write in "0.")	$75,000.00	$53,500.00
80. Other real estate	$0.00	$0.00
81. Investments	$0.00	$0.00
82. Business and farm	$0.00	$0.00

83. Does any part of **82** include a farm? Yes ☐ 1 No ☑ 2

84. If parents own home, give a. year purchased 1980 b. purchase price $60,000.00

Section M—Divorced, Separated, or Remarried Parents

(To be answered by the parent who completes this form, if the student's natural or adoptive parents are divorced or separated.)

85. a. Year of separation ____ Year of divorce ____

b. Other parent's name ____

Home address ____

Occupation/Employer ____

c. According to court order, when will support for student end? Month ____ Year ____

d. Who claimed student as a tax exemption for 1987? ____

e. Is there an agreement specifying a contribution for student's education? Yes ☐ 1 No ☐ 2

If yes, how much for the 1988-89 school year? $ ____.00

Continue on the next page.

Section N—Student's Financial Aid Preferences

86. During the 1988-89 school year, student wants financial aid — from Month 09 Year 88 through Month 05 Year 89

87. Check the student's preference for work or loan assistance. (Check only one box.)
1 ☐ Part-time job 3 ☐ Loan
2 ☑ Part-time job and loan 4 ☐ No preference

88. Is the student currently in default on an educational loan (GSL, SLS/PLUS/ALAS, NDSL/Perkins, ICL, etc.)? Yes ☐ 1 No ☑ 2

89. Does the student owe a refund on a federal grant (Pell, SEOG, SSIG, etc.)? Yes ☐ 1 No ☑ 2

90. If it is necessary to borrow money to pay for educational expenses, does the student want to be considered for a Guaranteed Student Loan (GSL)? Yes ☑ 1 No ☐ 2
(If you check "Yes," your information may be sent to the appropriate GSL agency.)

91. Guaranteed Student Loan (GSL) information

a. Total unpaid balance on all GSL loans (See the worksheet in the instructions. If you answer "0," skip to 92.) $ 0 00

b. Total unpaid balance on most recent GSL loan $ 00

c. Interest rate of most recent GSL loan (Check only one box.) 1 ☐ 7% 2 ☐ 8% 3 ☐ 9%

d. Loan period of most recent GSL loan from Month Year through Month Year

e. Class level in which the student received the most recent GSL loan (Give number code from below.) ☐

1 = Freshman; 2 = Sophomore; 3 = Junior; 4 = Senior; 5 = Fifth year undergraduate; 6 = First year graduate/professional; 7 = Second year graduate/professional; 8 = Third year graduate/professional; 9 = Beyond third year graduate/professional; 0 = Correspondence

Section O—Student's Colleges & Programs

92. List names and CSS code numbers of the colleges and programs that are to get information from this form. Give the correct housing code. Don't list federal student aid programs. Be sure you enclose the right fee. See the instructions and 93 to the right.

Name / City and State	CSS Code No.	Housing Code*
Carter City CC Carter City, US	5555	1
Alaska Grant Program	0000	1

*Housing Codes for 1988-89 (Enter only one code for each college.): 1 = With parents 2 = Campus housing 3 = Off-campus housing

93. Fee: Check the box that tells how many colleges and programs are listed in 92.

1 ☐ $7.50 3 ☐ $18.50 5 ☐ $29.50 7 ☐ $40.50
2 ☑ $13.00 4 ☐ $24.00 6 ☐ $35.00 8 ☐ $46.00

Mail this form with a check or money order for the right amount made out to the College Scholarship Service. This form will be returned to you if no fee is enclosed.

94. Do you give CSS permission to send information from this form to the U.S. Department of Education? (Check "Yes" if you want to be considered for a Pell Grant and other federal student financial aid.) Yes ☑ 1 No ☐ 2

95. Do you give the U.S. Department of Education permission to send family and financial information from this form to:

a. the financial aid agency in your state? Yes ☑ 1 No ☐ 2

b. the first college (or its representative) in 92? Yes ☑ 1 No ☐ 2

Note: Checking "Yes" to 95a and 95b will not meet the requirements of most states and colleges for applying for financial aid. See instructions.

Section P—Explanations/Special Circumstances

Use this space to explain any unusual expenses, educational and other debts, or special circumstances. If more space is needed, attach additional sheets of paper.

Section Q—State Questions

1.4

Certification: All of the information on this form is true and complete to the best of my knowledge. If asked by an authorized official, I agree to give proof of the information that I have given on this form. I realize that this proof may include a copy of my U.S., state, or local income tax returns. I also realize that if I don't give proof when asked, the student may not get aid.

Don't complete, sign, or date before January 1, 1988.

Student's signature: Andrea M. Daley — Student's spouse's signature: 2

Parent's signature: Charles Daley — Parent's signature: Cynthia M. Daley

When you are done, make a copy of this form for your records.

Date this form was completed: Month 01 Day 05 Year 1 ☑ 1988 2 ☐ 1989
Write in the month and day. Check the year completed.

7. Pulling it all together

Most of this book has been about how you interact with other people and agencies and institutions in the process of planning to pay for college. (That's partly because most of this book has been about getting other people's help for meeting college costs!) You have read about *guidelines*—for estimating costs, for demonstrating need, for determining eligibility. You've learned about *questions* you'll be asked—questions about your income and your assets, your hopes, and your needs. You've heard about *decisions*—how colleges, the federal government, state student assistance agencies, and private scholarship programs make them.

In the end it comes down to the student and his or her family. There are a lot of people who will help you to pull together a personal financing strategy, get financial aid, or offer you advice. But advice is cheap—college isn't. At some point in the process (the earlier the better), you need to develop your own guidelines, ask yourself some questions, and make some personal decisions.

Understanding financial aid awards

Elsewhere in this chapter you'll see a sample financial aid award letter. In mid-spring of your senior year of high school, you will begin to receive notices from financial aid administrators at the colleges to which you applied. Most selective institutions tell you about their admissions and aid decisions at the same time, often around April 15. Other institutions may have a "rolling" admissions schedule—that is, they make admissions decisions as soon as applications are complete—and use either a rolling or a fixed schedule for telling admitted students about their financial aid awards.

Because of uncertainties about federal student aid funding in the last couple of years, many colleges have been forced to issue tentative or preliminary award notices in the spring, which are subsequently confirmed in the summer when more information becomes available. In such a circumstance, a college will try to meet its original commitment to a student, but if federal funds are reduced, the college may have to adjust the original award offer. The colleges find this process just as frustrating as do families, but in a time of uncertainty, it may simply be unavoidable.

Comparing award offers

If you are considering more than one college, you may want to compare the financial aid awards offered by the colleges. Resist the temptation to look only at the bottom line! College A may offer you $1,500 and College B may offer you $3,000. You need to look at what College A and College B cost before you can determine which award comes closer to meeting your need. The smaller award from College A may be all the extra help you need to attend, while the award from College B may not be enough to bridge the gap.

Here are some points to consider in comparing financial aid awards:

- What is the budget that the college used in determining your award offer? Does it coincide with your estimated budget for that college?
- What is the amount determined by the college that you and your family can be expected to pay toward college costs?
- How much of your need is met at each college—costs minus family contribution?
- What portion of each financial aid package is made up of gift aid (scholarships and grants) and what portion consists of self-help aid (loan and work)?

- Which college would you most like to attend from an educational standpoint? From a financial standpoint, is this college also your best choice? If not, is the aid offered sufficient to permit you to attend?

Accepting a financial aid award

After you have received award letters from the colleges to which you applied and have compared the offers, accept the award at the college you choose by signing the award letter. Complete and return any additional forms that were sent with the award letter. Also notify the other colleges that you are declining their aid offers, so that the funds can be distributed to other students.

If you have any questions about your award, contact the financial aid office at the college. Sometimes revisons in the composition of your award package are possible. For example, you may be able to shift a loan to a work opportunity. You are usually not required to accept the entire financial aid package as offered. If you decide not to accept a part of your aid offer, it may not be possible for the financial aid office to restore that aid later, should you change your mind.

Particularly in a time of declining resources, you should understand that if you need financial aid to meet college costs, you will almost certainly have to accept some of that aid in the form of self-help aid—that is, loans and/or jobs—during the course of your education. Many colleges gradually increase the self-help portion of a student's financial aid package over the four years he or she is enrolled, so you cannot necessarily expect the same package every year, even if your need is the same. For instance, some colleges try to minimize the College Work-Study awards offered to freshmen so that they can devote more time to studying and adjusting to college life, but colleges that do this may replace some of the grant aid in the freshman packages with jobs in subsequent years.

Appealing your award package

If you believe that your financial aid package is insufficient to meet your needs, you may want to contact the financial aid office at the college. Inquire about how your expense budget was put together and how your family contribution and financial need were determined. If there are special circumstances that you think have been overlooked, bring these to the aid administrator's attention. It may be that the aid administrator can take your particular situation into account and adjust your award offer.

After visiting with the aid administrator, if you still feel that you have unmet needs or that you have been treated unfairly, you may want to consider appealing your award. Some colleges have a formal administrative procedure with a review board to hear your appeal. Others have a much less formal process: usually the award decision is reviewed by the aid administrator's superior to see that institutional policies have been followed. Contact the financial aid office to find out what the appeal procedures are, and follow them.

Understand, though, that a college's inability to meet your full need probably reflects nothing more than insufficient funds. There has never been enough aid to fully meet the needs of all the students who could use some extra help, and when this book was written, resources were shrinking, not expanding. You have a right to a full explanation of a college's policies and practices with regard to determining need, eligibility, and priorities for distribution of funds, and a college will probably be happy to provide you this information. The answers to your questions will not necessarily provide the answers to your financial problems. (You may want to review Chapter 4 for some ideas on getting the most mileage out of your own resources.)

Private scholarships and your aid award package

Thousands of organizations other than colleges and universities and state and federal governments provide scholarships to thousands of students every year. The way that these outside awards "fit" into a financial aid package can sometimes cause confusion—or even bad feelings—among recipients *and* donors. Often students receive outside scholarships *after* they have already received notification about colleges' financial aid awards. If a student's package was designed to meet fully demonstrated financial need, as discussed earlier in this book, then the college *must* make adjustments in the original award to comply with federal regulations that prohibit recipients of federal aid from getting *more* money than they need. Even if their original awards from colleges did not fully meet their demonstrated need, outside scholarship winners sometimes find that their packages are nonetheless reduced; this might occur because the colleges have a policy of reducing packages to maximize limited resources.

In 1984, the New England Regional Office of the College Board asked an advisory committee of college financial aid administrators, high school guidance counselors, and foundation personnel to look at some of the problems that were occurring in that particular

Sample financial aid award statement

NEW YORK UNIVERSITY
OFFICE OF FINANCIAL AID

Financial Aid Award Statement

ACADEMIC YEAR: 1987-88

NAME AND ADDRESS:
JOHN Q. STUDENT
21 CORNWALL LANE
CENTERVILLE, NY 11720

SCHOOL: WSUC
STUDENT TYPE: FRESHMAN
SOCIAL SECURITY NO. (I.D. NO.): 123-45-6789
AWARD DATE: 03/24/87
REPLY DATE: 05/01/87

WE ARE PLEASED TO INFORM YOU ABOUT THE FOLLOWING FINANCIAL AID AWARDS:

AWARDS	ACCOUNT NO.	$ AMOUNTS FALL	SPRING	
WSUC SCHOLARSHIP	2-199-591-544	2300	2300	4600
PERKINS LOAN (NDSL)				1500
RECOMMENDED ACADEMIC YEAR EARN				1500
SUGGESTED GSL				2100
TOTAL		2300	2300	9700

YOU MUST SIGN THE REPLY SHEET AND RETURN IT TO THIS OFFICE
AWARDS MARKED WITH "*" REQUIRE A SEPARATE APPLICATION

PLEASE RETURN ITEMS NOTED ON THE ENCLOSED REMINDER SHEET

WHEN NEED WAS A FACTOR IN OUR DECISION, WE USED THE FOLLOWING ANALYSIS OF YOUR RESOURCES:

FAMILY RESOURCES		EXTERNAL FINANCIAL AID	
PARENTAL CONTRIBUTION	$1700	*ESTIMATED PELL GRANT (BEOG)	$ 743
STUDENT/SPOUSE EARNINGS	0	*ESTIMATED NY STATE T.A.P.	2850
STUDENT ASSET CONTRIBUTION	0	REGENTS COLLEGE SCHOLARSHIP	250
STUDENT BENEFITS	0	OTHER OUTSIDE AID	0
EXPECTED SUMMER SAVINGS	900		
TOTAL FAMILY CONTRIBUTION	$2600	TOTAL EXTERNAL AID	$ 3843

YOUR BUDGET WAS DEVELOPED FROM THE FOLLOWING ASSUMPTIONS:

RESIDENCY	:	DORMITORY
DEPENDENCY	:	DEPENDENT
MARITAL STATUS	:	SINGLE
ENROLLMENT	:	FALL - 12 PTS
	:	SPRG - 12 PTS
GRADUATION DATE	:	06/91

SUMMARY OF FINANCIAL NEED & AWARDS

TOTAL ESTIMATED BUDGET	$16165
LESS: FAMILY CONTRIBUTION	-2600
LESS: EXTERNAL AID	-3843
EQUALS FINANCIAL NEED	$ 9722
TOTAL FINANCIAL AID	$ 9700

DIRECTOR OF FINANCIAL AID: OLLIE S. BRYANT | DATE: 03/24/87

READ THE ENCLOSED FINANCIAL AID BROCHURE CLOSELY

To accept all or any part of this financial aid award, complete the attached yellow reply sheet and return it to this office by the reply date listed above. Retain this copy for your own records. This statement supersedes any previous statement issued by New York University.

FORM NO. FA05 (7/86)

STUDENT COPY

region of the country. The advisory committee discovered wide differences in colleges' policies regarding financial aid packaging, the percentage of demonstrated financial need met, and how outside awards were treated—a diversity repeated across the country. The committee helped create a pamphlet addressed to high school students who were applying for or had received outside scholarship assistance. Here is some of the good advice included in that pamphlet:

> Organizations other than colleges, universities, and state and federal governments routinely award scholarships to worthy students to help them pay college expenses. These "outside" scholarships come from various sources including business and industry, church and civic organizations, unions, local scholarship boards, or school-related groups. Such scholarships vary in value anywhere from one hundred to several thousand dollars and are often renewable. Students fortunate enough to be awarded both an outside scholarship and financial aid from a university, college, or government source may encounter reductions of or revisions to their institutional aid because of the outside scholarships. And, if federal funds are involved, federal regulations forbid over-awards, thereby requiring institutional adjustments in cases where a student's full need has been met by an institution before knowledge of an outside scholarship. A review of the institution's policy in advance can prevent disappointment or surprise about the nature of the reduction.
>
> **Q.** *If I receive financial aid from the college I'm planning to attend, and then I am awarded a scholarship from a civic group or business organization, how do I know if the college will change its financial aid award?*
> **A.** The only way to be sure if your financial aid award will be adjusted is to check the policy of the institution you plan to attend. The financial aid officer at the college or university is your best source of information. A quick review of the institution's financial aid materials might also provide the answers. Remember, policies differ greatly from one institution to another. What may be true for your classmate's college may not be true for yours.
> **Q.** *Is it true that my institutional financial aid can be reduced by as much as the full amount of any outside scholarship I receive? That seems really unfair.*
> **A.** The answer depends primarily on whether or not your institution has already met your financial need (as measured by the institution). The answer: probably yes if your need has been met; probably no if your need has not been met.
>
> **Q.** *What if I decide to avoid all this and don't report an outside scholarship to my college?*
> **A.** That's a bad idea. Institutional policies and state and federal regulations require that, if you are a candidate for financial aid, you must report your outside scholarships to the financial aid office of the institution you're planning to attend. Remember, the information you and your parents provide about your financial situation and your outside scholarships must be complete and accurate. If it is not, you risk losing your entire financial aid package.

So what happens if a student's need has already been fully met and he or she receives an outside scholarship? The advisory committee noted that different colleges have different ways of handling the situation. Some reduce the gift aid (grants or scholarships) in the institutional offer by the same amount as the outside award. Others reduce the self-help (work and/or loan) portion of the package, while still others adjust both the gift and the self-help portions. If a student's need has *not* been fully met, however, the committee noted that many colleges would apply the amount of the outside award against the student's remaining unmet need, and not reduce the aid packages until the student's need was fully met.

The advisory committee noted that students were still better off receiving outside scholarships even if their institutional awards were reduced, simply because "only a small number of New England institutions will reduce your institutional gift aid by the full value of your outside scholarship," a situation that holds true in most areas of the country. Investigating institutional policies in advance is certainly advisable, as the committee recommended, and high school counselors and college financial aid administrators continue to be good sources of information and advice on this subject.

Responsible borrowing

As costs rise and financial aid resources get tighter, fewer and fewer students will be able to escape the necessity of borrowing some amount of money to complete their education.

Whether you borrow from a government-subsidized loan program or a commercial lending institution, you should take the time to educate yourself about loans before you actually have to apply. The worst possible time

to start learning about loans is when you're in the midst of looking for one!

Learn the language

First, know your terms. The amount of money you borrow is called the *principal*. When you pay back a loan, you pay both the principal and the *interest*—the service charge you pay for borrowing someone else's money. Interest is expressed in terms of a percentage.

When you're investigating different loans, look for the simple *interest rate* on your loan. The lender is required by law to tell you this rate. In the past, some lenders have been unclear by talking in terms of *compounded monthly interest*. A 1½ percent monthly compounded interest may sound like a better deal than a 10 percent annual interest, but spread out over one year, that 1½ percent compounded monthly amounts to nearly 18 percent.

A *cosigner* or *cosignatory* is a person who signs for your loan with you. Many lenders, particularly banks, may require your parents to sign for a loan even if you are the person who is doing the borrowing. If you *default*—fail to repay your loan—the cosigner is legally responsible for the debt. A *promissory note* is another name for a legal agreement or contract you sign when you're borrowing money.

The *loan officer* is the person you'll be dealing with at the bank or other lending institution. You will be required to provide information about yourself on a *loan application* of some sort; the information you report will be checked out before a loan is made to you. You should be aware of the penalties for providing inaccurate or misleading information on a loan application before you sign it.

A *lending institution* can be a bank, a savings and loan association, a credit union, a finance company, or colleges and universities themselves. The rules and conditions for loans offered by these various types of lending institutions will vary considerably. *Subsidized loans*—such as Perkins Loans, Guaranteed Student Loans, and some loans from private philanthropic organizations—are loans backed by a guarantor; they usually have a lower interest rate or other more favorable features than *unsubsidized* or *commercial loans*. A *guarantor* is an agency or organization that agrees to pay the loan if a student defaults; state agencies, authorized organizations (such as United Student Aid Funds), and the federal government are the most typical guarantors.

Evaluate how much you need

Make a realistic but conservative estimate of how much you really *need* to borrow. Remember, you don't have to borrow the maximum amount available. Have you exhausted other alternatives for meeting your expenses? Could you cut your expenses a little, or perhaps work a bit more and borrow a bit less?

Borrowing *more* than you really need just because the yearly or aggregate maximums are higher than your immediate need can be risky. It could impede your eventual ability to repay your loans, or at least reduce your borrowing capacity in the future at a point when you genuinely need more money.

There are also risks associated with borrowing *less* than you really need and subsequently having to drop out of school. Many people fear indebtedness, and a healthy respect for it is certainly wise. Students should be aware that they will have to repay their loans whether they graduate or drop out, and thus should be cautious about getting in over their heads. At the same time, they should also recognize that they may be in a better position to repay loans and assume other financial obligations if they have secured a degree.

Estimate how much you can repay

Every borrower, but especially a student borrower, should know the answers to the following questions. You should think hard about them every time you consider taking on any more debt.

- How much have I borrowed already?
- From how many different programs have I borrowed?
- How much more in total will I have to borrow to complete my undergraduate education?
- Do I expect to attend graduate or professional school, and if so, how much more will I have to borrow?
- How much will I have to *repay every month* after leaving school before I have paid off the debt?
- How much can I reasonably expect to *earn every month* after leaving school before I have paid off the debt?
- How much can I reasonably expect to *earn every month* in the kind of job I am likely to get following graduation?

Banks and college financial aid offices can tell you about the probable monthly payment you'll be facing at various levels of debt. Your estimate of your starting

salary in your intended field should influence the total amount of debt to which you commit yourself.

Understand what you're doing

Make sure you know what you're doing before you sign on the dotted line. Sometimes students borrow without even realizing that they're doing it; they fail to read award letters carefully and aren't paying attention when they sign a promissory note. Some students also have borrowed from more than one program on the mistaken assumption that their loan will automatically be consolidated in a single obligation later on; that's not the case, although sometimes it may be possible.

Whether you are considering a subsidized government loan or a commercial loan, you should know the answers to all of these questions before you commit yourself:

- What is the simple interest rate?
- When will you have to begin repayment?
- How large will the monthly payments be, and how long will you be paying back the loan?
- Are there any extra charges involved in borrowing the money? (For instance, you may have to pay an origination fee, service fee, or insurance charges up front.)
- Are there any restrictions?
- Can the lender terminate the loan, and under what conditions?
- Do you have to be notified before cancellation?
- Can you terminate the loan before the contract is up? How much notice must you give the lender? Are there any prepayment penalties, such as additional costs for paying the loan off early?
- Does the loan agreement contain a "balloon clause" —one payment, usually larger than the rest, that is tacked onto the end of the contract? (Sometimes borrowers can't afford to pay this larger sum when the time comes and must get their loans refinanced.)
- Does the contract include a clause allowing wage assignments or garnisheeing? Such a clause allows the lender to ask your employer to take out a specified sum from your monthly earnings and send it to the lender if you default on your loan for any reason, and without any legal procedure. Most banks have eliminated such clauses from their loan contracts, and you should avoid any contract with such a clause.

Before you sign any contract or promissory note, make sure you understand what it is all about. If something is unclear, don't be embarrassed to ask for an explanation. You have a right to seek outside counsel and advice before entering into any binding legal agreement.

Your rights and responsibilities

Education or training after high school requires an investment of time, money, and energy. Some people think of students as consumers, and feel that students, like other consumers, have both rights and responsibilities. The federal government has outlined a series of rights and responsibilities that you may want to keep in mind as you develop a personal financial plan and pursue financial aid opportunities.

Student rights

You have a right to receive the following information from a college:

- what financial aid is available, including information about federal, state, and institutional programs
- what the deadlines are for applying for each kind of aid
- what the cost of attendance is, and what the refund policies are if you withdraw
- what criteria the college uses to select aid recipients
- how the college determines your financial need, including how student expenses are figured in your budget
- what resources, such as parents' contribution, other financial aid and benefits, assets, etc., are considered in determining your need
- how much of your financial aid has been met
- what aid resources make up your financial package
- what part of the aid received must be repaid and what part is grant aid
- if you receive a student loan, what the interest rate is, what the total amount is that must be repaid, what the procedures are for paying back the loan, how long you have to repay, and when repayment is to begin
- what the procedures are for appealing a financial aid decision if you feel you have been treated unfairly
- how the college determines whether or not you are making satisfactory academic progress, and what happens if you are not.

Student responsibilities

You have a responsibility to:

- review and consider all information about a college's program before you enroll
- pay special attention to your application for student

financial aid, including completing it accurately and submitting it on time to the right place. (Errors can delay your getting aid, and intentional misreporting of information is a violation of law subject to penalties under the United States Criminal Code.)

- return all additional documentation, verification, corrections, and/or new information requested either by the financial aid administrator or the agency to which you submitted your application, read and understand all forms that you are asked to sign and keep copies of them, accept responsibility for all agreements signed by you
- if you receive a loan, notify the lender of any change in your name, address, or school status
- if you are assigned student employment, perform in a satisfactory manner the work that is agreed upon in accepting the aid
- know and comply with the deadlines for applying and for reapplying for aid
- know and comply with your college's refund policies and procedures.

Financial aid checklist

☐ **Develop a list of colleges that interest you** and that seem to match your educational and career goals. You may want to use a comprehensive guide, such as *The College Handbook* or *Index of Majors*, to help you do this.

☐ **Write to the admissions office** at each college on your list for an admissions application form. Remember also to inquire about financial aid opportunities and application procedures. It is best to do this early in the fall of your senior year of high school.

☐ **Make certain you know what need analysis form to file.** Two of the most commonly used forms are the Financial Aid Form (FAF) of the College Scholarship Service and the Family Financial Statement (FFS) of the American College Testing Program. You can get one of these forms from your high school guidance office or a college financial aid office. The documents are generally first available in November, but they should not be filed until after January 1.

☐ **Mail your completed need analysis form as soon after January 1 as possible.** The form should be sent for processing at least four weeks before the earliest financial aid deadline set by the colleges or state scholarship or grant program to which you are applying (but no earlier than January 1). Carefully follow the instructions for filling out the form. Make sure your answers are complete and correct.

☐ **Apply for federal student financial aid.** You can use the FAF or FFS to apply for federal assistance programs simply by checking the appropriate box on the form. There is no extra fee for this service.

☐ **Apply for a state scholarship or grant.** In many states your need analysis form can also be used to apply for state aid. Your guidance counselor should know whether you can apply in this way or whether you must fill out additional application forms. Find this out well in advance and make certain you file the appropriate forms by the deadlines.

☐ **Supply additional information promptly.** If you or your parents receive requests for additional information about your need analysis form, respond promptly so that there will be no further delay in processing your request for aid.

☐ **Review the acknowledgment you get back.** After submitting your need analysis form, you will receive an acknowledgment listing the colleges and programs you indicated should receive information from your need analysis form. Make certain that all entries on the acknowledgment are correct.

☐ **Review your award letters carefully.** The director of financial aid at each college and scholarship program is responsible for determining a student's need, knowing which funds a student is eligible for, and making a decision about who will receive financial aid and how much. Once that decision is made, you will receive an award letter describing the contents of your financial aid package and outlining any conditions attached to the award.

☐ **Check to see if other financial aid application forms are required** by the colleges to which you are applying and find out the deadline dates for each. Complete these forms as early as possible.

☐ **Check with your guidance counselor, high school library, and public library** for books and pamphlets about other aid sources. Follow the directions for applying. You may qualify for a private scholarship, grant, or loan program because of your:

- academic achievement
- religious affiliation
- ethnic or racial heritage
- community activities
- hobbies or special interests

- organizational memberships
- artistic talents, athletic abilities, or other special skills
- career plans or proposed field of study

☐ **Find out if your parents' employers, professional associations, or labor unions** sponsor any aid programs.

☐ **Investigate community organizations and civic, cultural, and fraternal groups** to see if they sponsor scholarship programs at the local, state, or national level. Also check with local religious organizations, veterans' posts, businesses, and industries.

☐ **If you or either of your parents is a military veteran,** you may be eligible for special assistance. Contact the nearest office of the Veterans Administration for information.

☐ **Contact the Social Security Administration** to find out if you are eligible for education benefits from the Social Security Administration if either parent is deceased, disabled, or retired.

☐ **Ask about benefits from vocational rehabilitation or other social service agencies** if you think you qualify for assistance.

☐ **Pay close attention to award notices from state and federal student financial aid programs.** Forward a copy of your federal Student Aid Report to the colleges to which you are applying so that they can take this information into consideration in putting together a financial aid package for you.

☐ **Learn how the payments from each aid source will be made.** Generally, payment of financial aid awards is made at the time you actually enroll. Also find out if there are additional procedures you should tend to or forms you must fill out in order to receive aid.

☐ **Explore alternatives.** If the college of your choice cannot provide you with enough aid to meet your full financial need, or your family cannot contribute what is expected of it, you may want to consider borrowing. If so, educate yourself about loans. Learn about interest rates, repayment schedules, and other terms and conditions related to loans *before* you apply. Government-sponsored loans, such as the Guaranteed Student Loan Program, usually have the lowest interest rates and most flexible repayment arrangements. If you do apply for a Guaranteed Student Loan, give yourself enough time to have the loan papers processed—usually at least six weeks.

Some colleges offer tuition and/or fee waivers to certain categories of students, such as adults, children of alumni, or family members enrolled simultaneously. If you qualify, you may want to take advantage of this type of discount. (See Part II of this book for lists of colleges that offer tuition and/or fee waivers.) Colleges that offer special tuition payment plans—installment, deferred, or credit card—or tuition discounts for prepayment also are listed in Part II of this book.

☐ **Make a decision about which college to attend on the basis of your education and career goals.** Remember to notify the college whose offer you are accepting and to communicate your decision to other colleges so that the financial aid they reserved for you can be freed for other applicants.

8. Long range planning: A special message to parents

If your child will not be enrolling in college for several years, or if you have one enrolling now but others coming up, you have more time to plan. This chapter is written especially for you.

If you have not already done so, turn now to the tables in the next chapter showing average costs, or look up the average expenses for a few colleges with which you are familiar. And then think about this question:

> *When it is time to enroll in college, will you have enough ready cash to cover these expenses, in a single lump-sum payment, at the start of the semester?*

Most people don't. Even what is generally regarded as the *least* expensive of the various educational options—living at home and commuting to a nearby community college—requires upwards of $3,800 a year. The budget for students living on campus now averages more than $5,700 per year at an in-state public college or university and $11,900 at a private one. And no one is sure how much higher the costs are going to go.

If your family saves little or no money before enrollment, it will be almost impossible to change your household budget fast enough or radically enough to pay for all your college expenses out of current income alone. People with low or fixed incomes don't have the extra money to spend. Even people with high incomes can't afford to divert large chunks of current income to make big payments once or twice a year. However, if you do the best you can for yourself, you may be able to get enough outside help to cover the difference between what you can afford and what college costs.

The purpose of planning

Remember that the purpose of financial planning to meet educational costs is twofold:

- to get as much mileage as you can out of your own resources, and
- to secure the additional outside help—the "financial aid"—you may need in order to make up the difference between what you can afford and what it costs to attend the college of your choice.

The two objectives are inseparable. The entire financing system for American postsecondary education is based on the assumption that you and your family have the *primary* responsibility for meeting college costs, to the extent of your ability.

You may wonder, Why should we use *our* resources at all if financial aid is available? Why not "plan" to have financial aid pay for it all?

The answer is that the bulk of financial aid awarded in the United States is, and always has been, based on "demonstrated need"; that is, it comes into play only after a family has done as much as it can reasonably be expected to do for itself, according to formulas that are applied to all aid applicants. Also, every dollar that you save in advance is probably one less that your child will have to borrow.

Some students come from families that have few or no resources to contribute toward college expenses. Others come from families that can easily foot the bill for even the most expensive educational options. But most students come from families that fall somewhere between the two extremes.

The Smiths and the Joneses

Imagine two families whose overall income pictures have been very similar over time and whose children are approximately the same age. The Smiths have been setting aside money on a regular basis for future educational expenses, while the Joneses have tended to spend almost all their disposable income as they've earned it.

The Smiths

Two parents, one working outside the home, older parent aged 45. Two children, one in junior high school, the other starting college in fall 1987. No unusual expenses; standard U.S. income tax deductions and exemptions.

The Smiths have $20,000 in equity in their cooperative apartment. They also have accumulated $20,000 in savings toward their two children's education. Their older child graduated from high school in June 1987 and plans to enroll in college in September 1987.

1986 income before taxes	$35,000
Total assets	40,000
Expected from parents*	3,122
First-year costs	$ 6,500
− Expected from parents	3,122
= Demonstrated need	$ 3,378
First-year costs	$ 6,500
− Aid based on need	3,378
− Cash on hand	3,122
= Shortfall	$ 0

The Joneses

Two parents, one working outside the home, older parent aged 45. Two children, one in junior high school, the other starting college in fall 1987. No unusual expenses; standard U.S. income tax deductions and exemptions.

The Joneses rent their apartment and thus have no home equity, nor do they have savings beyond a few hundred dollars in their checking account. Their older child graduated from high school in June 1987 and plans to enroll in college in September 1987.

1986 income before taxes	$35,000
Total assets	0
Expected from parents*	2,807
First-year costs	$ 6,500
− Expected from parents	2,807
= Demonstrated need	$ 3,693
First-year costs	$ 6,500
− Aid based on need	3,693
− Cash on hand	0
= Shortfall	$ 2,807

*Parental expectations are based on the Uniform Methodology formulas for the 1987-88 academic year.

It's obvious enough that when the time comes for their respective children to enroll in college, the Smiths will have more money on hand than the Joneses to put toward college costs. But won't the Jones family simply qualify for more financial aid?

Probably yes—but *it may not help them*. Here's why.

Assets, such as savings, *are* considered in the formulas for estimating what constitutes a family's fair share. A family with assets is assumed to be in a stronger financial position than a family without them.

Because the Smiths have more money in the bank, they have a greater ability to pay *now* than do the Joneses—an ability sometimes called liquidity. But their greater liquidity doesn't necessarily mean there's a big difference *over time* in the relative ability of the Smiths and the Joneses to pay for education. The formulas try to account for both kinds of ability to pay, and use several factors as measures of capacity over time, including current income.

When their children are ready to enroll, a little more will be expected of the Smiths than the Jones, because they have saved, but as the figure illustrates, the similarity in their incomes would largely offset the difference in their assets. There would not be a large difference in what the financial aid system expects of the two families.

The difference is that the Smiths will *have* it—and the Joneses won't.

If the Joneses don't have on hand what the formulas assume they do, they may not have enough to cover their expenses, even *with* the aid. If they haven't *saved* what the system expects from them as a fair share, they will have to *borrow* it. If their capacity to borrow is already overextended, then they may have to choose a college solely on the basis of cost, rather than for educational reasons. In either case, their child will probably have to work more hours and/or borrow more money than would otherwise have been necessary.

The Smiths, on the other hand, will be in a much better position. As the example shows, they may even qualify for some aid, if their fair share falls short of the costs at the colleges they're considering. Because of

the family's effort to save over time, their child will probably not have to work as many hours in part-time jobs or borrow as much under student loan programs. Above all, the Smiths will be able to make choices about college based primarily on long-term personal and educational goals, *not* on immediate financial limits.

How to plan

The *basics* are the same for long-range planning as for short-range planning, and have been described earlier in this book: educating yourself about college costs, estimating what you will be expected to pay toward those costs, developing a timetable, choosing strategies to get the most mileage out of your family resources, and finding out about financial aid programs.

The details of your plan to meet college costs will necessarily be very different from a family whose child will enroll within the next few months. If your children are still quite young, time is on your side—a big advantage. On the other hand, you also have the disadvantage of uncertainty about what circumstances will influence both college costs and your ability to pay between now and enrollment. However, you still can—and should—plan.

Setting realistic goals

Setting realistic goals is the first step. A goal is not a wish but a statement of purpose, a description of an objective to be achieved. It should be as concrete and specific as possible.

Reviewing Chapters 1 and 2 will help you:

- learn what college costs today, and
- estimate what share of those costs *you* would be expected to pay if your child were enrolling in the near future.

Once you have done so, you will have to make some *additional* assumptions about what college costs and family expectations will look like when it's time for your children to enroll.

No one is really sure what college will cost in 5 or 10 or 15 years, and the further into the future you look, the murkier becomes the crystal ball. In the short run, at least, the prices charged by institutions for tuition, room, and board are *not* likely to go down, because operating costs continue to rise. Although colleges and universities are working harder than ever to achieve economies in their operating budgets, higher education continues to be very labor-intensive. That means that one of their largest continuing expenses is salaries and benefits for employees—faculty members, administrators, librarians, cafeteria and maintenance workers, health service and security personnel, etc.

Does that mean that the costs charged to students and parents will continue to rise at the same rate as they have in recent years? For the last several years, overall increases have averaged 6 to 7 percent, a somewhat slower rate of increase than the double-digit annual increases that characterized the early 1980s.

A family whose children will start college in the fall of 1988, or even 1989, will probably not be too far off in their estimates of total expense if they add 6 or 7 percent per year to the 1987-88 averages in Chapter 9. Beyond that, you will have to keep track of annual increases and revise your own projections.

Nor is anyone certain that the formulas for assessing a family's ability to contribute will remain stable over time. However, the basic *principles* embodied in the current methodology have been in place for over 30 years. The same kinds of factors will probably continue to be considered in evaluating a family's financial strength as are discussed in this chapter, although they may be treated or weighted differently. Expectations probably will not be *reduced* in the foreseeable future. On the contrary, more is likely to be expected of families.

If you are trying to make some ballpark estimate of what will be expected of you when the time comes, you might want to complete the worksheets in Chapter 9, estimating what you think your income, assets, etc. will be at the time of enrollment. Subtract that estimate from your estimate of future college costs. Alternately, use current figures for estimating both total costs and family share, and inflate the resulting goal statement by your assumption of annual inflation between now and the point of enrollment.

Update your assumptions and goals annually. Revise your estimates of probable future expenses by incorporating new data about actual college costs and periodic changes in the formulas for assessing family ability to contribute. Keep your eye on changes in other leading economic indicators, too.

Developing a timetable

Developing a realistic timetable is closely related to goal-setting. The amount of time—in months or years—that's left before your children *start* college is an

important factor. It represents the period in which you can *save* money and *look* for extra outside help. However, your plans could also include assumptions about the periods of time *during and after* college in which you may *spend* money to repay loans. Developing a timetable also lets you translate big goals into more manageable terms. To save $1,200 in one year you have to put aside $100 a month or $25 a week or $3.50 a day—actually a little less, assuming your money earns some interest.

Review Chapter 3 to prove to yourself that time really *is* on your side. It demonstrates that the longer the time period over which you finance any purchase, the smaller its impact will be on your monthly budget. For most families, the hardest possible way to finance their fair share of college costs—whether that share is 5 percent or 100 percent—is by cramming it into their household budget during the four-year period of enrollment. Don't assume, however, that you can, or should, defer saving with the intention of relying on loans when your children are ready to enroll.

Under some economic conditions, borrowing is certainly a feasible and even sensible way of making major purchases, but planning to borrow may not be your wisest strategy. The farther into the future you look, the harder it is to be sure about credit availability, your borrowing capacity, the state of the economy, etc.

If you are fortunate enough to have many years before your children enter college and considerable discretionary income, consult your financial adviser for recommendations about various savings and investment strategies to achieve your goals for meeting college costs. A lot is going to be expected of you. Even if you don't have much to spare, plan to save as much as you can in advance. Regular, systematic savings—even of small amounts—add up, and compounding of interest multiplies your money powerfully.

Strategies for paying your fair share

Deciding how to pay your fair share is the next step, once you've established goals and timetables. Review Chapter 4 for descriptions of many of the options that are available today. Some are used far in advance of enrollment to save money, while others are designed to make the burden more manageable at the time of enrollment. To keep education affordable, many colleges and universities have instituted new financing programs in the last several years.

Not every choice is appropriate for—or even available to—every student and family. But the earlier you start, the more choices you'll have, and the more time to investigate the potential benefits and risks.

The dilemma, of course, is that other concerns and expenses may push college savings to the back burner. In particular, you may not feel as though there's much to be saved at the end of the month, once the basic bills have been paid.

Financial planning to meet college costs *isn't* just for wealthy people. It's true that particular financial accounts or products may be appropriate for (or even available only to) families at higher income levels. But financial planning itself isn't a product. It's a *process*, a way of thinking about how to organize whatever resources you do have—including your own time and energy—to meet college costs. In fact, the fewer financial resources you have, the more you need to plan the most effective way of using those you do.

- If you can afford to invest several hundred dollars a month to cover future college costs, *do it*. You'll need every penny of the principal *and* interest when the time comes.
- If you can carve $50 or $75 a month out of your household budget to save toward future college costs, *do it*. You may not be able to finance the whole amount that way, but you'll be able to manage a good piece of it. If you cover your fair share, then financial aid may be available to cover the rest.
- If your best effort is only $2 or $5 a week, *do it*. Even a few dollars a week in the jar beside the kitchen sink is important, not just in a financial sense, but as a statement of faith in the future. The important thing is to make it *regularly*.

Finding extra outside help

Will financial aid continue to be available to help families cover the gap between their best efforts and the costs of attendance? Probably, although its form may change over time. Federal funding of student assistance programs has not kept pace with rising costs in recent years, but Congress has consistently resisted the current administration's proposals to reduce the level of federal support. Many colleges, states, and private organizations actually have increased their support of student aid programs.

There is not very much you can do in advance of your child's senior year in high school about finding financial aid, beyond educating yourself about it (and expressing your continuing support of it to your legisla-

tors). The vast majority of federal, state, and institutional programs do not permit you to apply before January 1 of the year in which your child will actually enroll in college.

Private scholarship programs constitute one exception to this general rule. Review the section on private aid sources in Chapter 5. Competition for some of these private awards begins in the junior year of high school, or even earlier. One of the things you *can* do in advance of your child's senior year is check out the terms, conditions, and application procedures of any private aid source for which you think he or she might be eligible.

A closing note

A college education *is* within the reach of every qualified student in the United States. Paying for it is hard—but planning for it makes the paying easier. If you do as much as you can for yourself, chances are you will find the extra outside help—the financial aid—you need to take care of the rest.

The other kind of planning you should do is academic. Watch what courses your children are taking in school, and make sure that they're on a college preparatory "track." This can save time and money in the future—the curricular choices that children make, as early as the seventh grade, can either open doors or close them.

The College Scholarship Service wishes you well in your planning, and looks forward to serving you when the time comes to apply for financial aid.

Questions and answers about planning

Q Isn't educational financial planning complicated?

A A little. Certainly some savings and investment programs can be pretty complicated! The more money you have, the more sophisticated are the options that may be open to you, and the more you may want to get professional advice.

The basic principles are simple. Dr. Karl E. Case, a professor of economics at Wellesley College who has done a lot of thinking about how families can prepare themselves to meet future educational expenses, cites three important ideas:

1. if you pay over more years, your payment is lower
2. if you decide to pay early, you will earn some interest on this investment
3. compound interest can yield surprisingly large gains (8% compounded annually doubles your money in nine years).*

Besides, educational financial planning isn't as complicated as figuring out how to pay for college when you *haven't* done any planning at all.

Q What is a "tuition futures" program? Should I join one for my child?

A At the time this book was written, tuition futures—sometimes also called tuition prepayment or guaranteed tuition plans—were provoking lots of discussion. The idea is that parents make *very* early payments to a college, when their children are still quite young. The college's investment program is intended to produce growth over time that will approximate the tuition anticipated at the time of the children's enrollment. The plans do not guarantee that the children will qualify for admission, nor is there any way of ensuring that the children will want to attend that particular institution when the time comes; if a child does not enroll, his or her parents would get a refund of their original investment (but not necessarily of the interest earned). Only a handful of colleges have actually implemented such programs.

Statewide variations on this idea are under consideration in more than 20 state legislatures, although only Michigan has actually enacted, but not yet implemented, a plan. Under the Michigan plan, parents would be able to "prepay" tuition at any of the state's public universities by investing in a state trust fund many years in advance; students who later choose to attend private or out-of-state colleges could receive an equivalent amount.

Some members of Congress and higher education associations are also exploring the idea of creating some kind of national college savings plan.

Before you enroll in *any* savings or investment plan of this or any other type, make sure that you have all the facts. What will happen if your child is interested in colleges not covered by the plan, or decides not to go at all? How much of your investment and interest can you get back? Do you have to pay income tax on the earnings that accumulate in the plan? Can you make small

*Case, Karl E. "The Office of Family Finance and Planning" (formerly "The Financial Aid Office") in *Educational Financial Planning: A New Concept for the Financial Aid Office*. Columbus, Ga: Southern Association of Student Financial Aid Administrators, 1986, page 34.

multiple payments over time, or are you restricted to one lump-sum payment? What does the plan or product actually cover? How big is the administrative fee? What risks do you assume? How does one compare with another, especially in terms of both risks and benefits?

Q I've done some calculations, and I don't think we're going to be able to save our full share between now and the time of enrollment. Can we count on loans being available?

A Review Chapter 4 for some insight into the kinds of financing options available today. You'll note that most of the loan programs aimed at parents (as distinct from many of the student loan programs) require a credit check. So it's important that you not arrive at the point of enrollment with your borrowing capacity already exhausted.

Also, don't assume that installment payment plans are necessarily going to be available at all colleges; state laws may even prohibit them at some public institutions. (Remember that installment plans and budgeting plans typically carry some additional costs, too.)

9. Tables, sample cases, and worksheets

Tables of college costs and parental contribution

The first table in this chapter provides average college costs for the 1987-88 academic year. They are based on information from all colleges that have provided data for two consecutive years. (See Chapter 1 for a discussion of the charges and expenses that make up a college cost budget.) Average tuition and fees are weighted by total undergraduate enrollment; room and board charges for resident students are weighted by the percentage of undergraduates living in college housing. Additional out-of-state tuition and fees are the mean charges reported by public institutions; they are not weighted by enrollment. (Private colleges rarely have additional nonresident tuition and fees.)

All other figures are average student expenses in each category. Average costs for books and supplies are weighted by total undergraduate enrollment; transportation and other expenses for resident students are weighted by the percentage of undergraduates living in college housing; and board, transportation, and other expenses for commuters are weighted by the percentage of undergraduates who commute.

This table is followed by sample expense budgets based on these average costs for resident students and commuters at different types of colleges.

The table on estimated parents' contribution shows estimates used to determine how much parents would be expected to pay based on income and family size. See Chapter 3 for a discussion of how you can use this in your early financial planning.

Sample cases and worksheets

Meet our three sample students—Andrea, Beth, and Carlos—whose family backgrounds, financial situations, and educational goals have been made up from many of the characteristics of students who are facing the choices of a college education and how to pay for it. Following them through the process of determining financial need and applying for aid may help you develop your own financial plan.

All three begin their planning by estimating on Worksheet 1 their probable expenses at the colleges that interest them. Andrea, Beth, and Carlos come from families with very different financial situations. Before they can tell how much they will be expected to pay toward these educational expenses, they need to evaluate their own circumstances in relation to the costs of attending the particular colleges they're interested in. You will see that Worksheets 2–5 have been completed to help in this process. Worksheet 6 is a record of financial aid they are offered.

After following Andrea, Beth, and Carlos through their planning, you can use the Worksheets 1-6 provided for your personal plan.

Average college costs, 1987-88

Andrea, Beth, and Carlos plan for college costs

Worksheet 1: Estimating student expenses

	Andrea
1. Tuition and fees	$ 687
2. Books and supplies	373
3. Student's room	Not applicable
4. Student's board/meals*	1,244
5. Personal (clothing, laundry, recreation, medical)	843
6. Transportation**	742
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$3,889

*You will want to consider these expenses to your family if you live at home.

**If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a student makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to college.

Andrea Daley, *age 18, graduated from high school in June 1987. She plans to live with her family and attend a nearby community college to pursue an Associate of Arts degree in chemistry. She hopes to transfer to a four-year college of engineering when she completes her AA and hopes eventually to become a chemical engineer.*

Andrea's father, age 47, earns $14,200 a year as an insurance claims representative; her mother, age 45, earns $7,475 a year as a beautician in a local salon. Her younger brother, age 16, is a sophomore in high school and also hopes to attend college some day. The Daleys have $21,500 equity in their home and $1,500 in a savings account, but no other assets. This year they had unusually high medical and dental expenses because Andrea's brother broke his leg in a soccer game and Mrs. Daley had to have root canal therapy. Even though Andrea will live at home with her family and the tuition at the local community college is comparatively low, Andrea and her family worry about how much they can pay toward college.

	Beth
1. Tuition and fees	$1,359
2. Books and supplies	386
3. Student's room	1,372
4. Student's board/meals*	1,373
5. Personal (clothing, laundry, recreation, medical)	919
6. Transportation**	380
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$5,789

*You will want to consider these expenses to your family if you live at home.

**If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a student makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to college.

***Beth Edwards** is 17 and graduated from high school in June 1987. She hopes to attend the state university to study journalism and plans to live on campus.*

Beth's family was saving hard to make her college plans possible. But two years ago, her father, age 43, died in an automobile accident. Her mother, age 42, does not work outside the home but is kept pretty busy caring for Beth's active 6-year-old sister. The family receives social security benefits (which will be reduced when Beth starts college), but has no other income beyond Beth's part-time and summer employment, which brought in $2,500 last year. The Edwards have $25,900 equity in their home and $6,500 in savings (the remains of the life insurance death benefit). Beth and her mother worry about how much they can pay toward college costs.

	Carlos
1. **Tuition and fees**	$7,110
2. Books and supplies	392
3. Student's room	1,691
4. Student's board/meals*	1,692
5. Personal (clothing, laundry, recreation, medical)	721
6. Transportation**	376
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$11,982

*You will want to consider these expenses to your family if you live at home.

**If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a student makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to college.

***Carlos Fernandez** is 18 and graduated from high school in June 1987. He hopes to attend a private college in another state to pursue premedical studies; he plans to live on campus.*

Carlos' father, age 57, earns $30,100 annually as a partner in a dry cleaning business; his mother, age 45, does not work outside the home. Carlos has an older brother already in college and a younger sister who plans to go when she completes high school; his parents also support his maternal grandfather who lives with them. The Fernandez family has quite a few assets: $46,700 equity in their home, $26,500 in their business, and $2,500 in the bank. But living expenses for the five family members are high, and Mr. Fernandez is fast approaching retirement age. Carlos has already secured two small local scholarships to help meet his first-year expenses. The costs of attending a private college in another state will be high, and the Fernandez family worries about how much they can pay toward college costs.

Worksheet 2: Parents' expected contribution	*Andrea*	*Beth*	*Carlos*
1987 income:			
1. Father's yearly wages, salaries, tips, and other compensation	$14,200	$ 0	$30,100
2. Mother's yearly wages, salaries, tips, and other compensation	7,475	0	0
3. All other income of mother and father (dividends, interest, social security, pensions, welfare, child support, etc.)	175	11,500	2,100
B. Total income (Add 1, 2, 3.)	21,850	11,500	32,200
Expenses:			
4. Adjustments to income such as employee business expenses, moving expenses, disability income exclusion (the amount allowed on U.S. income tax return). Do not include IRA/Keogh payments.	225	0	0
5. U.S. income tax parents expect to pay on their 1987 income (not amount withheld from paycheck)	1,430	0	2,720
6. Social Security (FICA) tax (7.15% times each salary to a maximum of $3,132)	1,549	0	2,152
7. State and other taxes (Enter 8% of B.)	1,748	920	2,576
8. Medical and dental expenses not covered by insurance (include insurance premiums) in excess of 5% of B	135	0	300
9. Elementary and secondary school tuition paid for other dependents to a maximum of $3,450 per child.	0	0	0
10. Employment allowance. If 2-parent family and both parents work, allow 35% of lower salary to a maximum of $2,100; if 1-parent family, allow 35% of salary to a maximum of $2,100. No allowance for a 2-parent family in which only 1 parent works.	2,100	0	0
11. Standard maintenance allowance (See Table for 11.)	13,200	10,690	14,110
C. Total allowances against income (Add 4, 5, 6, 7, 8, 9, 10, 11.)	20,387	11,610	21,858
D. Available income (Subtract C from B.)	1,463	–110	10,342
Assets:			
12. Home equity (total estimated value of your home on the current market minus any unpaid balance on your mortgage)	21,500	25,900	46,700
13. Other real estate equity (value minus unpaid balance on mortgage)	0	0	0
14. Business or farm (Figure total value minus indebtedness and then take percentage shown in table.) If your family is only part owner of the farm or business, list only your share of the net value.	0	0	26,500
15. Cash, savings, and checking accounts	1,500	6,500	2,500
16. Other investments (current net value)	0	0	0
E. Total assets (Add 12, 13, 14, 15, 16.)	23,000	32,400	75,700
Deductions:			
F. Asset protection allowance (See Table for F.)	37,600	24,900	51,000
G. Remaining assets (Subtract F from E.)	–14,600	7,500	24,700
H. Income supplement from assets (Multiply G by 12% if G is $0 or more. If G is negative, use conversion percentage from Table for H.)	–730	900	2,964
I. Adjusted available income (Add D and H.)	733	790	13,316
J. Parents' expected contribution (Multiply I by taxation rate amount given in Table for J.)	$ 161	$ 174	3,310
K. Parents' expected contribution if more than one family member is in college (Divide J by number of family members in college at least half time.)	—	—	$ 1,655

Tables used for completion of Worksheet 2

Table for standard maintenance allowance (Item 11)

Family size (including applicant)	*Number of family members in college*				
	1	2	3	4	5
2	$ 8,580	$ 7,120			
3	10,690	9,230	$ 7,760		
4	13,200	11,730	10,270	$ 8,810	
5	15,570	14,110	12,650	11,180	$ 8,690
6	18,220	16,750	15,290	13,820	12,360
Each additional	+2,060	+2,060	+2,060	+2,060	+2,060

Table for business or farm adjustments (Item 14)

Net worth (NW)	*Adjustment rate*
Less than $1	$0
$ 1– 60,000	40% of NW
$ 60,001–185,000	$ 24,000 plus 50% of NW over $ 60,000
$185,001–305,000	$ 86,500 plus 60% of NW over $185,000
$305,001 or more	$158,500 plus 100% of NW over $305,000

Table for parents' expected contribution (Item J)

Adjusted available income (Item I)	*Total parents' contribution*
Less than $–3,409	$–750
$–3,409 to 7,700	22% of AAI
$ 7,701 to 9,900	$1,694 + 25% of AAI over $ 7,700
$9,901 to 11,800	$2,244 + 29% of AAI over $ 9,900
$11,801 to 13,800	$2,795 + 34% of AAI over $11,800
$13,801 to 15,500	$3,475 + 40% of AAI over $13,800
$15,501 or more	$4,155 + 47% of AAI over $15,500

Table for asset protection allowance (Item F)

Age	*Two-parent family*	*One-parent family*
39 or less	$29,100	$22,200
40–44	32,900	24,900
45–49	37,600	28,000
50–54	43,400	31,700
55–59	51,000	36,200
60–64	60,500	41,900
65 or more	67,500	46,000

Table for income supplement from assets when G is negative (When G is $0 or more, use 12%.) (Item H)

If available income (D) is:	*Use:*
$ 1,333 or less	6%
$ 1,334– 4,000	5%
$ 4,001– 6,667	4%
$ 6,668– 9,333	3%
$ 9,334–12,000	2%
$12,001–14,667	1%
$14,668 or more	0%

Worksheet 3: Student's expected contribution	*Andrea* *Some savings*	*Beth* *No assets but part-time employment*	*Carlos* *Savings plus two local scholarships*
L. Student's 1987 income			
17. Student's yearly wages, salaries, tips, and other compensation	$ 0	$ 2,500	$ 1,000
18. Spouse's yearly wages, salaries, tips, and other compensation	0	0	0
19. All other income of student (dividends, interest, untaxed income, and benefits)	0	0	50
M. Total income (Add 17, 18 and 19.)	0	2,500	1,050
Allowances			
20. U.S. income tax student (and spouse) expect to pay on 1987 income (not amount withheld from paychecks)	0	0	0
21. State and other taxes (Enter 4% of M.)	0	100	42
22. Social security (FICA) tax (7.15% times salary of student and spouse to a maximum of $3,132 per person)	0	179	75
N. Total allowances against student's income (Add 20, 21, and 22.)	0	279	117
O. Available income (Subtract N from M.)	0	2,221	933
Resources			
23. Contribution from income (Enter the greater of 70% times *Available income* from line O or $700 for the freshman year— $900 for any other year.)	700	1,555	700
24. Contribution from assets (multiply the total value of savings and other assets—such as stocks and bonds—by 35%.)	500	0	350
25. Other gifts and scholarships already received	0	0	1,000
Q. Total student resources (add 23, 24, 25, and 26)	$ 1,200	$ 1,555	$ 2,050

Worksheet 4: Total family contribution	*Andrea*	*Beth*	*Carlos*
J. Parents' expected contribution (Use figure for K instead of J if there is more than one family member in college.)	$ 161	$ 174	$ 1,655
Q. Student's expected contribution from resources	1,200	1,555	2,050
R. Total family contribution (Add J and Q.)	$ 1,361	$ 1,729	$ 3,705

Worksheet 5: Student need	*Andrea* *Commuting student (living at home) at an in-state, 2-year public institution*	*Beth* *Resident student at an in-state, 4-year public institution*	*Carlos* *Resident student at an independent (private) institution*
S. Total college expense budget	$ 3,889	$ 5,789	$11,982
R. Total family contribution	1,361	1,729	3,705
T. Student need (Subtract R from S)	$ 2,528	$ 4,060	$ 8,277

Worksheet 6: Financial aid awards

	Andrea
A. Total student budget	$3,889
M. Total family contribution	1,361
N. Demonstrated financial need	2,528
1. Pell Grant	950
2. State scholarship	
3. Institutional grant	
4. College Work-Study	600
5. Perkins Loan	400
6. Supplemental Educational Opportunity Grant	578
7. Guaranteed Student Loan	
8. Private scholarships	
Total resources for college	$3,889

	Beth
A. Total student budget	$5,789
M. Total family contribution	1,729
N. Demonstrated financial need	4,060
1. Pell Grant	1,850
2. State scholarship	1,375
3. Institutional grant	
4. College Work-Study	
5. Perkins Loan	500
6. Supplemental Educational Opportunity Grant	335
7. Guaranteed Student Loan	
8. Private scholarships	
Total resources for college	$5,789

***Andrea** received a financial aid award offer from the community college that fully met her need. She received a federal Pell Grant, as well as a College Work-Study award (clerking in the campus library) and a Perkins Loan (which she will have to repay once she graduates or leaves school). Although Andrea did not receive any private scholarships, she did identify several for which she might be eligible once she becomes an upperclassman, including some scholarships targeted specifically for engineering students and minority students; she has already started a file on such opportunities.*

*The financial aid award offer **Beth** received met her demonstrated need and included aid from a wide variety of sources. She received a large Pell Grant from the federal government, a scholarship from her state student assistance agency, and—because her family income is quite low—a Supplemental Educational Opportunity Grant. In addition, like almost all financial aid recipients, Beth will be expected to assume some "self-help aid." In her case, she received a Perkins Loan, which she'll have to repay.*

	Carlos
A. Total student budget	$11,982
M. Total family contribution	3,705
N. Demonstrated financial need	8,277
1. Pell Grant	
2. State scholarship	1,500
3. Institutional grant	2,750
4. College Work-Study	1,402
5. Perkins Loan	
6. Supplemental Educational Opportunity Grant	
7. Guaranteed Student Loan	2,625
8. Private scholarships	1,000*
Total resources for college	$11,982

*Included in M (above).

*Even though **Carlos'** family had the greatest resources among the three students, he also had the greatest need because the college he wanted to attend had the highest costs. The financial aid award offer he received met his full need. Because his parents' income was higher than the average, he was not eligible for a federal Pell Grant or a Supplemental Educational Opportunity Grant. The college did award him a scholarship from its own scholarship fund, and in addition, he won a scholarship offered each year by his local Chamber of Commerce to a senior who demonstrates exceptional academic aptitude and leadership abilities and a Rotary Club scholarship for community service. In order to fully meet his need, Carlos was also offered a large "self-help" award that included a College Work-Study assignment and a Guaranteed Student Loan.*

Your personal plan

Now that you've followed Andrea, Beth and Carlos through the financial aid application process according to the uniform methodology, here are worksheets for you to complete for your own need analysis estimate. You can begin to make your own plans by filling in Worksheet 1 for the colleges you are considering. You can use the college cost information in Part II of this book, but *remember* that these costs are for the 1987-88 academic year. If you will be starting college in September 1988, you should raise the figures by at least 6 percent (some colleges will have a greater increase, others a smaller one). When you are actually applying for aid, the college catalog or financial aid bulletins for the colleges to which you are applying are the most authoritative sources of information about costs that will apply to you.

You can begin to get a sense of your need at these colleges by completing your own Worksheets 2–5. These will take you through the steps of estimating parents' expected contribution (Worksheet 2 and table of parents' contribution), estimating your own contribution (Worksheet 3), combining the total family contribution (Worksheet 4), and finding the difference between the contribution and the costs at each of the colleges you are considering (Worksheet 5)—that is, your financial need.

Worksheet 1: Estimating student expenses	*College A*	*College B*	*College C*
1. Tuition and fees	$	$	$
2. Books and supplies			
3. Student's room			
4. Student's board/meals*			
5. Personal (clothing, laundry, recreation, medical)			
6. Transportation**			
7. Other (such as costs of child care, extra expenses because of handicap)			
A. Total budget (Add 1-7)	$	$	$

* You will want to consider these expenses to your family if you live at home.

** If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a student makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to college.

See Worksheet 2 for Andrea, Beth, and Carlos and use the tables following their worksheet to help you estimate parents' expected contribution.

Worksheet 2: Estimating parents' expected contribution	
1987 income:	
1. Father's yearly wages, salaries, tips, and other compensation	$
2. Mother's yearly wages, salaries, tips, and other compensation	
3. All other income of mother and father (dividends, interest, social security, pensions, welfare, etc.)	
B. Total income (Add 1, 2, 3)	
Expenses:	
4. Adjustments to income such as employee business expenses, disability income exclusion (the amount allowed on U.S. income tax return). Do not include IRA/Keogh payments or deductions for a married couple when both work.	
5. U.S. income tax parents expect to pay on their 1987 income (not amount withheld from paycheck)	
6. Social Security (FICA) tax (7.15% times each salary to a maximum of $3,132)	
7. State and other taxes (insert 8% of B)	
8. Medical and dental expenses not covered by insurance (include insurance premiums) in excess of 5% of B	
9. Elementary and secondary school tuition paid for other dependents to a maximum of $3,450 per child	
10. Employment allowance. If a 2-parent family and both parents work, allow 35% of lower salary to a maximum of $2,100; if 1-parent family, allow 35% of salary to a maximum of $2,100. No allowance for a 2-parent family in which only 1 parent works.	
11. Standard maintenance allowance (See Table for 11)	
C. Total allowances against income (Add 4, 5, 6, 7, 8, 9, 10, 11)	
D. Available income (Subtract C from B)	
Assets:	
12. Home equity (total estimated value of your home on the current market minus any unpaid balance on your mortgage)	
13. Other real estate equity (value minus unpaid balance on mortgage)	
14. Business or farm (Figure total value minus indebtedness and then take percentage shown in table.) If your family is only part owner of the farm or business, list only your share of the net value.	
15. Cash, savings, and checking accounts	
16. Other investments (current net value)	
E. Total assets (Add 12, 13, 14, 15, 16)	
Deductions:	
F. Asset protection allowance (See Table for F)	
G. Remaining assets (Subtract F from E)	
H. Income supplement from assets (Multiply G by 12% if G is $0 or more. If G is negative, use conversion percentage from Table for H.)	
I. Adjusted available income (Add D and H)	
J. Parents' expected contribution (Multiply I by taxation rate amount given in Table for J)	
K. Parents' expected contribution if more than one dependent child is in college (Divide J by number of dependent children in college at least half time)	$

Student's expected contribution

Students, too, are expected to contribute toward college costs—from savings, part-time employment, and special benefits received, such as social security or veteran's benefits. If you are applying for financial aid you will be expected to contribute *at least* $700 from earnings. If you are unable to earn that much money (or find employment), let the financial aid administrator know. The administrator may be able to accommodate this shortfall through additional loans or work opportunities during the academic year.

Worksheet 3: Student's expected contribution	
L. Student's 1987 income	$
17. Student's yearly wages, salaries, tips, and other compensation	
18. Spouse's yearly wages, salaries, tips, and other compensation	
19. All other income of student (dividends, interest, untaxed income, and benefits)	
M. Total income (Add 17, 18 and 19.)	
Allowances	
20. U.S. income tax student (and spouse) expect to pay on 1987 income (not amount withheld from paychecks)	
21. State and other taxes (Enter 4% of M.)	
22. Social security (FICA) tax (7.15% times salary of student and spouse to a maximum of $3,132 per person)	
N. Total allowances against student's income (Add 20, 21, and 22.)	
O. Available income (Subtract N from M.)	
Resources	
23. Contribution from income (Enter the greater of 70% times *Available income* from line O or $700 for the freshman year—$900 for any other year.)	
24. Contribution from assets (multiply the total value of savings and other assets—such as stocks and bonds—by 35%.)	
25. Other gifts and scholarships already received	
Q. Total student resources (add 23, 24, 25, and 26)	$

Total family contribution

Use *Worksheet 4: Total Family Contribution* to transfer figures from Worksheet 2 (line J, or line K if there will be more than one family member in college) and from Worksheet 3 (line Q). By adding together these two figures, you can determine your total estimated family contribution.

Worksheet 4: Total family contribution	
J. Parents' expected contribution (Use figure for K instead of J if there is more than one family member in college.)	$
Q. Student's expected contribution from resources	
R. Total family contribution (Add J and Q.)	$

Estimated financial need

Are you potentially eligible for financial aid? Use *Worksheet 5: Student Need* to compare your family contribution with the cost of going to college. Record the student expense budgets at the colleges that interest you. Enter your total family contribution (from line R in Worksheet 4) and subtract it from each of the student expense budgets. If your family contribution is less than the student expense budget, you have financial "need," and you are probably eligible for financial aid equal to this estimate of your need.

Remember that the figure you arrive at in line T is only an estimate, and you should consider this figure to be only a rough approximation of your eligibility for financial aid. Your eligibility for financial aid, and the amount and type of aid you receive, will be determined by the financial aid administrator at each college. The only way you can find out for sure if you are eligible to receive financial aid and how much you might receive is to apply for financial aid!

Worksheet 5: Student need	*College A*	*College B*	*College C*
S. Total college expense budget	$	$	$
R. Total family contribution			
T. Student need (Subtract R from S)	$	$	$

Glossary

The definitions given here of terms commonly used by colleges to describe their programs, admissions procedures, and financial aid policies are necessarily general. Students should consult the catalogs of specific colleges and financial aid programs to get more detailed and up-to-date descriptions of their programs and procedures.

Accelerated program. A college program of study completed in less time than is usually required, most often by attending in summer or by carrying extra courses during the regular academic terms. Completion of a bachelor's degree program in three years is an example of acceleration.

ACT. *See* American College Testing Program Assessment.

Advanced placement. Admission or assignment of a freshman to an advanced course in a certain subject on the basis of evidence that the student has already completed the equivalent of the college's freshman course in that subject. In some cases the college also grants academic credit for the college-level work that has been completed.

Advanced Placement (AP) Program. A service of the College Board that provides high schools with course descriptions in college subjects and Advanced Placement Examinations in those subjects. High schools administer the examinations to qualified students, who are then eligible at many colleges for advanced placement, college credit, or both on the basis of satisfactory grades.

AFSA. *See* Application for Federal Student Assistance.

American College Testing Program Assessment (ACT). Test battery of the American College Testing Program, given by the test centers in the United States and other countries on specified dates throughout the year. It includes tests in English usage, mathematics usage, social studies reading, and natural sciences reading.

APP. *See* Advanced Placement Program.

Application for Federal Student Assistance (AFSA). The form distributed by the federal government for use by students applying for Pell Grants and federal campus-based aid.

Bachelor's degree. The degree given for completing undergraduate college programs that normally take four years. Also called the baccalaureate degree.

Campus-based programs. The three federally funded student financial aid programs that are directly administered by colleges: Supplemental Educational Opportunity Grants Program, Perkins Loan Program (formerly the National Direct Student Loan Program), and College Work-Study Program.

Candidates Reply Date Agreement (CRDA). A college subscribing to this agreement will not require any applicants offered admission as freshmen to notify the college of their decision to attend (or to accept an offer of financial aid) before May 1. The purpose of the agreement is to give applicants time to hear from all the colleges to which they have applied before they have to make a commitment to any one of them.

Certificate. An award for completing a particular program or course of study, sometimes given by two-year colleges or vocational or technical schools.

CLEP. *See* College-Level Examination Program.

College-Level Examination Program (CLEP). A service of the College Board that provides examinations in undergraduate college subjects and courses so that stu-

dents and other adults may show college-level achievement for which they have not previously received college credit. The examinations are used by colleges to evaluate the status of adult applicants who have not attended college (or have not done so recently), students transferring from other colleges, and entering freshmen. They are also used by business, industries, government agencies, and professional groups to satisfy education requirements for advancement, licensing, admission to further training, and other purposes.

College Scholarship Service (CSS). A service of the College Board that assists postsecondary institutions, the federal government, state scholarship programs, and other organizations in the equitable distribution of student financial aid funds. By measuring a family's financial strength and analyzing its ability to contribute to college costs, CSS need analysis services offer a standardized method of determining a student's need.

College Work-Study Program (CWSP). A federally sponsored program that provides jobs for students with demonstrated financial need. Students typically work 10 to 15 hours a week during the academic year (and more during vacation periods), and are paid at least the federal minimum wage. Students employed through CWSP may work for colleges as well as public and private nonprofit organizations.

Consumer Price Index (CPI). A measure of inflation or deflation at the consumer level, updated monthly by the U.S. Bureau of Labor Statistics. The index is based on a "market basket" approach to the price of food, shelter, clothing, transportation, and other items for urban consumers.

Cooperative education. A college program in which a student alternates between periods of full-time study and full-time employment in related work. Students are paid for their work at the prevailing rate. Typically, five years are required to complete a bachelor's degree program, but graduates have the advantage of having completed about a year's practical experience in addition to their studies. Some colleges refer to this sort of program as work-study, but it should not be confused with the federally sponsored College Work-Study Program.

CRDA. *See* Candidates Reply Date Agreement.

Credit by examination. Academic credit granted by a college for a student's having demonstrated proficiency in a subject as measured by an examination.

CSS. *See* College Scholarship Service.

CWSP. *See* College Work-Study Program.

Dependent student. A student dependent on his or her parents for financial support. For financial aid purposes, a student is classified as dependent unless the strict definition of self-supporting status is met in all respects.

Early decision. Early decision admission plans are offered for applicants who are sure of the college they want to attend and are likely to be accepted by the college. An early decision admission application is initiated by the student, who is then notified of the college's decision earlier than usual—generally by December 15 of the senior year.

Early Decision Plan (EDP-F, EDP-S). Colleges that subscribe to this plan agree to follow a common schedule for early decision applicants. Colleges may offer either of two plans. A student applying under the first-choice plan (EDP-F) must withdraw applications from all other colleges as soon as he or she is notified of acceptance by the first-choice college. A student applying under the single-choice plan (EDP-S) may not apply to any colleges other than his or her first choice unless rejected by that institution. If a college follows either type of plan, applications (including those for financial aid) must be received by a specified date no later than November 15, and the college agrees to notify the applicant by a specified date no later than December 15.

FAF. *See* Financial Aid Form.

Family contribution. The total amount a student and his or her family are expected to pay toward college costs from their income and assets. The amount is derived from need analysis of the family's overall financial situation. Generally, students are eligible for financial aid equal to their financial need.

Family Financial Statement (FFS). A financial information collection document of the American College Testing Program's Financial Aid Services, used by parents of dependent students or by independent students to supply information about their income, assets, expenses, and liabilities. The ACT Program uses this information in estimating how much money a family is able to contribute toward a student's college expenses, but aid sponsors make the final determination.

FFS. *See* Family Financial Statement.

Financial aid award letter. A notice from a college or other financial aid sponsor that tells a student how much aid is being offered. The award letter also usually explains how a student's financial need was deter-

mined, describes the contents of the financial aid package, and outlines any conditions attached to the award.

Financial Aid Form (FAF). A financial information collection document of the College Scholarship Service, used by parents of dependent students or by independent students to supply information about their income, assets, expenses, and liabilities. The CSS uses this information in estimating how much money a family is able to contribute toward a student's college expenses, but aid sponsors make the final determination.

Financial aid package. The total financial aid award received by a student. It may be made up of a combination or "package" of aid that includes both gift aid and self-help. Many colleges try to meet a student's full financial need, but availability of funds, institutional aid policies, and the number of students needing assistance all influence the composition of a financial aid package.

Financial need. The amount by which a student's family contribution falls short of covering the student expense budget. Generally, students are eligible for financial aid equal to their financial need.

Gift aid. Student financial aid such as scholarships and grants, that does not have to be repaid and that does not require a student's being employed.

Guaranteed Student Loan Program (GSL). A federal program that lets students borrow money for education expenses directly from banks and other lending institutions (sometimes the colleges themselves). Dependent students may borrow up to $2,625 per academic year when they are freshmen and sophomores, $4,000 when they are juniors and seniors, and up to $17,250 for the total undergraduate program. Students must demonstrate need in order to qualify. The federal government pays the interest while the student is in college. Repayment terms are favorable, and repayment need not begin until the student graduates or leaves school. Deferments for limited periods are available under certain conditions.

Independent student. *See* Self-supporting student.

NDSL. *See* Perkins Loan (formerly National Direct Student Loan Program).

Need analysis. The method for determining how much a family can reasonably be expected to pay toward a student's college education costs. Need analysis is based on the assumption that parents and students have the major responsibility for paying college costs to the extent they are able. Formulas used in need analysis are updated annually to reflect changes in the economy, and are approved by the federal government and most colleges and other organizations that award financial aid.

Need analysis form. A form used by students to apply for financial aid. In many cases a need analysis form is the only form that students need to submit to be considered for all types of financial aid—institutional, state, and federal. The principal need analysis forms are the College Scholarship Service's Financial Aid Form (FAF) and the American College Testing Program's Family Financial Statement (FFS).

Need analysis report. A report sent to colleges and programs as a result of a student's having submitted a need analysis form as a part of applying for financial aid. The need analysis report contains a preliminary estimate of the student's family contribution and financial need.

Open admission. The college admissions policy of admitting high school graduates and other adults generally without regard to conventional academic qualifications, such as high school subjects, high school grades, and admissions test scores. Virtually all applicants with high school diplomas or their equivalent are accepted.

Parents' contribution. The amount a student's parents are expected to pay toward college costs from their income and assets. The amount is derived from need analysis of the parents' overall financial situation. The parents' contribution and the student's contribution together constitute the total family contribution, which, when subtracted from the student expense budget, equals financial need. Generally students are eligible for financial aid equal to their financial need.

Parent Loans for Undergraduate Students (PLUS). A federal program that lets parents of undergraduate dependent students borrow for their children's education expenses directly from banks and other lending institutions. Parents may borrow up to $4,000 per academic year and up to $20,000 for the total undergraduate program of each child. The federal government guarantees the loan against loss due to death, disability, or default, and subsidizes the interest rate. Repayment begins within 60 days after disbursement and may extend up to 10 years. The interest rate is set annually, to a maximum of 12 percent.

Pell Grant Program (formerly Basic Educational Opportunity Grant Program or BEOG). A federally sponsored and administered program that provides grants based on need to undergraduate students. Congress annually sets the dollar range of Pell Grants. In 1987-88, the grants can be as high as $2,100. Students apply using a need analysis form or a form submitted directly to the federal government.

Perkins Loan (formerly the National Direct Student Loan or NDSL Program). A federally funded program that provides loans of up to $4,500 for the first two undergraduate years and up to $9,000 for the total undergraduate program. Repayment need not begin until the student graduates or leaves school; service in the military, Peace Corps, VISTA, or comparable organizations may carry other special provisions for deferment or cancellation. Repayment terms are favorable, and repayment may be partially or wholly waived for certain kinds of employment.

PLUS. See Parent Loans for Undergraduate Students.

Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT). A shorter version of the College Board's Scholastic Aptitude Test administered by high schools each year in October. The PSAT/NMSQT aids high schools in the early guidance of students planning for college and serves as the qualifying test for scholarships awarded by the National Merit Scholarship Corporation.

Reserve Officers' Training Corps (ROTC). Reserve Officers' Training Corps programs conducted by certain colleges in cooperation with the United States Air Force, Army, and Navy. Local recruiting offices of the services themselves can supply detailed information about these programs. Information is also available from participating colleges.

ROTC. *See* Reserve Officers' Training Corps.

SAT. *See* Scholastic Aptitude Test.

Scholastic Aptitude Test (SAT). The College Board's test of verbal and mathematical reasoning abilities, given on specified dates throughout the year at test centers in the United States and other countries. It includes the Test of Standard Written English (TSWE) whose questions evaluate the ability to recognize standard written English, the language of most textbooks. Required of substantially all applicants by many colleges and sponsors of financial aid programs.

Self-help. Student financial aid, such as loans and jobs, that requires repayment or a student's being employed.

Self-supporting student. For financial aid purposes, a student who is independent of support from his or her parents.

SEOG. *See* Supplemental Educational Opportunity Grant Program.

SAR. *See* Student Aid Report.

Student Aid Report (SAR). A report prepared by the the United States Department of Education and sent to students who have applied for federal student financial aid. A copy of the SAR must be submitted to the college that the student attends in order to certify his or her eligibility for federal assistance, such as the Pell Grant Program, College Work-Study Program, Perkins Loan Program, and Supplemental Educational Opportunity Grant Program.

Student expense budget. The annual cost of attending college that is used in determining a student's financial need. Student expense budgets usually include tuition and fees, books and supplies, room and board, personal expenses, and transportation. Sometimes additional expenses are included for students with special education needs, students who have a disability, or students who are married or have children.

Student's contribution. The amount students are expected to pay toward college costs from their income, assets, and benefits. The amount is derived from need analysis of the student's resources. The student's contribution and parents' contribution constitute the total family contribution, which, when subtracted from the student expense budget, equals financial need. Generally students are eligible for financial aid equal to their financial need.

Summer savings. The amount from a student's summer employment that a college assumes the student can apply toward college costs. Freshman students are usually expected to have at least $700 in summer savings; more is expected of upperclassmen.

Supplemental Educational Opportunity Grant Program (SEOG). A federal program administered by colleges to provide need-based aid to undergraduate students. Grants range from $100 to $4,000 a year.

Part II. Information about colleges and universities

1. College expenses and financial aid

Introduction

This section provides detailed lists of expenses and financial aid at over 3,500 colleges, universities, and proprietary schools. The data were collected on questionnaires sent from November 1986 to April 1987. The lists are alphabetical by state, and include all institutions providing data by July 1, 1987.

Institutions were asked to give expense figures for the academic year beginning in fall 1987. If the 1987-88 costs were not yet set but a reliable forecast was available, these estimated costs are given with a dagger next to the institution's name. If these figures were not yet available but the institution provided 1986-87 expenses, these are listed with a double dagger next to the name of the institution.

Details on each category of expenses and financial aid and what these figures can mean to applicants are explained here.

In an effort to collect comparable cost information, the College Board asked institutions to provide data for specifically budgeted items. The figures supplied under each column heading represent the following.

Educational costs

Tuition and fees

This figure indicates the annual tuition and general fees an institution charges most first-year, full-time students. Colleges were asked to report these costs based on a nine-month academic year of 30 semester hours or 45 quarter hours.

Additional out-of state/district tuition

This item represents only the *additional* charge made to students who do not meet state or district residency requirements. The figure to the left of the diagonal mark shows additional charges for out-of-state students; the figure to the right shows additional out-of-district charges. These charges added to the tuition and fees in the first column will give you the total tuition and fees for out-of-state and out-of-district students, respectively.

Books and supplies

This figure is the average cost of books and supplies for the normal course load for full-time students. Supplies may be more expensive for students in certain areas of study (art, architecture, or engineering, for example) and institutions did not include these special costs unless the majority of their students are in these fields.

Living costs: Campus residents

Room and board for campus residents

For resident students, room and board includes the charge for living and eating for nine months in facilities operated by or for the college. These are average charges based on double-room occupancy and 21 meals a week in college facilities.

Transportation for campus residents

These figures include typical costs for two round trips between home and campus during the nine-month academic year. If you anticipate more frequent trips between home and campus during the academic year, you should adjust this figure accordingly.

Other costs for campus residents

This column shows typical costs for miscellaneous personal expenses, such as clothing, laundry, entertainment, snacks, medical insurance, and furnishings.

Living costs: Students living at home

Board for students at home

This column shows average costs for dependent students living at home, including three meals a day, seven days a week.

Transportation for students at home

The figures in this column represent the typical costs for daily travel to and from college for students who commute.

Other costs for students at home

This column shows miscellaneous personal expenses for students living at home. These include clothing, laundry, entertainment, and medical insurance.

Financial aid information

Total freshmen enrolled

This is the total freshman enrollment for fall 1986 on which the percentage of freshman students receiving aid is based.

Percent receiving aid

This figure represents the percentage of enrolled freshmen (preceding column) who received some form of financial aid in fall 1986. The aid could be based on financial need or on other criteria such as talent or athletic ability. The financial aid could be in the form of grants, scholarships, loans, or jobs.

Freshmen judged to have financial need

This column shows the number of freshmen in fall 1986 who were judged to have financial need.

Percent receiving aid

This figure is the percentage of freshmen with financial need (preceding column) who were offered aid. The financial aid could be grants, loans, or jobs.

Scholarships

Need-based scholarships

An X in these columns indicates that the college awards scholarships on the basis of financial need combined with exceptional academic ability or talent in music or drama, art, athletics, or other areas.

No-need scholarships

An X in these columns indicates that the college awards scholarships, without regard for financial need, on the basis of exceptional academic ability or talent in music or drama, art, athletics, or other areas.

Financial aid deadlines

Priority deadline for financial aid

The priority deadline is the date by which the college prefers you submit your financial aid application. Missing this deadline may mean that most or all financial aid may have already been awarded, but it does not necessarily mean that *all* aid has been given. It is best to meet the college's priority deadline in order to have the best chance of receiving aid if you qualify.

Closing deadline for financial aid

This is the final date by which the college will accept your application for financial aid.

Need analysis document required

This column indicates which standard financial aid application form is required by the college. If more than one form is listed, the college will accept either one. An asterisk (*) next to one of the forms means that the college prefers that you use this form. For example, "FAF*, FFS" means that the college will accept either the FAF or FFS but prefers the FAF. These are the forms that appear in this column:

FAF—Financial Aid Form of the College Scholarship Service.

FFS—Family Financial Statement of the American College Testing Service.

SAAC—Student Aid Application for California. (Because the SAAC is comparable to the FAF, California residents should note that the SAAC is generally accepted in place of the FAF.)

PHEAA—Application form of the Pennsylvania Higher Education Assistance Agency.

AFSA—Application for Federal Student Assistance. (May be used to apply for Pell Grants, or students may check off the Pell Grant box on the FAF, FFS, SAAC, or PHEAA.)

CUNY Aid Form—Aid application form for the City University of New York system.

In general, the AFSA is listed only for those institutions that require no other need analysis document. State-specific forms are not listed unless they are the only form required by the college; most colleges require that you apply for your state scholarship or grant program, but typically they have other need analysis requirements as well. Many colleges also require your parents (or you) to submit a copy of your tax returns (IRS Form 1040) in addition to the need analysis document listed.

3. Sources of information about state grant programs and the Guaranteed Student Loan Program

State scholarships and grants

The major state scholarship and grant programs are described in the following list. Included in the description of each program are eligibility requirements, average awards, and the address of the administrative agency. Unless otherwise indicated, funds are available to residents with financial need who are enrolled for full-time study at eligible postsecondary institutions in their state of residence.

Alabama

Alabama Student Assistance Program—Variable grants at in-state postsecondary institutions.

Alabama Student Grant Program—Grants of up to $600 at eligible private nonprofit colleges and universities. Does not require financial need.

National Guard Educational Assistance Program—Available to members of the Alabama National Guard for college study. Pays for tuition, fees, books, and supplies up to $500 per term or $1,000 per year.

Emergency Secondary Education Scholarship and Loan Program—Available to mathematics and science education majors in accredited in-state teacher education programs, up to $4,000 per year.

Teacher Re-Certification Scholar Loan Program—Available to public school teachers working for their certification in critical-need fields, i.e., mathematics and science, up to $4,000 per year.

For more information, contact the Alabama Commission on Higher Education, One Court Square, Suite 221, Montgomery, Alabama 36197.

Alaska

Alaska Student Incentive Grant Program—Grants of up to $1,500 for use at eligible in-state and out-of-state postsecondary institutions.

Alaska State Student Loan Program—Loans of up to $5,500 per year for undergraduate students and $6,500 per year for graduate students who are Alaska residents and otherwise eligible for full-time study at in-state and out-of-state accredited institutions.

For more information, contact the Alaska Commission on Postsecondary Education, Box FP, Juneau, Alaska 99811.

Arizona

Arizona State Student Incentive Grant Program—Grants of $100 to $2,500 at accredited in-state postsecondary institutions for needy Arizona residents.

For more information, contact the financial aid office at the institution you wish to attend.

Arkansas

Arkansas Student Assistance Grant Program—Grants of $200 to $500 at colleges and universities. Based on academic ability and financial need. Must be an Arkansas resident.

For more information, contact the Department of Higher Education, 1220 West Third Street, Little Rock, Arkansas 72201.

California

Three state student aid programs: Cal Grant A—Grants of $600 to $4,320 at independent colleges, $300 to $1,112 at the University of California, and about $326 at California State University. Cal Grant B—Subsistence grants of $300 to $1,340 and in some cases tuition. Cal Grant C—Grants of up to $2,360 for tuition plus $530 for training-related expenses at vocational and technical schools.

California Guaranteed Student Loans—Loans made by private lending institutions of up to $2,625 per year for undergraduates and up to $7,500 per year for graduates.

California Loans to Assist Students—Loans made by private lending institutions of up to $4,000 per academic year to parents of dependent undergraduate students, to independent undergraduate students, and to graduate students.

For more information, contact the California Student Aid Commission, 1410 Fifth Street, Sacramento, California 95814.

Colorado

Student Grant—Grants of up to $2,000 at eligible postsecondary institutions. State residents only. Students must show financial need to be eligible.

Scholarship Program for Undergraduate Students—Scholarships of up to the amount of resident tuition and mandatory student fees at in-state institutions. State residents only.

For more information, contact the financial aid office at the institution you wish to attend.

Connecticut

State Scholastic Achievement Grant Program—Grants of up to $2,000 may be taken to Connecticut colleges. Grants of up to

$500 may be taken to colleges located in reciprocal states. Based on academic performance and financial need. February 15 application deadline.

For more information, contact the Department of Higher Education, 61 Woodland Street, Hartford, Connecticut 06105.

Delaware

Delaware Postsecondary Scholarship Fund—Grants of $200 to $1,000 at approved Delaware, Maryland, and Pennsylvania colleges and at colleges outside Delaware if the program of study is not offered at Delaware tax-supported colleges.

For more information, contact the Delaware Postsecondary Education Commission, 820 French Street, Fourth Floor, Wilmington, Delaware 19801.

District of Columbia

District of Columbia Student Incentive Grant Program—Grants of $400 to $1,500 per academic year. Renewable.

For more information, contact the D.C. Office of Postsecondary Education, Research and Assistance, 1331 H Street, N.W., Suite 600, Washington, D.C. 20005.

Florida

Florida Student Assistance Grant Program—Grants of $200 to $1,200 at eligible Florida colleges.

State Tuition Voucher Fund—Grants of up to $1,000 for full-time undergraduate study at independent colleges and universities for students who have been residents of Florida for two years.

Florida Academic Scholars Fund—Merit scholarships of $1,000 to $1,500 depending on tuition and fees. Awarded to students with outstanding high school academic achievement who have been residents of Florida for two years.

For more information, contact the Office of Student Financial Assistance, Florida Department of Education, Knott Building, Tallahassee, Florida 32399.

Georgia

Georgia Student Incentive Grant Program—Grants of $150 to $450 at nonprofit postsecondary institutions.

Georgia Tuition Equalization Grant Program—Grants of $875 at private colleges. Does not require financial need.

Law Enforcement Personnel Dependents Grant—$2,000 a year for dependents of Georgia Law Enforcement Personnel who have been killed or rendered disabled in the line of duty.

For more information, contact the Georgia Student Finance Authority, 2082 East Exchange Place, Suite 200, Tucker, Georgia 30084.

Hawaii

Two programs exist that provide for tuition expenses at campuses of the University of Hawaii: Tuition Waivers and Pacific-Asian Scholarships.

Hawaii Student Incentive Grant Program—Grants covering tuition expenses at nonprofit postsecondary institutions.

For more information, contact the financial aid office at the institution you wish to attend.

Idaho

Scholarship Program—Grants of up to $1,500 per year at public and private Idaho postsecondary institutions. Based on academic ability. December 31 deadline.

For more information, contact the Office of the State Board of Education, 650 West State Street, Boise, Idaho 83720.

Illinois

General Assembly Scholarships—Waivers of tuition and fees at public postsecondary institutions. Selection by general assembly members from residents of their districts.

For more information on this program contact your district legislator directly.

Illinois Monetary Award Program—Grants of up to $3,100 at nonprofit postsecondary institutions for half-time (6 hours minimum) and full-time study, based on financial need.

Illinois Merit Recognition Scholarship—$500 scholarships to Illinois students who rank in the top 10 percent of their high school classes at the end of both the seventh and eighth semesters. Financial need is not a factor. Renewable for one year for students who continue to attend an approved college or university in Illinois and maintain grade-point averages of at least 2.5 on a 4.0 scale.

Congressional Teacher Scholarship—A federally funded program administered by the Illinois State Scholarship Commission providing scholarships of up to $5,000 per year to outstanding Illinois students who plan to become teachers at the elementary or high school level. Students must rank in the top 10 percent of their high school classes and may receive the award for four years.

For more information, contact the Illinois State Scholarship Commission, 500 West Monroe, Third Floor, Springfield, Illinois 62704.

Indiana

Higher Education Awards—Grants of $200 to $3,386 for full-time students at private, nonprofit in-state postsecondary institutions and of $200 to $1,284 at state-supported universities. Based on need. Awarded to Indiana residents working on their first undergraduate degree.

Hoosier Scholar Awards—One-time grants of $500 to state residents in the top 20 percent of their graduating class who are nominated by their high schools. Awards must be used at eligible in-state postsecondary institutions. Financial need is not considered.

Lilly Endowment Educational Awards — Grants of $200 to $1,300. Eligibility requirements are the same as for Indiana Higher Education Awards.

For more information, contact the State Student Assistance Commission of Indiana, 964 North Pennsylvania Street, Indianapolis, Indiana 46204-1088.

Iowa

Iowa Tuition Grant Program—Grants of up to $2,350 at private institutions (including nursing and business schools) for half-time and full-time study.

Iowa Vocational-Technical Tuition Grant Program—Grants of up to $450 at two-year public vocational and technical institutions for full-time study only.

State of Iowa Scholarship Program—Grants of $200 to $600. Based on academic ability and financial need.

For more information, contact the Iowa College Aid Commission, 201 Jewett Building, Ninth and Grand Avenues, Des Moines, Iowa 50309.

Kansas

Kansas Tuition Grant Program—Grants of up to $1,270 (averaging $1,200) at private, nonprofit postsecondary institutions.

State Scholarship Program—Stipends of up to $1,000. Based on academic ability and financial need.

For more information, contact the Board of Regents, Capitol Towers, Suite 609, 400 West Eighth, Topeka, Kansas 66603.

Kentucky

Kentucky Higher Education Assistance Authority Grant Program—Grants of $100 to $500. Supplementary grants of up to $1,200 are provided at the 500 eligible private postsecondary institutions.

For more information, contact KHEAA Grants, West Frankfort Office Complex, 1050 U.S. 127 South, Frankfort, Kentucky 40601.

Louisiana

State Student Incentive Grant Program—Grants of $200 to $1,500 at eligible in-state postsecondary institutions.

T.H. Harris Scholarship Program—$350 per year available to students with a 3.0 average in Louisiana public-supported colleges and universities. Based on academic ability. Does not require financial need.

Rockefeller Scholarship for Wildlife Programs—Up to $1,000 per year for students in forestry, wildlife management, fisheries, and marine science programs. A 2.5 average is required. Does not require financial need.

Education Majors Program—$2,000 per year for students enrolled or planning to enroll in a college of education. ACT composite score of 22 or of 20 with high school average of 3.0 or college average of 3.0 required.

Congressional Teacher's Scholarship Program—$5,000 per year for students with a high school average of 3.0 and ACT composite score of 20 and who rank in the top 10 percent of their high school graduating class or have a college average of 3.0 and rank in the top half of their high school graduating class.

For more information, contact the financial aid office at the institution you wish to attend.

Maine

State Student Aid Program—Grants of up to half of unmet need or $1,500, whichever is less, at Maine, Vermont, New Hampshire, Connecticut, Rhode Island, and Massachusetts colleges.

For more information, contact the Division of Higher Education Services, State Department of Educational and Cultural Services, State House Station 119, Augusta, Maine 04333.

Maryland

General State Scholarship Program—Grants of $200 to $2,000 at in-state public or private postsecondary institutions. Undergraduate awards based on need.

House of Delegates Grant Program—Grants of $200 to $1,500 to assist with tuition and fees at public and private postsecondary institutions for half-time and full-time study. Undergraduate and graduate students eligible.

Senatorial Scholarship Program—Grants of $200 to $1,500 at postsecondary institutions for half-time and full-time study. Based on academic ability and financial need. Undergraduate and graduate students eligible.

Distinguished Scholar Program—$1,600 undergraduate annual awards, based on merit or artistic talent for students nominated by their high schools.

For more information, contact the Maryland State Scholarship Board, 2100 Guilford Avenue, Baltimore, Maryland 21218.

Massachusetts

General Scholarship Program—Grants of $200 to $3,100 for Massachusetts residents attending full-time eligible in-state postsecondary institutions and approved institutions in Connecticut, the District of Columbia, Maine, Maryland, New Hampshire, Pennsylvania, Rhode Island, and Vermont.

Tuition-Waiver Program—Up to the full cost of tuition waived for students attending a state-supported college or university. Amount of waiver determined by the financial aid office.

Commonwealth Scholar—One-time only grants of up to $1,000 for students entering a college or university in Massachusetts as full-time freshmen. Candidates nominated by secondary school.

Honor Scholarship—Scholarships covering the cost of tuition for students entering Massachusetts state-supported four-year institutions.

Teacher Incentive Grant—Grants of up to $1,000 for full-time undergraduate students attending Massachusetts public postsecondary institutions and up to $2,000 for students attending in-state private postsecondary institutions. Students must agree to teach full time following graduation.

For more information, contact the Massachusetts Board of Regents of Higher Education, 150 Causeway Street, Room 600, Boston, Massachusettes 02114.

Michigan

Tuition Grant Program—Grants of up to $2,350 at independent nonprofit colleges and universities based on financial need.

Competitive Scholarship Program—Awards based on academic ability and financial need.

For more information, contact Student Financial Assistance Services, P.O. Box 30008, Lansing, Michigan 48909.

Minnesota

Minnesota State Scholarship and Grant-In-Aid Programs—Grants of up to $4,400.

Part-Time Student Grant Program—Grants for students attending less than half-time.

Interstate Tuition Reciprocity Programs—Under these programs Michigan residents pay a tuition rate that is less than the normal out-of-state charges at public collegiate and vocational institutions in Wisconsin, North Dakota, South Dakota, and some Iowa institutions.

For more information, contact the Minnesota Higher Education Coordinating Board, 550 Cedar Street, Suite 400, St. Paul, Minnesota 55101.

Mississippi

State Student Incentive Grant—Grants of $200 to $1,500.

For more information, contact your college financial aid office or the Mississippi Postsecondary Education Financial Assistance Board, P.O. Box 2336, Jackson, Mississippi 39225-2336.

Missouri

Student Grant Program—Grants of up to $1,500 (averaging $900) to Missouri residents at Missouri undergraduate nonprofit postsecondary institutions. Divinity, theology, or religion majors are not eligible. Based on need; renewable. Missouri FAF or FFS required.

Missouri Higher Education Academic Scholarship Program—Grants of up to $2,000 for full-time undergraduate students at eligible institutions. Students must have ACT composite scores or SAT combined scores in top 3 percent of all Missouri students taking those tests. Theology or divinity majors are not eligible. State residency required.

For more information, contact the Missouri Coordinating Board for Higher Education, P.O. Box 1438, Jefferson City, Missouri 65102.

Montana

Montana Student Incentive Grant Program—Grants of up to $600 at public postsecondary institutions and the three private colleges.

Honor Scholarships—Tuition and fee waivers at public postsecondary institutions.

For more information, contact the Montana University System, 33 South Last Chance Gulch, Helena, Montana 59620.

Nebraska

State Student Incentive Grant Program—Grants averaging $300.

For more information, contact the Nebraska Coordinating Commission for Postsecondary Education, P.O. Box 95005, Lincoln, Nebraska 68509.

Nevada

Nevada Student Incentive Grant Program—Grants of up to $2,000 for half-time and full-time study.

For more information, contact the University of Nevada System, 405 Marsh Avenue, Reno, Nevada 89509.

New Hampshire

New Hampshire Incentive Program—Grants of $250 to $700 for resident, undergraduate, full-time students, based on financial need. Grants portable by New Hampshire residents to five other New England states. Rank in upper three-fifths of high school graduating class required of first-time freshmen, 2.0 college average required of those with sophomore standing and above.

For more information, contact the New Hampshire Postsecondary Education Commission, 2½ Beacon Street, Concord, New Hampshire 03301.

New Jersey

Tuition Aid Grant Program—Grants of $200 to $3,000 at in-state colleges only.

Educational Opportunity Fund Grant Program—Grants of $200 to $1,700 at in-state colleges and universities only.

Garden State Scholarship Program—Grants of $200 to $1,000. Based on academic ability and financial need at in-state colleges only.

For more information, contact the Department of Higher Education, Office of Student Assistance, CN 540, Trenton, New Jersey 08625.

New Mexico

New Mexico Student Incentive Grant Program—Grants of up to $2,500 at public and private nonprofit postsecondary institutions. Need based.

For more information, contact the Commission on Higher Education, 1068 Cerrillos Road, Santa Fe, New Mexico 87501.

New York

New York Tuition Assistance Program—Grants of $350 to $2,850 depending on type of institution and need. Annual; available to undergraduate or graduate students.

New York State Regents College Scholarship Program—Scholarships of $250, based on academic ability.

Empire State Scholarships—Scholarships of up to $2,000 per year to full-time undergraduate students attending college in New York State.

Empire State Challenger Scholarships and Fellowships for Teachers—Scholarships of up to $3,000 per year for full-time undergraduate study to prospective teachers attending college in New York State. Graduate fellowships of up to $4,000 for one year full-time study and up to $1,000 for two years' part-time study; recipients must teach in an elementary or secondary school located in New York State.

Vietnam Veterans Tuition Awards (VVTA)—Grants of $500 per semester for full-time study and $250 per semester for part-time study for eligible applicants who served in the U.S. Armed Forces between January 1, 1968, and May 7, 1975, and are attending college in New York State.

Regents Award for Child of Deceased or Disabled Veterans—Grants of $450 to children of U.S. Armed Forces veterans who served during specified periods of war or national emergency and, as a result, died, suffered a 50 percent disability, are prisoners of war, or are missing in action. Full-time study in New York State required.

Regents Award for Child of Deceased Police Officer/Firefighter—Grants of $450 to children of police officers or firefighters who served in New York State and died as a result of injuries sustained in the line of duty. Full-time study in New York State required.

COLLEGE COSTS AND HOW TO PLAN FOR MEETING THEM

THE COLLEGE COST BOOK 1987-88

Here is the completely new and expanded edition of the College Board's official guide to paying for college. In it, students and parents will find comprehensive and authoritative information on how to make the most of their own resources and how to apply for financial aid at more than 3,100 accredited colleges and universities.

The College Cost Book provides the most complete and current listings available of college costs for both resident and commuter students. Now, in this 1987-88 edition, readers will find these college listings contain more information than ever before.

NEW THIS YEAR

The detailed financial aid information reported by each of the colleges listed now includes:

- percentage of freshmen receiving need-based and other types of aid
- availability of academic, athletic, art, music/drama, and other scholarships
- application deadlines and need analysis forms required

The College Cost Book's guidance section has been totally revised to include advice on both immediate and long-range planning for meeting college costs. All guidance materials have been updated to provide the latest information on how the Higher Education Amendments and Tax Reform Legislation of 1986 will affect paying for college.

Also provided are lists of colleges that offer tuition and fee waivers and special tuition payment plans. Other invaluable features include ■ sample financial aid forms ■ national and regional tables of typical college costs ■ need analysis worksheets.

OTHER BOOKS TO HELP YOU PLAN FOR COLLEGE

THE COLLEGE HANDBOOK 1987-88

This all-new, completely revised edition has been enhanced with several new features to help students find and compare the detailed information listed on over 3,100 two- and four-year colleges. These include ■ *College ABCs*—capsule facts on admissions acceptance rate, background of entering freshmen, and completion rates for enrolled students ■ *College Comments*—colleges' own descriptions of their academic and student life ■ *College Search Lists*—indexes of colleges by type, campus environment, and more. **$16.95**

INDEX OF MAJORS 1987-88

Lists more than 500 majors—and the degree levels at which they are offered—at more than 3,000 accredited colleges and universities. Also provides lists of colleges with special academic programs, including study abroad and combined bachelor's/graduate programs in business, law, and medicine. **$12.95**

Available for purchase in bookstores or by sending a check, made payable to the College Board, to: College Board Publications, Box 886, New York, New York 10101.

This book is distributed to the trade by the Macmillan Publishing Company.
